

Contents

1	Introduction	1
2	Equilibrium Laser Pulse Heating and Thermal Stress Analysis	5
2.1	Introduction	5
2.2	Step Input Laser Pulse Heating	6
2.2.1	Stress Free Boundary at the Surface	6
2.2.2	Stress Continuity Boundary at the Surface	19
2.3	Time Exponentially Varying Laser Pulse Heating	26
2.3.1	Stress Free Boundary at the Surface	26
2.3.2	Stress Free Boundary and Convection at the Surface	36
2.3.3	Stress Boundary at the Surface	54
2.4	Entropy Analysis Due to Thermal Stress Field	64
2.5	Findings and Discussions	67
2.5.1	Step Input Pulse Heating	67
2.5.2	Time Exponentially Varying Laser Pulse Heating	71
2.5.3	Entropy Analysis Due to Thermal Stress Field	79
	References	84
3	Analytical Solution of Cattaneo and Thermal Stress Equations	85
3.1	Introduction	85
3.2	Surface Heat Source Consideration	86
3.2.1	Step Input Pulse Heating	87
3.2.2	Exponential Pulse Heating	92
3.3	Volumetric Source Consideration	95
3.3.1	Step Input Pulse Heating	96
3.3.2	Exponential Pulse Heating	103
3.4	Entropy Analysis	108
3.5	Findings and Discussion	110
3.5.1	Surface Heat Source Consideration	110
3.5.2	Volumetric Heat Source Consideration	114
3.5.3	Entropy Generation Rate	117
	References	119

4 Analytical Treatment of Hyperbolic Equations for Stress Analysis	121
4.1 Introduction	121
4.2 Formulation of Energy Transport in Metallic Substrates at Microscopic Level	122
4.3 Thermal Stress Field: Consideration of Surface and Volumetric Sources	134
4.3.1 Surface Heat Source Consideration	134
4.3.2 Volumetric Heat Source Consideration	140
4.4 Thermal Stress Field: Two-Dimensional Consideration	147
4.5 Findings and Discussions	153
4.5.1 Surface Heat Source Consideration	154
4.5.2 Volumetric Heat Source Consideration	158
4.5.3 Two-Dimensional Analysis.	160
References	164
5 Concluding Remarks	167
5.1 Equilibrium Heating.	167
5.1.1 Step Input Laser Pulse Intensity	168
5.1.2 Exponential Laser Pulse Intensity	168
5.2 Cattaneo Heating Model and Thermal Stresses	170
5.2.1 Exponential Laser Pulse Intensity	171
5.2.2 Step Input Laser Pulse Intensity	171
5.3 Non-Equilibrium Heating	173
5.3.1 Surface Heat Source Consideration	173
5.3.2 Volumetric Heat Source Consideration	174
5.3.3 Two-Dimensional Heating	174
References	174
Index	177

Laser Pulse Heating of Surfaces and Thermal Stress
Analysis

Yilbas, B.S.; Al-Dweik, A.Y.; Al-Aqeeli, N.; Al-Qahtani, H.M.

2014, X, 180 p., Hardcover

ISBN: 978-3-319-00085-5
