
Contents

Foreword	1
D. Bigoni, A. Carini, M. Gei and A. Salvadori	
Modeling fracture by material-point erosion	3
A. Pandolfi, B. Li and M. Ortiz	
Crack front perturbations revisited	17
J. R. Willis	
Localisation near defects and filtering of flexural waves in structured plates	25
S. G. Haslinger, R. C. McPhedran, N. V. Movchan and A. B. Movchan	
Fracture process in cortical bone: X-FEM analysis of microstructured models	43
S. Li, A. Abdel-Wahab, E. Demirci and V. V. Silberschmidt	
Minimum theorems in 3d incremental linear elastic fracture mechanics	57
A. Salvadori and F. Fantoni	
Crack patterns obtained by unidirectional drying of a colloidal suspension in a capillary tube: experiments and numerical simulations using a two-dimensional variational approach	75
C. Maurini, B. Bourdin, G. Gauthier and V. Lazarus	
Damage mechanisms in the dynamic fracture of nominally brittle polymers	93
D. Dalmas, C. Guerra, J. Scheibert and D. Bonamy	
Tight sedimentary covers for CO₂ sequestration	113
D. Leguillon, E. Karnaeva, A. Baroni and C. Putot	
Calibration of brittle fracture models by sharp indenters and inverse analysis	123
V. Buljak, G. Cocchetti and G. Maier	

Statistics of ductile fracture surfaces: the effect of material parameters	137
L. Ponson, Y. Cao, E. Bouchaud, V. Tvergaard and A. Needleman	
Efficient pseudo-spectral solvers for the PKN model of hydrofracturing.	151
M. Wrobel and G. Mishuris	
A solution to the parameter-identification conundrum: multi-scale interaction potentials	171
J. G. M. van Mier	
Remarks on application of different variables for the PKN model of hydrofracturing: various fluid-flow regimes	185
P. Kusmierczyk, G. Mishuris and M. Wrobel	
Prediction of grain boundary stress fields and microcrack initiation induced by slip band impingement.	215
M. Sauzay and M. O. Moussa	
Modeling the heterogeneous effects of retained austenite on the behavior of martensitic high strength steels	241
Q. Wu, P. Shanthraj and M. A. Zikry	
Crack nucleation from a notch in a ductile material under shear dominant loading	253
A. Ghahremaninezhad and K. Ravi-Chandar	

Fracture Phenomena in Nature and Technology
Proceedings of the IUTAM Symposium on Fracture
Phenomena in Nature and Technology held in Brescia,
Italy, 1-5 July 2012
Bigoni, D.; Carini, A.; Gei, M.; Salvadori, A. (Eds.)
2014, VI, 266 p. 184 illus., 128 illus. in color., Hardcover
ISBN: 978-3-319-04396-8
