

# Contents

## Part I Fuel Transportation and Storage

<b>Energy Flux Simulation on a Vehicle Test Bed for Validating the Efficiency of Different Driving and Assistance Systems . . . . .</b>	<b>3</b>
S. Geneder, F. Pfister, C. Wilhelm, A. Arnold, P. Scherrmann and H.-P. Dohmen	
<b>Assessment of the Viability of Vegetable Oil Based Fuels . . . . .</b>	<b>15</b>
I. F. Thomas, N. A. Porter and P. Lappas	
<b>High Pressure Hydrogen Storage System Based on New Hybrid Concept . . . . .</b>	<b>27</b>
D. Duschek and J. Wellnitz	
<b>Risk Optimisation of an Automobile Hydrogen System . . . . .</b>	<b>35</b>
J. Meyer	

## Part II Material Recycling

<b>Finite Element Analysis of Three-Point Bending Test of a Porous Beam Emulating Bone Structure for the Development of Vehicle Side Intrusion Bars . . . . .</b>	<b>49</b>
Y. Rui, A. Subic, M. Takla and C. Wang	
<b>Structural Composite Elements with Special Behaviour . . . . .</b>	<b>59</b>
H. Bansemir	
<b>Patents of Nature . . . . .</b>	<b>69</b>
T. Brodbeck	
<b>Structural Health Monitoring for Carbon Fiber Resin Composite Car Body Structures . . . . .</b>	<b>75</b>
S. Herrmann, J. Wellnitz, S. Jahn and S. Leonhardt	

<b>Material Composition and Revenue Potential of Australian End of Life Vehicles Using Machine-Based Dismantling . . . . .</b>	<b>97</b>
E. El Halabi, M. Third and M. Doolan	
<b>The Usage of Lightweight Materials in Hazardous Areas: Flex-Metal-Mesh . . . . .</b>	<b>105</b>
E. Wilhelm and J. Wellnitz	
<b>A Dynamical Life Cycle Inventory of Steel, Aluminium, and Composite Car Bodies-in-White . . . . .</b>	<b>111</b>
P. Stasinopoulos and P. Compston	
<b>How New Things Come Into The World . . . . .</b>	<b>119</b>
T. Brodbeck	
 <b>Part III Manufacturing and Management Costs</b>	
<b>Laser-Assisted Tape Placement of Thermoplastic Composites: The Effect of Process Parameters on Bond Strength . . . . .</b>	<b>133</b>
C. M. Stokes-Griffin and P. Compston	
<b>Sustainability in Automotive Pricing . . . . .</b>	<b>143</b>
T. Ruhnau and W. M. Bunzel	
<b>Conceptual Design Evaluation of Lightweight Load Bearing Structural Assembly for an Automotive Seat Adjuster Mechanism . . . . .</b>	<b>151</b>
M. Kajtaz, A. Subic and M. Takla	
<b>Towards Sustainable Individual Mobility: Challenges and Solutions . . . . .</b>	<b>161</b>
W.-P.Schmidt and T. J. Wallington	
 <b>Part IV Engines</b>	
<b>BARM: Bi-Angular Rotation Machine as an External Combustion Machine. . . . .</b>	<b>171</b>
B. Schapiro and S. Dunin	
<b>Audi Future Energies: Balancing Business and Environmental Concerns. . . . .</b>	<b>185</b>
P. F. Tropschuh and E. Pham	

<b>Efficient Lithium-Ion Battery Pack Electro-Thermal Simulation . . . . .</b>	<b>191</b>
L. Kostetzer	

<b>Increasing Sustainability of Road Transport in European Cities and Metropolitan Areas by Facilitating Autonomic Road Transport Systems (ARTS) . . . . .</b>	<b>201</b>
J. Schlingensiepen, R. Mehmood, F. C. Nemtanu and M. Niculescu	

<b>Effect of Heat Treatment on Cylinder Block Bore Distortion . . . . .</b>	<b>211</b>
S. K. Akkaladevi	

## **Part V CO<sub>2</sub> Emission Reduction**

<b>CO<sub>2</sub> Emission Reduction: Green Heat Treatment of Engine Components (Cylinder Heads) . . . . .</b>	<b>219</b>
M. Belte and D. Dragulin	

<b>Holistic Approach to Reducing CO<sub>2</sub> Emissions Along the Energy-Chain (E-Chain) . . . . .</b>	<b>227</b>
M. Bornschlegel, M. Drechsel, S. Kreitlein and J. Franke	

<b>Battery Second Use: Sustainable Life Cycle Design Through the Extension of Tools Used in the Vehicle Development Process . . . . .</b>	<b>235</b>
M. Bowler, J. Weber, D. Bodde, J. Taiber and T. R. Kurfess	

<b>Novel Latent Heat Storage Devices for Thermal Management of Electric Vehicle Battery Systems . . . . .</b>	<b>243</b>
Ch. Huber, A. Jossen and R. Kuhn	

<b>Total Cost of Ownership and Willingness-to-Pay for Private Mobility in Singapore . . . . .</b>	<b>251</b>
R. Kochhan, J. Lim, S. Knackfuß, D. Gleyzes and M. Lienkamp	

<b>Performance Evaluation of Two-Speed Electric Vehicles. . . . .</b>	<b>263</b>
P. D. Walker, H. M. Roser and N. Zhang	

<b>The Project: Sustainability Racing—The Vision: Mobility of the Future. . . . .</b>	<b>269</b>
H.-J. Endres and C. Habermann	

**The Innotruck Case Study on A Holistic Approach  
to Electric Mobility . . . . . 277**  
L. Mercep, C. Buitkamp, H. Stähle, G. Spiegelberg,  
A. Knoll and M. Lienkamp

**A Literature Review in Dynamic Wireless Power Transfer  
for Electric Vehicles: Technology and Infrastructure  
Integration Challenges. . . . . 289**  
A. Gil and J. Taiber

**Virtual Mock-Up Hybrid Electric Vehicle Development . . . . . 299**  
V. Croitorescu, M. Oprean and J. Anthonis

Sustainable Automotive Technologies 2013  
Proceedings of the 5th International Conference ICSAT  
2013
