Foreword 1	vii
Foreword 2	xi
Preface	xiii
Acknowledgments	xv
About the Author	xxi
Figures	xxiii
1 Genesis of Genesis	1
The Beginning of the Beginning	1
More on Edwin Hubble	4
Cosmic History or Illusion?	6
The Beauty of Vastness	8
The Doppler Effect and Redshift	9
Quasars, the Beacons of the Universe	10
Pre Big Bang	12
Creation Myths	13
Evidence for the Big Bang	16
References	18
2 Parallel Universes	19
Parallel Universes in Hindu Mythology	20
Why Are Hindu Gods Celebrated in the West?	22
Observational Evidence	23
Cosmic Parallels?	24
The Mirror on the Universe, Now Twenty-Two Years Old	26

How Far Back Can We See?	28
References.....	33
3 Once Upon a Time, There Was No Time or Space.....	35
Death of Time	36
Time in Mythology	40
How to Define a Year?	42
The Mystery of Extra Dimensions.....	43
Rebirth of Time.....	46
References.....	47
4 What's the Matter with Antimatter?	49
The Children of Violation	51
Annihilation	52
The Mother of All Battles	54
Waiting for a Star Birth.....	56
Trapping the Antimatter.....	58
Searching for Antimatter in the Universe	60
More on Paul Dirac	61
References.....	63
5 Playing with Light.....	65
What Is Light?	65
Five Myths About the Speed of Light.....	68
Let There Be Light.....	69
Ghost Particles	70
Time Dilation	73
The Constants in Nature.....	75
Life of Pi	77
A New Panorama	79
References.....	80
6 Dark Forces in the Universe.....	83
Dark Energy	83
Shining a Light on Dark Matter	88
Supernovae: The Creators and Destroyers of the Universe	92
Wicked WIMPS	95
References.....	97
7 Is the Universe Infinite?.....	99
Finite or Infinite?.....	99
A World of Worlds	101
The Man Who Defined the Undefined	105
Gravity: A Cosmic Glue?.....	107
“Good-Bye to the Solar System,” Says Voyager.....	109

The Dawn of Exoplanets.....	110
References.....	115
8 Holographic Universe: The Ultimate Illusion	117
The Black Hole War.....	118
The Birth Date of a Black Hole	122
The Beauty of the Beast.....	124
The Star Power of Chandrasekhar	125
Does the Material World Exist?	127
References.....	130
9 Mind over Matter	133
Our Neural Networks.....	133
Which Came First, Mind or Matter?	137
Higgs Boson Manifesto.....	140
What Are the Implications of All This?.....	143
The Odyssey of a Brain.....	144
Was Einstein's Brain Preserved After His Death?	145
Is Einstein's Brain So Different?	145
Where Is Einstein's Brain Now?	145
Mind, Math, and Matter	146
References.....	146
10 The Spooky World of Quantum Entanglement.....	149
Breaking the Rules	149
The Nature of Reality.....	153
Large Hadron Collider Begins with the Beginning.....	156
The Children of Violation	158
The Man Behind the Cat: Schrodinger	160
References.....	161
11 Are We Alone?.....	163
Fermi's Paradox	163
Sorry Aliens, We Have a Big Deficit	167
Seven Myths About SETI	168
Space Shuttles: The Glory of the Past.....	169
Obsession with Aliens.....	171
Should We Colonize Space?	171
When the Rain God Cried Red	175
Will We Find Aliens?.....	176
References.....	178
12 The End of Everything	181
World to End in 2060?	184
The Moon Is Not a Harsh Mistress	184

Even the WISE Cannot See All Ends	187
The Chain Reaction of a Disaster	188
Cycles of Creation and Destruction	190
Predicting the Future.....	192
Astrology and Astronomy	192
From the Dust We Came and to the Dust We Shall Return	194
References.....	196
 Final Words	 199
 Index	 201

Essays on the Frontiers of Modern Astrophysics and
Cosmology

Mathew, S.

2014, XXVII, 206 p. 63 illus., 60 illus. in color., Softcover
