

Contents

1	Storage Options for Renewable Energy	1
	References	5
2	The Power-to-Gas Concept	7
2.1	Efficiencies of Power-to-Gas Process Chains	9
2.2	Plants Sizes and Synergy Potentials	11
2.3	Similar Concepts	13
2.4	Integration in the Natural Gas Grid	14
	References	16
3	Water Electrolysis	19
3.1	Introduction	19
3.2	Historical Background	20
3.3	Thermodynamics of Water Electrolysis	21
3.4	Electrolyzer Efficiency	22
3.5	Alkaline Electrolyzers	24
3.5.1	Working and Design Principles	24
3.5.2	Operating Conditions, Performance and Capacities	26
3.5.3	Cell Components	26
3.5.4	Technology Status and Challenges	27
3.6	Polymer Electrolyte Membrane Electrolysis	29
3.6.1	Working and Design Principles	29
3.6.2	Operating Conditions, Performance and Capacities	30
3.6.3	Cell Components	30
3.6.4	Technology Status and Challenges	32
3.7	Solid Oxide Electrolyte Electrolysis	33
3.7.1	Working and Design Principles	33
3.7.2	Operating Conditions, Performance and Capacities	34

3.7.3	Cell Components	35
3.7.4	Technology Status and Challenges.	36
3.8	Conclusion	37
	References	38
4	Methanation.	41
4.1	State of the Art of Methanation Processes	41
4.1.1	Chemical Fundamentals	41
4.1.2	Process Concepts and Stage of Development	42
4.1.3	Biological Process Routes	48
4.2	Methanation as Part of Power-to-Gas.	51
4.2.1	Process Educts: Hydrogen and Carbon Dioxide	53
4.2.2	Heat Integration	55
4.2.3	Development Trends and Current Research Activities.	57
4.2.4	Actual Costs and Future Cost Development Potentials	59
	References	60
5	Business Models.	63
5.1	Macroeconomic and Systemic Impacts	63
5.1.1	Potential Solutions of Energy Storage: Power-to-Gas in the Context of Alternative Storage Systems.	65
5.1.2	New Possibilities for Energy Transport Due to Power-to-Gas Plants	69
5.1.3	Power-to-Gas as Important Component in Constructing Hybrid Grids.	72
5.2	Several Process Chains.	74
5.2.1	Systemic Advantages and Disadvantages of Hydrogen and Methane Process Chains.	79
5.3	Business Models for Power-to-Gas-Systems	80
5.4	Legal Aspects	89
	References	92

Power-to-Gas: Technology and Business Models

Lehner, M.; Tichler, R.; Steinmüller, H.; Koppe, M.

2014, VIII, 93 p. 20 illus., 12 illus. in color., Softcover

ISBN: 978-3-319-03994-7
