## Part I Overview of Business Research

<b>1</b>	<b>Introduction to Business Research</b> . . . . .	3
1.1	Scope of Business Research . . . . .	3
1.2	Basic Research and Applied Research . . . . .	4
1.3	Role of Business Research in Decision-Making . . . . .	4
1.3.1	Problem/Opportunity Identification . . . . .	5
1.3.2	Problem/Opportunity Prioritization and Selection . . . . .	6
1.3.3	Problem/Opportunity Resolution . . . . .	6
1.3.4	Implementing the Course of Action . . . . .	7
1.4	Factors Affecting Business Research . . . . .	7
1.4.1	Time Constraint . . . . .	7
1.4.2	Availability of Resources . . . . .	8
1.4.3	Nature of Information Sought . . . . .	8
1.4.4	Benefits Versus Cost . . . . .	9
1.5	Globalization and Business Research . . . . .	9
1.6	Business Research and the Internet . . . . .	10
1.6.1	Primary Research . . . . .	10
1.6.2	Secondary Research . . . . .	11
1.7	Summary . . . . .	11
<b>2</b>	<b>Business Research Process</b> . . . . .	13
2.1	Steps in the Research Process . . . . .	13
2.1.1	Identifying and Defining the Problem/Opportunity . . . . .	13
2.1.2	Exploratory Research . . . . .	14
2.1.3	Preparing the Statement of Research Objectives . . . . .	15
2.1.4	Developing the Hypotheses . . . . .	15
2.1.5	Planning the Research Design . . . . .	16
2.1.6	Selecting the Research Method . . . . .	17
2.1.7	Surveys . . . . .	17
2.1.8	Experiments . . . . .	18

2.1.9	Secondary Data Studies . . . . .	18
2.1.10	Observation Techniques . . . . .	18
2.1.11	Analysing Research Designs . . . . .	18
2.1.12	Selecting the Sampling Procedure . . . . .	19
2.1.13	Data Collection . . . . .	20
2.1.14	Evaluating the Data . . . . .	20
2.1.15	Analysis . . . . .	21
2.1.16	Preparing and Presenting the Research Report . . . .	21
2.2	Summary . . . . .	22

## **Part II Research Design**

<b>3</b>	<b>Business Research Design: Exploratory, Descriptive and Causal Designs . . . . .</b>	<b>25</b>
3.1	Introduction . . . . .	27
3.2	Part I: Exploratory Research Design . . . . .	31
3.2.1	Exploratory Research Design: Secondary Data . . . .	31
3.2.2	Exploratory Research: Qualitative Data . . . . .	46
3.2.3	Depth Interviews . . . . .	47
3.2.4	Focus Group Interview . . . . .	51
3.2.5	Projective Techniques . . . . .	54
3.3	Part II: Descriptive Research Design . . . . .	58
3.3.1	Descriptive Research Design: Survey and Observation . . . . .	58
3.3.2	Classifying Survey Research Methods . . . . .	58
3.3.3	Questionnaire Design . . . . .	58
3.3.4	Cross-Sectional and Longitudinal Studies . . . . .	61
3.3.5	Survey Methods . . . . .	62
3.3.6	Personal Interviews . . . . .	62
3.3.7	Telephonic Interviews . . . . .	66
3.4	Self-Administered Interviews . . . . .	69
3.5	Mail Surveys . . . . .	70
3.5.1	Factors Determining the Choice of Survey Research . . . . .	71
3.5.2	Need to Expose the Respondent to Various Stimuli . . . . .	72
3.5.3	Incidence Rate . . . . .	72
3.5.4	Accuracy of the Resultant Data . . . . .	73
3.6	Errors in Survey Research . . . . .	73
3.6.1	Random Sampling Errors . . . . .	73
3.6.2	Systematic Errors . . . . .	74
3.6.3	Administrative Errors . . . . .	74
3.6.4	Respondent Error . . . . .	76

3.7	Observation Methods. . . . .	78
3.7.1	Direct Observation . . . . .	78
3.7.2	Contrived Observation . . . . .	79
3.7.3	Content Analysis. . . . .	80
3.7.4	Physical Trace Measures . . . . .	80
3.7.5	Participant Observation . . . . .	80
3.7.6	Behaviour Recording Devices. . . . .	81
3.8	Part III: Causal Research Design . . . . .	82
3.8.1	Causal Research Design: Experimentation . . . . .	82
3.8.2	Causal Relationships . . . . .	82
3.8.3	Experimental Designs . . . . .	83
3.9	Issues in Experimentation . . . . .	84
3.9.1	Treatment of Independent Variable . . . . .	84
3.9.2	Experimental Groups and Control Groups . . . . .	84
3.9.3	Selection and Measurement of the Dependent Variable . . . . .	85
3.9.4	Control of Extraneous Variables . . . . .	85
3.10	Experimental Validity . . . . .	86
3.10.1	Internal Validity . . . . .	86
3.10.2	External Validity. . . . .	89
3.11	Type of Experimental Designs . . . . .	91
3.11.1	Pre-experimental Designs. . . . .	91
3.11.2	True Experimental Designs . . . . .	93
3.11.3	Quasi-Experimental Designs. . . . .	96
3.11.4	Statistical Designs. . . . .	97
3.12	Questions. . . . .	101
	References . . . . .	103

### **Part III Sources and Methods of Data Collection: Qualitative and Quantitative Data**

<b>4</b>	<b>Scales and Measurement. . . . .</b>	<b>107</b>
4.1	Identifying and Deciding on the Variables to be Measured. . . . .	107
4.2	Development of Measurement Scales . . . . .	110
4.3	Types of Measurement Scales . . . . .	112
4.3.1	Nominal Scale . . . . .	112
4.3.2	Ordinal Scale . . . . .	113
4.3.3	Interval Scale . . . . .	113
4.3.4	Ratio Scale. . . . .	114
4.4	Criteria for Good Measurement . . . . .	114
4.4.1	Reliability . . . . .	114
4.4.2	Test–Retest Reliability. . . . .	115

4.4.3	Equivalent Form Reliability . . . . .	115
4.4.4	Internal Consistency . . . . .	115
4.4.5	Validity . . . . .	116
4.4.6	Face Validity . . . . .	116
4.4.7	Content Validity . . . . .	116
4.4.8	Criterion-Related Validity . . . . .	117
4.4.9	Construct Validity . . . . .	117
4.4.10	Sensitivity . . . . .	118
4.4.11	Generalizability. . . . .	118
4.4.12	Relevance . . . . .	119
4.5	Sources of Measurement Problems . . . . .	119
4.5.1	Respondent-Associated Errors. . . . .	119
4.5.2	Non-response Errors . . . . .	119
4.5.3	Response Bias . . . . .	120
4.5.4	Instrument-Associated Errors . . . . .	120
4.5.5	Situational Errors . . . . .	120
4.5.6	Measurer as Error Source. . . . .	121
4.6	Attitude Measurement . . . . .	121
4.7	Components of Attitude. . . . .	122
4.7.1	Cognitive Component . . . . .	122
4.7.2	Affective Component. . . . .	122
4.7.3	Behavioural Component. . . . .	123
4.8	Relationship Between Attitudes and Behaviour. . . . .	123
4.9	Changing Attitudes . . . . .	124
4.9.1	Altering Existing Beliefs About a Product . . . . .	124
4.9.2	Changing Attitudes by Changing the Importance of Beliefs. . . . .	125
4.9.3	Adding New Beliefs . . . . .	125
4.10	Association Between Measurement of Beliefs and Situation . . . . .	126
4.11	Attitude Scales . . . . .	127
4.12	Definition of Attitude Scale and Scaling . . . . .	128
4.13	Types of Attitude Scales . . . . .	128
4.13.1	Single-Item Scales. . . . .	128
4.13.2	Itemized Category Scales. . . . .	128
4.13.3	Rank: Order Scales . . . . .	129
4.13.4	Q-Sort Scales . . . . .	130
4.13.5	Comparative Scales . . . . .	130
4.13.6	Paired Comparison Scales . . . . .	131
4.13.7	Constant Sum Scales . . . . .	132
4.13.8	Pictorial Scales . . . . .	132
4.13.9	Continuous Scales . . . . .	133
4.13.10	Multi-Item Scales . . . . .	134
4.13.11	Semantic Differential Scales. . . . .	135

4.13.12	Stapel Scales . . . . .	136
4.13.13	Likert Scales . . . . .	137
4.13.14	Thurstone Scales . . . . .	139
4.13.15	Profile Analysis . . . . .	139
4.14	Considerations in Selecting a Scale . . . . .	140
4.14.1	Balanced Versus Unbalanced Scales . . . . .	140
4.14.2	Number of Categories . . . . .	141
4.14.3	Odd or Even Number of Scale Categories . . . . .	141
4.14.4	Forced Versus Unforced Choice . . . . .	141
	References . . . . .	142
<b>5</b>	<b>Questionnaire Design . . . . .</b>	<b>143</b>
5.1	Preliminary Decisions . . . . .	143
5.1.1	Required Information . . . . .	144
5.1.2	Target Respondents . . . . .	144
5.1.3	Interviewing Technique . . . . .	144
5.2	Question Content . . . . .	145
5.2.1	The Utility of Data . . . . .	145
5.2.2	Effectiveness in Producing Data . . . . .	145
5.2.3	The Participant's Ability to Answer Accurately . . . . .	146
5.2.4	The Respondent's Willingness to Answer Accurately . . . . .	147
5.2.5	Effect of External Events . . . . .	147
5.3	Response Format . . . . .	147
5.3.1	Open-Ended Questions . . . . .	148
5.3.2	Free Response . . . . .	148
5.3.3	Probing . . . . .	148
5.3.4	Projective . . . . .	149
5.3.5	Close-Ended Questions . . . . .	149
5.3.6	Binary Questions . . . . .	149
5.3.7	Ranking Questions . . . . .	150
5.3.8	Multiple-Choice Questions . . . . .	151
5.3.9	Checklist Questions . . . . .	151
5.4	Question Wording . . . . .	153
5.4.1	Shared Vocabulary . . . . .	154
5.4.2	Unsupported Assumptions . . . . .	154
5.4.3	Frame of Reference . . . . .	154
5.4.4	Biased Wording . . . . .	155
5.4.5	Adequate Alternatives . . . . .	155
5.4.6	Double-Barrelled Questions . . . . .	155
5.4.7	Generalizations and Estimates . . . . .	156
5.5	Questionnaire Sequence . . . . .	156
5.5.1	Lead-in Questions . . . . .	156
5.5.2	Qualifying Questions . . . . .	157

5.5.3	Warm-Up Questions . . . . .	157
5.5.4	Specific Questions. . . . .	157
5.5.5	Demographic Questions . . . . .	158
5.6	Questionnaire Pre-testing, Revision and Final Draft . . . . .	158
5.7	Summary . . . . .	158
	Reference . . . . .	159

## **Part IV Multivariate Data Analysis Using IBM SPSS 20.0**

<b>6</b>	<b>Data Preparation and Preliminary Analysis. . . . .</b>	<b>163</b>
6.1	Validating and Editing. . . . .	163
6.1.1	Treatment of Unsatisfactory Responses . . . . .	166
6.2	Coding . . . . .	167
6.2.1	Categorization Rules . . . . .	167
6.2.2	Code Book . . . . .	168
6.2.3	Coding Close-Ended Questions . . . . .	168
6.2.4	Coding Open-Ended Questions . . . . .	168
6.2.5	Coding 'Do not Knows' . . . . .	171
6.3	Data Entry . . . . .	172
6.4	Data Cleaning . . . . .	172
6.5	Tabulation of Survey Results . . . . .	173
6.5.1	One-Way Frequency Tabulation . . . . .	173
6.5.2	Cross Tabulation . . . . .	174
6.6	Data Mining. . . . .	176
6.6.1	Data Mining in Management Research . . . . .	176
6.6.2	The Data Mining Process . . . . .	179
6.7	Summary . . . . .	180
	References . . . . .	181
<b>7</b>	<b>Experimental Analysis of Variance (ANOVA) . . . . .</b>	<b>183</b>
7.1	Launching Fruit Flavoured Soft Drinks at Fresh Cola (A) . . . . .	183
7.1.1	Experiment-1 . . . . .	185
7.1.2	Experiment-2 (a) . . . . .	186
7.1.3	Experiment-2 (b) . . . . .	186
7.1.4	Experiment-3 . . . . .	186
7.1.5	Experiment-4 . . . . .	187
7.1.6	Questions for Discussion . . . . .	187
7.2	Launching Fruit Flavoured Soft Drinks at Fresh Cola (B) . . . . .	188
7.2.1	Experiment-1 . . . . .	188
7.2.2	Experiment-2 (a) . . . . .	188
7.2.3	Experiment-2 (b) . . . . .	188
7.2.4	Experiment-3 . . . . .	188
7.2.5	Experiment-4 . . . . .	189
7.2.6	Questions for Discussion . . . . .	193

<b>8</b>	<b>Multiple Regression</b>	195
8.1	Introduction	195
8.2	Important Assumptions of Multiple Regression	195
8.3	Multiple Regression Model with Three Independent Variables	196
8.4	Multiple Regression Equation	196
8.5	Regression Analysis Using SPSS	197
8.6	Output Interpretation for Regression Analysis	198
8.7	Examination of Major Assumptions of Multiple Regression Analysis	202
8.7.1	Examination of Residual	202
8.7.2	Test of Linearity	202
8.7.3	Test of Normality	202
8.7.4	Test of Homogeneity of Variance (Homoscedasticity)	203
8.7.5	Test of Autocorrelation	203
8.7.6	Test of Multicollinearity	203
8.7.7	Questions	204
<b>9</b>	<b>Exploratory Factor and Principal Component Analysis</b>	207
9.1	What is Factor Analysis	207
9.2	Factor Analysis Versus Principal Component Analysis	209
9.3	A Hypothetical Example of Factor Analysis	210
9.4	SPSS Procedures for Performing Factor Analysis on PDI, Price and Value Consciousness and Sale Proneness Data in Windows	211
9.5	KMO and Bartlett's Test of Sphericity (Under Correlation Matrix)	217
9.6	Principle Component Analysis	217
9.7	Unrotated Factor Solution	218
9.8	Scree Plot	218
9.9	Eigen Values and Eigen Values Greater than One	218
9.10	Rotated Solution	219
9.11	SPSS Syntax Method	220
9.12	Output 1: IBM SPSS 20.0 Output for Factor Analysis	220
9.13	Results and Interpretation	221
9.14	Key Statistics	227
9.15	Review Questions	227
	Reference	228
<b>10</b>	<b>Cluster Analysis</b>	229
10.1	Steps for Conducting the Cluster Analysis	229
10.1.1	Step 1: Problem Definition	231

10.1.2	Step 2: Selection of Appropriate Distance or Similarity Measure . . . . .	232
10.1.3	Step 3: Selection of Clustering Type . . . . .	232
10.2	SPSS Output Interpretation for Hierarchical Clustering . . . . .	234
10.2.1	Step 4: Decide Number of Clusters to be Retained in the Final Cluster Solution. . . . .	237
10.2.2	Step 5: Calculate Cluster Centroid and Give Meaning to Cluster Solution. . . . .	238
10.2.3	Step 6: Assess the Cluster Validity and Model Fit. . . . .	238
10.3	SPSS Procedure for Hierarchical Cluster Analysis . . . . .	240
10.4	Questions. . . . .	243
<b>11</b>	<b>Binary Logistic Regression . . . . .</b>	<b>245</b>
11.1	Chapter Overview . . . . .	245
11.2	Logistic Regression. . . . .	245
11.3	Logistic Curve Versus Regression Line . . . . .	246
11.4	Hypothetical Example of Logistic Regression: Defaulter Prediction . . . . .	248
11.5	Logistic Regression Equation for Defaulter Prediction. . . . .	248
11.6	SPSS Procedures for Performing Factor Analysis on Defaulter Prediction . . . . .	248
11.7	IBM SPSS 20.0 Syntax for Binary Logistic Regression. . . . .	252
11.8	IBM SPSS 20.0 Output for Logistic Regression . . . . .	252
11.9	Assessing a Model's Fit and Predictive Ability. . . . .	255
11.10	Questions. . . . .	257

## **Part V Data Presentation**

<b>12</b>	<b>Business Research Reports . . . . .</b>	<b>261</b>
12.1	Types of Research Reports. . . . .	261
12.1.1	Short Reports . . . . .	261
12.1.2	Long Reports . . . . .	262
12.2	Components of Research Reports . . . . .	263
12.2.1	Prefatory Information . . . . .	263
12.2.2	Introduction . . . . .	265
12.2.3	Methodology . . . . .	265
12.2.4	Findings. . . . .	267
12.2.5	Conclusions and Recommendations. . . . .	267
12.2.6	Appendices. . . . .	267
12.2.7	Bibliography. . . . .	267

12.3	Written Presentation . . . . .	268
12.3.1	Pre-writing Concerns . . . . .	268
12.3.2	Writing the Draft . . . . .	269
12.3.3	Presentation of the Research Report . . . . .	270
12.4	Oral Presentations . . . . .	271
12.4.1	Initial Planning . . . . .	271
12.4.2	Preparation . . . . .	272
12.4.3	Making the Presentation. . . . .	272
12.4.4	Delivery . . . . .	273
12.5	Visual Aids . . . . .	274
12.5.1	Tables . . . . .	274
12.5.2	Charts and Graphs. . . . .	275
12.6	Summary . . . . .	276
<b>Index . . . . .</b>		<b>279</b>

Business Research Methods

An Applied Orientation

Sreejesh, S.; Mohapatra, S.; Anusree, M.R.

2014, XXIII, 281 p. With online files/update., Hardcover

ISBN: 978-3-319-00538-6
