

# Contents

<b>1</b>	<b>Role of Water in Human Life.....</b>	<b>1</b>
1.1	Water Resources of the Planet and Their Quality .....	1
1.2	Quality of Drinking Water: Problems and Solution .....	6
1.3	Water and Human Health .....	10
1.3.1	Ecology—the Health of Human .....	11
1.3.2	Bottled Water: Issue of Disinfection and Preservation .....	12
1.4	“Green” Chemistry .....	12
1.5	The Biosphere and Civilization—the Issue of Compatibility .....	13
	References .....	15
<b>2</b>	<b>Life-Forming Role of Water in the Latest Discoveries and Hypotheses.....</b>	<b>17</b>
2.1	Unique Properties of Water .....	17
2.1.1	Anomalies of Water .....	25
2.2	The Role of Water in the Scenario of Development on Earth .....	31
2.3	Water Isotopic Composition: The Role of Deuterium in the Destruction of DNA .....	40
	References .....	49
<b>3</b>	<b>Water Clusters.....</b>	<b>51</b>
3.1	Water Structures, Properties and Cluster Formation .....	51
3.1.1	Conceptualizing Boundary Layers of Clusters .....	55
3.2	Influence of Hydrogen Isotopes on Clustering: Small Water Clusters .....	61
3.3	Interrelation of the Effects of Physical Action on Water and Clustering .....	73
3.4	The Theoretical Research of Interactions of Water Clusters with Ozone .....	83
3.5	Impact of Temperature on Water Clusters .....	89
3.6	Cluster Structure of Usual, Heavy and Light Water .....	94
	References .....	98

<b>4</b>	<b>Drinking Water: Factors Affecting the Quality of Drinking Water....</b>	<b>105</b>
4.1	Ecological and Hygienic Classification of Centralized Drinking Water Supply Sources .....	105
4.2	Water Quality Requirements to the Drinking Water Supply Sources and Rules of Their Selection .....	137
4.3	Current Problems and Potentialities of Drinking Water Preparation Technology at Centralized Water Treatment Facilities .....	150
4.4	A New Concept of Supplying the Population with a Quality Drinking Water .....	202
4.4.1	The Concept of Choosing a List of Indexes and Their Regulatory Values for Determination of Hygienic Requirements and Control over the Drinking Water Quality in Ukraine .....	204
	References .....	225
<b>5</b>	<b>Peculiarities and Problems of Water Decontamination.....</b>	<b>247</b>
5.1	Chlorination .....	247
5.1.1	The Mechanism of Intensifying the Antimicrobial Action of Activated Chloride with Copper .....	247
5.2	Ozonation .....	254
5.2.1	Electron Structure of the Ozone Molecule and Reactivity of Ozone .....	254
5.2.2	Theoretical Analysis of Disinfection Processes of Water in Ozonation .....	261
5.3	Bactericide Effect of Ultrasound .....	275
5.3.1	The Mechanism of the Effect of Ultrasound on Aqueous Systems .....	275
5.4	The Bactericide Effect of Ultraviolet Rays .....	282
5.5	Removal of Organic Impurities from Natural Water by Ozonation Combined with UV-Radiation .....	290
5.5.1	A Study of the Various Procedures of Water Disinfection by $O_3$ /UV .....	300
5.5.2	Combined Antimicrobial Effect of Ozone and Ultraviolet Radiation Generated by Various Sources .....	307
5.6	Disinfecting Action of a Space Spark Discharge in Water .....	314
5.7	The Problem of Water Infection with Pathogens of Mycoses and Prospects of Resolving this Problem .....	321
5.7.1	Removal from Water of Yeastlike Fungus <i>Candida Albicans</i> by the Method of Coagulation and Flocculation ..	334
5.7.2	The Decontamination Effect of UV-Radiation with Respect to Micromycetes .....	340
	References .....	345

<b>6</b>	<b>Biotest as an Evaluation Method for the Quality of</b>	
	<b>Drinking Water</b> .....	353
6.1	An Integrated Approach to Natural Water Biotesting .....	353
6.2	Biotesting Water for Quality at the Cellular Level .....	363
6.3	Problems of Quality with Bottled Drinking Water .....	368
6.4	Assessment of the Quality of Bottled Drinking Water by Biotesting Methods .....	374
6.5	Human Health and Chemical Composition of Drinking Water .....	384
6.5.1	Use of Cytological Biomarkers in Fish to Assay Antropogenic Contamination of Sea and Fresh Water .....	385
6.6	Biotesting of Electrochemically Activated Water .....	387
	References .....	394
<b>7</b>	<b>SOS: Drinking Water. New State Standard “Drinking Water. Requirements and Methods of Quality Control”</b> .....	403
7.1	SOS: Drinking Water .....	403
7.2	Main Aspects of a New State Standard “Drinking Water. Requirements and Methods of Quality Control” .....	405
	References .....	416
	<b>Conclusion</b> .....	417
	<b>Index</b> .....	419

Drinking Water

Physics, Chemistry and Biology

Goncharuk, V.V.

2014, XXV, 426 p. 104 illus., 22 illus. in color.,

Hardcover

ISBN: 978-3-319-04333-3
