

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Background	1
1.2	Problem Definition	2
1.3	Aims and Objectives	2
1.4	The Transportation System as the Core Subject.	3
1.5	The Structure of the Book	4
	References	5
<b>2</b>	<b>Retrospective View of London</b>	<b>7</b>
2.1	London's History as an Urban Centre	7
2.1.1	Housing	8
2.1.2	Urban Regeneration and Docklands.	10
2.1.3	Transportation System	11
2.2	Retrospective View of Risk	13
2.2.1	Fires: 1666 Great Fire and 18 November 1987 King's Cross Fire	14
2.2.2	War: The World War 2 and Air Raids.	16
2.2.3	Terrorism: Terrorist Attack to Tube Network on the 7th of July 2005	16
2.2.4	Flooding: 6 January 1928 and East Coast Surge Floods, 1 February 1953.	18
2.3	Learning from Experiences and Changing Safety Measures	19
	References	22
<b>3</b>	<b>Current Flood Risk and Transportation System</b>	<b>25</b>
3.1	Present Flood Hazard.	25
3.2	Present Flood Risk.	26
3.3	Flood Risk Management.	28
3.3.1	Structural Tools	29
3.3.2	Non-structural Tools: Flood Forecasting, Warning and Response Systems.	29
3.3.3	Non-structural Tools: Emergency Management.	31

3.4	Present Transportation System . . . . .	32
3.4.1	Road Traffic and Car Ownership . . . . .	32
3.4.2	Congestion Hotspot . . . . .	33
3.4.3	Public Transportation. . . . .	34
	References . . . . .	34
<b>4</b>	<b>Systemic and Social Vulnerability to Flooding. . . . .</b>	<b>37</b>
4.1	Critiques on the Present Flood Risk Management . . . . .	37
4.2	Systemic Vulnerability: Defining the Inter-dependency . . . . .	38
4.3	Social Vulnerability: Describing Possible Behaviour Patterns for the Users of Transportation System . . . . .	45
4.4	Focusing on the Downstream of the Thames River . . . . .	45
4.5	Transportation System Under the Risk of Flooding . . . . .	45
	References . . . . .	48
<b>5</b>	<b>Societal Response. . . . .</b>	<b>49</b>
5.1	Methodology of the Fieldwork . . . . .	49
5.1.1	Data Collection. . . . .	49
5.1.2	Survey. . . . .	50
5.2	First Level: Interviews with People at the Organizational Level. . . . .	52
5.3	Second Level: Questionnaires with Employees of the Transportation System . . . . .	53
5.4	Third Level: Questionnaires with People at the Public Level . . .	56
5.4.1	Respondent Information. . . . .	56
5.4.2	Perception and Awareness of Risk Conditions and Risk of Flooding. . . . .	57
5.4.3	Awareness of Flood Warning . . . . .	59
5.4.4	Awareness of Information Programs and Access of Information . . . . .	61
5.4.5	Population's Individual Preparedness. . . . .	62
5.5	Describing Possible Behaviour Patterns for the Users of Transportation System . . . . .	63
<b>6</b>	<b>Conclusion. . . . .</b>	<b>67</b>
6.1	Towards Resilience . . . . .	67
6.2	Discussion . . . . .	72
6.3	Conclusion . . . . .	76
	References . . . . .	76

<b>Appendix A: Questionnaire to Employees of TFL . . . . .</b>	<b>77</b>
<b>Appendix B: Questionnaire to the Public in London . . . . .</b>	<b>81</b>
<b>Appendix C: The Results of the Questionnaire . . . . .</b>	<b>87</b>
<b>Index . . . . .</b>	<b>101</b>

Improving Societal Resilience to Disasters  
A Case Study of London's Transportation System

Atun, F.

2014, XV, 102 p. 47 illus., Softcover

ISBN: 978-3-319-04653-2
