

# Contents

<b>1</b>	<b>The Moon in Antiquity and in the Development of Modern Science</b>	<b>1</b>
1.1	The Moon in the Greek World	1
1.2	The Beginning of the Age of Modern Science	9
1.3	Evolution of the Earth Moon System: Tides and Precession	12
1.4	Summary	14
<b>2</b>	<b>Lunar and Earth Sciences at the Time of the Apollo Landings</b>	<b>15</b>
2.1	Early Modern Studies of the Moon and Impact Cratering	15
2.2	Geology and Geophysics in the 1960s	17
2.3	Summary	21
	References	21
<b>3</b>	<b>The Birth of the Space Age and Unmanned Missions to the Moon</b>	<b>23</b>
3.1	First Steps into Space and Early Heroes	23
3.2	Unmanned Missions to the Moon and the Beginnings of Apollo Program	29
3.3	Summary	31
	References	32
<b>4</b>	<b>Apollo: Getting to the Moon</b>	<b>33</b>
4.1	Apollo Background	33
4.2	Apollo 1 to 11	37
4.3	Brief Summary of Remaining Apollo Missions	41
4.4	The Training of Apollo Astronauts as Geoscientists	43
4.5	Summary	45
<b>5</b>	<b>Advances in Lunar Science with Apollo</b>	<b>47</b>
5.1	Apollo Scientific Results	47
5.2	Lunar Stratigraphy	51

5.3	Paleomagnetism of Apollo Samples . . . . .	52
5.4	Magnetism of Lunar Crust: Surface and Sub-satellite Observations . . . . .	54
5.5	Summary . . . . .	56
<b>6</b>	<b>The Earth's Magnetism: Paleomagnetism as a Rosetta Stone for Earth History . . . . .</b>	<b>57</b>
6.1	The Geomagnetic Field and Its Paleomagnetic Record . . . . .	57
6.2	Magnetic Fields of the Cosmos . . . . .	62
6.3	The Paleomagnetic Record as a Rosetta Stone for Earth History . . . . .	63
6.4	Paleomagnetism: How the Magnetic Field is Recorded by Rocks . . . . .	63
6.5	Summary . . . . .	66
	References . . . . .	66
<b>7</b>	<b>Lunar Paleomagnetism: Methods and Preliminaries . . . . .</b>	<b>67</b>
7.1	The Continuing Debate Over Lunar Magnetism . . . . .	67
7.2	Laboratory Techniques . . . . .	69
7.3	Lunar Paleomagnetism: Beginning to Attack the Puzzle . . . . .	70
7.4	Summary . . . . .	72
	References . . . . .	72
<b>8</b>	<b>Impact Related Shock on the Lunar Surface and the Lunar Paleomagnetic Record . . . . .</b>	<b>73</b>
8.1	Cratering on the Earth and Moon . . . . .	73
8.2	Shock Effects on Remanent Magnetization . . . . .	76
8.3	Magnetic Fields of Terrestrial Impact Craters . . . . .	82
8.4	Summary . . . . .	82
	References . . . . .	83
<b>9</b>	<b>Lunar Paleomagnetism and the Case for an Early Lunar Dynamo . . . . .</b>	<b>85</b>
9.1	Criteria for Reliable Recording of Ancient Lunar Fields by NRM . . . . .	85
9.2	Apollo 11 Mare Basalt 10020 . . . . .	86
9.3	Intensity of Recorded Fields from NRM . . . . .	88
9.4	Paleomagnetism of Melt Breccias . . . . .	96
9.5	Paleointensity Summary . . . . .	100
9.6	Crustal Magnetism: Magnetic Anomalies . . . . .	100
9.7	Summary . . . . .	102
	References . . . . .	102

<b>10 Lunar Magnetism in the Grand Scheme of Lunar History . . . . .</b>	<b>103</b>
10.1 The Kona Conference and a Model of the Moon's Origin . . . .	103
10.2 Models of the Lunar Magnetism. . . . .	107
10.3 Summary . . . . .	109
References . . . . .	110
<b>Appendix A: Rotational Mechanics Background . . . . .</b>	<b>111</b>
<b>Appendix B: Units . . . . .</b>	<b>115</b>
<b>Appendix C: The Alphabet Soup of Remanent Magnetisms . . . . .</b>	<b>117</b>
<b>Appendix D: Magnetometers for Sample Measurement . . . . .</b>	<b>119</b>
<b>Appendix E: The Generation of Magnetic Fields in Electrically                 Conducting Media . . . . .</b>	<b>123</b>
<b>Appendix F: Theory of TRM . . . . .</b>	<b>127</b>
<b>Epilogue . . . . .</b>	<b>129</b>

Our Beautiful Moon and its Mysterious Magnetism

A Long Voyage of Discovery

Fuller, M.

2014, XIV, 130 p. 69 illus., 20 illus. in color., Softcover

ISBN: 978-3-319-00277-4
