

Contents

1	Introduction	1
1.1	Background and Motivation	1
1.2	Objectives and Scope	2
1.3	Organization of the Content	4
	References	5
2	Recursive Bayesian Estimation of Partially Observed Dynamic Systems	7
2.1	Introduction	7
2.2	Dual Estimation of States and Parameters of Mechanical Systems	9
2.3	Recursive Bayesian Inference	10
2.4	Linear Dynamic State Space Equations: Optimal Closed Form Estimator	11
2.4.1	The Kalman Filter	12
2.5	Nonlinear Dynamic State Space Equations: Approximate Bayesian Estimators	14
2.5.1	The Extended Kalman Filter	14
2.5.2	The Sigma-Point Kalman Filter	14
2.5.3	The Particle Filter	17
2.5.4	The Hybrid Extended Kalman Particle Filter	21
2.6	Numerical Results for Dual Estimation of Single Degree and Multi Degrees of Freedom Dynamic Systems	22
2.6.1	Single Degree-of-Freedom Dynamic System	24
2.6.2	Multi Degrees-of-Freedom Dynamic System	47
2.7	Summary and Conclusions	53
	References	53
3	Model Order Reduction of Dynamic Systems via Proper Orthogonal Decomposition	57
3.1	Introduction	57
3.2	Structural Dynamics and Time Integration	58
3.3	Fundamentals of Proper Orthogonal Decomposition for Dynamic Structural Systems	59

3.3.1	Principal Component Analysis	60
3.3.2	Singular Value Decomposition	62
3.4	Physical Interpretation of Proper Orthogonal Modes	63
3.5	Galerkin Projection	64
3.6	Results: Reduced-Order Modeling of a Tall Building Excited by Earthquakes	64
3.7	Summary and Conclusion	83
	References	84
4	POD-Kalman Observer for Linear Time Invariant Dynamic Systems	87
4.1	Introduction	87
4.2	Structural Feedback Control and the Kalman Observer	88
4.3	Statistical Assessment of Residual Errors Induced by POD.	90
4.4	Formulation of Kalman-POD Observer for Linear Time Invariant Systems	93
4.5	Numerical Assessment of POD-Kalman Observer for Seismic Analysis of Linear Time Invariant Systems	95
4.6	Summary and Conclusion	102
	References	103
5	Dual Estimation and Reduced Order Modeling of Damaging Structures	105
5.1	Introduction	105
5.2	State Space Formulation of Shear Building-Type Structural Systems	107
5.3	Reduced Order Modeling of Structural Systems	109
5.4	Dual Estimation of Reduced States and Parameters of a Damaging Structure	111
5.5	Numerical Results: Damage Detection in a Ten Storey Shear Building	113
5.6	Summary and Conclusion	120
	References	120
6	Conclusions	123
6.1	Summary of Contributions	123
6.2	Suggestions for Future Research	126
	References	127
	Appendix: Summary of the Recursive Bayesian Inference Schemes . . .	129
	Index	133

Online Damage Detection in Structural Systems
Applications of Proper Orthogonal Decomposition, and
Kalman and Particle Filters

Eftekhar Azam, S.

2014, XII, 135 p. 87 illus., Softcover
