
Contents

1	The Cardiovascular System	1
1.1	Heart	1
1.1.1	Introduction	1
1.2	Vascular Changes	13
	References	18
2	The Respiratory System	19
2.1	Introduction	19
2.2	Nasal Turbinates	20
2.3	Pharynx	26
2.4	Larynx	27
2.5	Trachea/Tracheal Bifurcation	29
2.6	Bronchi/Bronchioles	30
2.7	Terminal Bronchioles/Alveolar Ducts	33
2.8	Lungs	35
	References	44
3	The Liver	47
3.1	Introduction	47
3.2	Hydropic Degeneration	48
3.3	Fatty Change (Steatosis)	49
3.4	Necrosis	51
3.5	Apoptosis	54
3.6	Nuclear Changes	55
3.7	Intracytoplasmic Inclusions	56
3.8	Pigments	57
3.9	Mineralisation	59
3.10	Hepatocellular Hypertrophy	59
3.11	Hyperplasia	62
3.11.1	Regenerative Hyperplasia	62
3.11.2	Diffuse Nodular Hyperplasia	63
3.12	Foci of Cellular Alteration	64
3.13	Bile Duct Hyperplasia	66
3.14	Oval Cell Proliferation	67
3.15	Cholangiofibrosis	68
3.16	ItoCell Prominence or Hyperplasia	69
3.17	Cirrhosis	71
3.18	Neoplasia	72
3.18.1	Cholangiocarcinomas	73
3.19	Gall Bladder	74
	References	75

4	The Alimentary System and Pancreas	77
4.1	The Oral Cavity	77
4.1.1	Teeth	79
4.2	Salivary Glands	81
4.3	Oesophagus	82
4.4	Stomach	84
4.4.1	The Rodent Forestomach	84
4.4.2	The Glandular Stomach	85
4.5	Small Intestines	90
4.6	Large Intestines	95
4.7	The Exocrine Pancreas	99
	References	105
5	The Urinary System	109
5.1	Kidney	109
5.1.1	Introduction	109
5.1.2	Glomerular Changes	110
5.1.3	Tubular Changes	112
5.1.4	Papilla	120
5.1.5	Vascular Changes	123
5.1.6	Tumours	125
5.2	Urinary Bladder	126
	References	128
6	The Male Reproductive System	131
6.1	Testes	132
6.2	Epididymis	140
6.3	Accessory Sex Glands	142
6.3.1	Seminal Vesicles/Prostate	142
	References	145
7	The Female Reproductive System	149
7.1	Introduction	149
7.2	Ovaries	149
7.2.1	Ovarian Tumours	154
7.3	Uterus	155
7.3.1	Uterine Tumours	159
7.4	Vagina and Cervix	161
7.4.1	Vaginal and Cervical Tumours	161
7.5	Mammary Gland	163
	References	167
8	The Endocrine System	169
8.1	Introduction	169
8.2	Adrenal Glands	169
8.2.1	Lesions of the Adrenal Cortex	170
8.2.2	Lesions of the Adrenal Medulla	175
8.3	Thyroid Gland	178
8.3.1	Induced Changes in the Thyroid Gland	178
8.4	Parathyroid Gland	186
8.5	Pancreatic Islets	187
8.6	Pituitary Gland	190
	References	194

9	The Lymphoid System	197
9.1	Introduction	197
9.2	Thymus	199
9.3	Lymph Nodes	201
9.4	Spleen	205
9.5	Bone Marrow	209
9.6	Neoplasms	212
	References	213
10	The Nervous System	215
10.1	Introduction	215
10.2	Neuronopathy	216
10.3	Axonopathy	218
10.4	Myelinopathy	220
10.5	Gliopathies	222
10.6	Other Changes	223
	10.6.1 Choroid Plexus Vacuolation	225
	10.6.2 CNS Tumours	225
	References	226
11	The Musculoskeletal System and Skin	229
11.1	Muscle	229
11.2	Bones	235
11.3	Joints	241
11.4	Skin and Adipose Tissue	242
	11.4.1 Skin	242
	11.4.2 Adipose Tissue	248
	References	250
12	The Eye and Ear	253
12.1	The Eye	253
	12.1.1 Cornea	254
	12.1.2 Retina	259
	12.1.3 Uveal Tract	264
	12.1.4 Lens	265
	12.1.5 Harderian Glands	267
	12.1.6 Lacrimal and Meibomian Glands	268
12.2	The Ear	270
	12.2.1 Zymbal's Gland	271
	References	272
	Index	275

Atlas of Toxicological Pathology

Gopinath, C.; Mowat, V.

2014, XI, 285 p. 300 illus., 200 illus. in color., Hardcover

ISBN: 978-1-62703-997-0
