<b>Glucocorticoids and Fetal Programming; Necessary and Sufficient? . . . . .</b>	<b>1</b>
Jonathan R. Seckl	
<b>Developmental Programming and the Placenta: Focusing in on Glucocorticoids . . . . .</b>	<b>17</b>
Caitlin S. Wyrwoll	
<b>Glucocorticoids, Programming and the Transmission of Effects Across Generations . . . . .</b>	<b>27</b>
Amanda J. Drake	
<b>Maternal Stress and in Utero Programming . . . . .</b>	<b>41</b>
Louise C. Kenny, Claire Everard, and Ali S. Khashan	
<b>The Role of the Placenta in Fetal Programming . . . . .</b>	<b>57</b>
John Challis, Debora Sloboda, Shaofu Li, Thorsten Braun, Frank Bloomfield, Ghazala Begum, Anne White, Felice Petraglia, and John Newnham	
<b>Male and Female Placentas Have Divergent Transcriptomic and Epigenomic Responses to Maternal Diets: Not Just Hormones . . . . .</b>	<b>71</b>
Anne Gabory, Alexandre Vigé, Laure Ferry, Linda Attig, Jean-Philippe Jais, Luc Jouneau, and Claudine Junien	
<b>Early Growth and Later Health: Findings from the Helsinki Birth Cohort Study . . . . .</b>	<b>93</b>
Johan G. Eriksson	
<b>Human Fetal Growth Disorders and Imprinting Anomalies . . . . .</b>	<b>101</b>
C. Gicquel, S. Azzi, S. Rossignol, J. Demars, F. Brioude, I. Netchine, and Y. Le Bouc	

<b>Epigenetic Effects of Extreme Intrauterine Growth in Humans . . . . .</b>	<b>131</b>
John M. Grealley	
<b>Developmental Origins of Diabetes: The Role of Epigenetics . . . . .</b>	<b>139</b>
Rebecca A. Simmons	
<b>Genetic and Developmental Origins of Food Preferences and Obesity Risk: The Role of Dopamine . . . . .</b>	<b>157</b>
Patricia P. Silveira, James L. Kennedy, Marla B. Sokolowski, Robert D. Levitan, and Michael J. Meaney	
<b>Developmental Epigenetics and Risks of Later Non-communicable Disease . . . . .</b>	<b>175</b>
M.A. Hanson, P.D. Gluckman, and K.M. Godfrey	
<b>Index . . . . .</b>	<b>185</b>

Hormones, Intrauterine Health and Programming

Seckl, J.R.; Christen, Y. (Eds.)

2014, XIV, 189 p. 10 illus., 9 illus. in color., Hardcover

ISBN: 978-3-319-02590-2
