

Contents

Introduction	1
Problem Solving: Practical Examples and Additional Properties.....	3
The Problem Solving Metaphor, Neuropsychology, and Executive Functioning.....	7
Neuropsychological Constructs, Assumptions, and Executive Functioning: Revisiting Principles of Brain Organization.....	11
Functional Domains, Unitary Constructs, and the Integrated Brain	13
Large Scale Brain Systems	15
The Application of Large Scale Brain Systems to Practical “EF” Behavior: Revisiting the Introductory Examples.....	17
The Novelty-Routinization Principle of Brain Organization.....	27
Clues to Understanding the Phylogeny of Behavioral Control.....	33
Ways of Generating Behavior	35
Movement, Thinking, Anticipation, and Banishing Executive Functioning.....	37
The Four Steps of the Development of the Cognitive Control System	43
Abolishing the Executive and the Mind-Body Problem	45
Why Cognitive Control Is an Expansion of Cortical-Cerebellar and Cortical-Basal Ganglia Motor Control Systems.....	47
The Cerebro-Cerebellar Underpinning of Cognitive Control	49

Structure and Function of the Cerebro-Cerebellar Circuitry System	51
The Basal Ganglia Underpinning of Cognitive Control: The Fronto-Striatal System.....	57
Cognitive Control, Reward, and the Basal Ganglia.....	61
Basal Ganglia Dynamics, Cognition, and Social Behavior.....	65
Interim Summary.....	67
How Well Do These Principles “Fit” Exceptional Cases?	69
Why People Who Cannot Move Are Able to Think	71
The Exceptionality of the Congenitally Blind	75
The Exceptionality of Deafness.....	77
Neuropsychological Testing and Neuropsychological Evaluation: Is There a Difference Between These Approaches?	79
Missing Elements in the Neuropsychological Assessment of EF.....	81
The Traditional Neuropsychological Assessment Paradigm	83
The Motor Examination	91
The Evaluation of Reward Preferences.....	93
Summary, Conclusions, and Future Direction	97
Addendum	99
Introduction.....	99
The Phylogenetic Evidence.....	100
The Neurodevelopmental Evidence	100
Decision Making and Anticipation	104
Problem-Solving, Procedural Learning, Automaticity, and Cognitive Control	105
Epilogue or Epitaph: Personal Reflections, Viewpoints, and Considerations.....	106
References	111
Index.....	125
