

# Contents

<b>A Historical View of Nonlinear Programming: Traces and Emergence ...</b>	<b>1</b>
Giorgio Giorgi and Tinne Hoff Kjeldsen	
<b>A Gradient Method for Approximating Saddle Points and Constrained Maxima .....</b>	<b>45</b>
Kenneth J. Arrow and Leonid Hurwicz	
<b>Reduction of Constrained Maxima to Saddle-Point Problems.....</b>	<b>61</b>
Kenneth J. Arrow and Leonid Hurwicz	
<b>Constraint Qualifications in Maximization Problems.....</b>	<b>81</b>
Kenneth J. Arrow, Leonid Hurwicz, and Hirofumi Uzawa	
<b>Normality and Abnormality in the Calculus of Variations .....</b>	<b>99</b>
Gilbert A. Bliss	
<b>A Theorem of Fritz John in Mathematical Programming .....</b>	<b>111</b>
Richard W. Cottle	
<b>On Conjugate Convex Functions .....</b>	<b>125</b>
Werner Fenchel	
<b>Programming in Linear Spaces.....</b>	<b>131</b>
Leonid Hurwicz	
<b>Extremum Problems with Inequalities as Subsidiary Conditions .....</b>	<b>197</b>
Fritz John	
<b>Minima of Functions of Several Variables with Inequalities as Side Conditions.....</b>	<b>217</b>
William Karush	

<b>Nonlinear Programming</b> .....	247
Harold W. Kuhn and Albert W. Tucker	
<b>Second Order Conditions for Constrained Minima</b> .....	259
Garth. P. McCormick	
<b>An Indirect Sufficiency Proof for the Problem of Lagrange with Differential Inequalities as Added Side Conditions</b> .....	271
Louis L. Pennisi	
<b>Lagrange Multipliers Revisited</b> .....	293
Morton Slater	
<b>The Kuhn-Tucker Theorem in Concave Programming</b> .....	307
Hirofumi Uzawa	
<b>The Problem of Lagrange with Differential Inequalities as Added Side Conditions</b> .....	313
Frederick Albert Valentine	
<b>Appendices</b>	
<b>On Linear Inequalities</b> .....	359
Lloyd L. Dines and N.H. McCoy	
<b>Nonlinear Programming: A Historical View</b> .....	393
Harold W. Kuhn	
<b>Recherches sur la Méthode de Maximis et Minimis</b> .....	415
Joseph L. Lagrange	

Traces and Emergence of Nonlinear Programming

Giorgi, G.; Kjeldsen, T.H. (Eds.)

2014, XVI, 434 p.,

ISBN: 978-3-0348-0439-4

A product of Birkhäuser Basel
