

<b>1 Calibration of System Parameters Under Model Uncertainty</b> .....	1	2
Ghina N. Absi and Sankaran Mahadevan		3
<b>2 On the Aggregation and Extrapolation of Uncertainty from Component to System Level Models</b> .....	11	4
Angel Urbina, Richard G. Hills, and Adam C. Hetzler		5
<b>3 Validation of Strongly Coupled Models: A Framework for Resource Allocation</b> .....	25	6
S. Atamturktur and G. Stevens		7
<b>4 Fatigue Monitoring in Metallic Structures using Vibration Measurements</b> .....	33	8
D.C. Papadioti, D. Giagopoulos, and C. Papadimitriou		9
<b>5 Uncertainty propagation in Experimental Modal Analysis</b> .....	41	10
Bart Peeters, Mahmoud El-Kafafy, Patrick Guillaume, and Herman Van der Auweraer		11
<b>6 Quantification of Prediction Bounds Caused by Model Form Uncertainty</b> .....	53	12
Lindsey M. Gonzales, Thomas M. Hall, Kendra L. Van Buren, Steven R. Anton, and François M. Hemez		13
<b>7 Composite Fuselage Impact Testing and Simulation: A Model Calibration Exercise</b> .....	67	14
Lucas G. Horta, Mercedes C. Reaves, Karen E. Jackson, Martin S. Annett, and Justin D. Littell		15
<b>8 Noise Sensitivity Evaluation of Autoregressive Features Extracted from Structure Vibration</b> .....	79	16
Ruigen Yao and Shamim N. Pakzad		17
<b>9 Uncertainty Quantification and Integration in Multi-level Problems</b> .....	89	18
Chenzhao Li and Sankaran Mahadevan		19
<b>10 Reliability Quantification of High-Speed Naval Vessels Based on SHM Data</b> .....	99	20
Mohamed Soliman and Dan M. Frangopol		21
<b>11 Structural Identification Using Response Measurements Under Base Excitation</b> .....	107	22
Suparno Mukhopadhyay, Raimondo Betti, and Hilmi Luş		23
<b>12 Bayesian FE Model Updating in the Presence of Modeling Errors</b> .....	119	24
Iman Behmanesh and Babak Moaveni		25
<b>13 Maintenance Planning Under Uncertainties Using a Continuous-State POMDP Framework</b> .....	135	26
Roland Schöbi and Eleni Chatzi		27
<b>14 Achieving Robust Design through Statistical Effect Screening</b> .....	145	28
Kendra L. Van Buren and François M. Hemez		29
<b>15 Automated Modal Parameter Extraction and Statistical Analysis of the New Carquinez Bridge Response to Ambient Excitations</b> .....	161	30
Yilan Zhang, Moritz Häckell, Jerome P. Lynch, and Raimund Rolfes		31
		32
		33
		34

<b>16</b>	<b>Evaluation of a Time Reversal Method with Dynamic Time Warping Matching Function for Human Fall Detection Using Structural Vibrations</b> .....	35
	Ramin Madarshahian, Juan M. Caicedo, and Diego Arocha Zambrana	36
<b>17</b>	<b>Uncertainty Quantification of Identified Modal Parameters Using the Fisher Information Criterion</b> .....	177
	Eric M. Hernandez and Néstor R. Polanco	38
<b>18</b>	<b>Modal Parameter Uncertainty Quantification Using PCR Implementation with SMIT</b> .....	185
	Minwoo Chang and Shamim N. Pakzad	40
<b>19</b>	<b>Excitation Related Uncertainty in Ambient Vibration Testing of Bridges</b> .....	195
	Kirk A. Grimmelsman, James D. Lindsey, Ryan T. Dufour, and James T. Norris	42
<b>20</b>	<b>Experiment-Based Validation and Uncertainty Quantification of Coupled Multi-Scale Plasticity Models</b> ...	203
	Garrison Stevens, Sez Atamturktur, Ricardo Lebensohn, and George Kaschner	44
<b>21</b>	<b>Model Calibration and Uncertainty of A600 Wind Turbine Blades</b> .....	215
	Anders T. Johansson, Andreas Linderholt, and Thomas Abrahamsson	46
<b>22</b>	<b>Validation Assessment for Joint Problem Using an Energy Dissipation Model</b> .....	229
	Adam Hetzler, Angel Urbina, and Richard Hills	48
<b>23</b>	<b>A Bayesian Damage Prognosis Approach Applied to Bearing Failure</b> .....	237
	Zhu Mao and Michael Todd	50
<b>24</b>	<b>Sensitivity Analysis of Beams Controlled by Shunted Piezoelectric Transducers</b> .....	243
	G. Matten, M. Collet, S. Cogan, and E. Sadoulet-Reboul	52
<b>25</b>	<b>A Principal Component Analysis (PCA) Decomposition Based Validation Metric for Use with Full Field Measurement Situations</b> .....	249
	Randall Allemang, Michael Spottswood, and Thomas Eason	54
<b>26</b>	<b>FEM Calibration with FRF Damping Equalization</b> .....	265
	Thomas J.S. Abrahamsson and Daniel C. Kammer	57
<b>27</b>	<b>Evaluating Initial Model for Dynamic Model Updating: Criteria and Application</b> .....	279
	Qingguo Fei and Dong Jiang	59
<b>28</b>	<b>Evaluating Convergence of Reduced Order Models Using Nonlinear Normal Modes</b> .....	287
	Robert J. Kuether, Matthew R. Brake, and Mathew S. Allen	61
<b>29</b>	<b>Approximate Bayesian Computation for Finite Element Model Updating</b> .....	301
	F.A. DiazDelaO, H.M. Gomes, and J.E. Mottershead	63
<b>30</b>	<b>An Efficient Method for the Quantification of the Frequency Domain Statistical Properties of Short Response Time Series of Dynamic Systems</b> .....	307
	M. Brehm and A. Deraemaeker	65
<b>31</b>	<b>Quantifying Uncertainty in Modal Parameters Estimated Using Higher Order Time Domain Algorithms</b> ..	317
	S. Chauhan	68
<b>32</b>	<b>Testing and Model Correlation of a Plexiplate with a Water Boundary Condition</b> .....	327
	C.D. Van Karsen, J.P. De Clerck, and S. Dhabe	70
<b>33</b>	<b>Detection of Stress-Stiffening Effect on Automotive Components</b> .....	335
	Elvio Bonisoli, Gabriele Marcuccio, and Stefano Tornincasa	73
<b>34</b>	<b>Approach to Evaluate Uncertainty in Passive and Active Vibration Reduction</b> .....	345
	Roland Platz, Serge Ondoua, Georg C. Enss, and Tobias Melz	75
<b>35</b>	<b>Project-Oriented Validation on a Cantilever Beam Under Vibration Active Control</b> .....	353
	Qintao Guo, Rongmei Chen, and Zhou Jin	77

<b>36 Inferring Structural Variability Using Modal Analysis in a Bayesian Framework</b> .....	363	79
H.M. Gomes, F.A. DiazDelaO, and J.E. Mottershead .....		80
<b>37 Including SN-Curve Uncertainty in Fatigue Reliability Analyses of Wind Turbines</b> .....	375	81
Jennifer M. Rinker and Henri P. Gavin .....		82
<b>38 Robust Design of Notching Profiles Under Epistemic Model Uncertainties</b> .....	383	83
Fabien Maugan, Scott Cogan, Emmanuel Foltête, Fabrice Buffe, and Gaëtan Kerschen .....		84
<b>39 Optimal Selection of Calibration and Validation Test Samples Under Uncertainty</b> .....	391	85
Joshua Mullins, Chenzhao Li, Sankaran Mahadevan, and Angel Urbina .....		86
<b>40 Uncertainty Quantification in Experimental Structural Dynamics Identification of Composite Material Structures</b> .....		87
.....	403	88
Marcin Luczak, Bart Peeters, Maciej Kahsin, Simone Manzato, and Kim Branner .....		89
<b>41 Analysis of Numerical Errors in Strongly Coupled Numerical Models</b> .....	409	90
Ismail Farajpour and Sez Atamturktur .....		91
<b>42 Robust Expansion of Experimental Mode Shapes Under Epistemic Uncertainties</b> .....	419	92
A. Kuczkowiak, S. Cogan, M. Ouisse, E. Foltête, and M. Corus .....		93

Model Validation and Uncertainty Quantification,  
Volume 3

Proceedings of the 32nd IMAC, A Conference and  
Exposition on Structural Dynamics, 2014

Atamturktur, H.S.; Moaveni, B.; Papadimitriou, C.;  
Schoenherr, T. (Eds.)

2014, IX, 427 p. 303 illus., 233 illus. in color., Hardcover  
ISBN: 978-3-319-04551-1
