1	Introduction	1
1.1	Issues	1
1.2	Approach	2
1.3	Background	3
1.4	Benefits	5
1.5	Structure	6
Part I The GQM⁺Strategies Approach		
2	GQM⁺Strategies in a Nutshell	9
2.1	The Basic Idea	9
2.2	GQM ⁺ Strategies Model	11
2.3	GQM ⁺ Strategies Process	14
3	Phase 0: Initialize	19
3.1	Get Commitment	19
3.2	Specify Scope	20
3.3	Plan GQM ⁺ Strategies Application Process	20
3.4	Train People	20
3.5	Example	21
3.5.1	Get Commitment	21
3.5.2	Specify Scope	21
3.5.3	Plan GQM ⁺ Strategies Application Process	22
3.5.4	Train People	23
4	Phase 1: Characterize the Environment	25
4.1	Characterize the Environment	25
4.2	Example	28
4.2.1	Characterize the Environment	28
5	Phase 2: Define Goals, Strategies, and Measurement	29
5.1	Identify Existing Assets	29
5.2	Select Relevant Assets	30
5.3	Build Up the GQM ⁺ Strategies Grid	30
5.3.1	Elicit Context and Assumptions	32
5.3.2	Define Organizational Goals	32

5.3.3	Make Strategy Decisions	37
5.3.4	Refine GQM+Strategies Element	38
5.3.5	Define GQM Graphs	38
5.4	Review and Adjust Grid	42
5.5	Example	43
5.5.1	Identify Existing Assets	43
5.5.2	Select Relevant Assets	43
5.5.3	Build Up GQM+Strategies Grid (Management Board) . . .	45
5.5.4	Build Up GQM+Strategies Grid (Insurance Services) . . .	49
5.5.5	Build Up GQM+Strategies Grid (Software Development Group)	56
5.5.6	Review and Adjust Grid	67
6	Phase 3: Plan Grid Implementation	69
6.1	Develop Strategy Plans	71
6.2	Develop Measurement Plans	72
6.2.1	Data Collection, Validation, and Storage	73
6.2.2	Data Aggregation, Analysis, and Interpretation	73
6.2.3	Visualization and Communication of the Results	74
6.2.4	Identify Current Practices	74
6.2.5	Adjust Current Practices	74
6.2.6	Prepare Tools and Infrastructure	81
6.3	Train Personnel	82
6.4	Example	82
6.4.1	Develop Strategy Plans	82
6.4.2	Develop Measurement Plans	83
6.4.3	Train Personnel	89
7	Phase 4: Execute Plans	91
7.1	Execute Strategies	94
7.2	Collect and Analyze Data	95
7.2.1	Collect Measurement Data	96
7.2.2	Validate Measurement Data	96
7.2.3	Analyze Measurement Data	96
7.2.4	Visualize Measurement Data	97
7.2.5	Interpret Analysis Results	102
7.3	Provide Feedback	103
7.4	Example	103
7.4.1	Execute Strategies	103
7.4.2	Collect and Analyze Data	103
7.4.3	Provide Feedback	104
8	Phase 5: Analyze Outcomes	107
8.1	Validate and Analyze the Measurement Data	109
8.2	Visualize and Interpret Data	109

8.3	Identify Improvement Potentials	110
8.3.1	Analyze GQM ⁺ Strategies Grid	110
8.3.2	Gather Feedback from Relevant Stakeholders	111
8.4	Example	116
8.4.1	Validate and Analyze Measurement Data	116
8.4.2	Visualize and Interpret Data	116
8.4.3	Identify Improvement Potentials	124
9	Phase 6: Package Improvements	127
9.1	Revise Grid and Plans	128
9.2	Communicate Outcomes	130
9.3	Manage Experience	130
9.4	Initiate New Cycle	131
9.4.1	Cycle Frequency and Intensity	132
9.4.2	Exceptional Cycles	133
9.5	Example	134
9.5.1	Revise Grid and Plans	134
9.5.2	Communicate Outcomes	139
9.5.3	Manage Experience	139
9.5.4	Initiate New Cycle	140
 Part II Industrial Applications and Relations to Other Approaches		
10	Industrial Challenges and Applications	143
10.1	Industrial Challenges	143
10.2	ECOPETROL S. A., Columbia	150
10.2.1	Application Context and Objectives	150
10.2.2	Solution Approach	150
10.2.3	Results	151
10.2.4	Costs and Benefits	154
10.3	Information-Technology Promotion Agency, Japan	155
10.3.1	Application Context and Objectives	155
10.3.2	Solution Approach	156
10.3.3	Results	159
10.3.4	Costs and Benefits	160
10.4	Japanese Aerospace Exploration Agency, Japan	161
10.4.1	Application Context and Objectives	161
10.4.2	Solution Approach	162
10.4.3	Results	162
10.4.4	Costs and Benefits	166
11	Relationships to Other Approaches	169
11.1	Organizational Performance Measurement	169
11.1.1	The Balanced Scorecard	170
11.1.2	BSC and Relationship to GQM ⁺ Strategies	172

11.2	Business Process Management	174
11.2.1	Business Process Reengineering and Management	174
11.2.2	BPM and Relationship to GQM ⁺ Strategies	174
11.3	Software Process Management	176
11.3.1	Model-Based Software Process Improvement Approaches	176
11.3.2	Model-Based SPI and Relationship with GQM ⁺ Strategies	177
11.3.3	Continuous Software Process Improvement Approaches	178
11.3.4	Continuous SPI and Relationship with GQM ⁺ Strategies	179
11.4	Summary	179
12	Summary and Future Perspectives	181
12.1	Benefits	181
12.2	Future Plans	182
12.2.1	Tool Support	182
12.2.2	Value-Based Software Engineering	183
12.2.3	Causality Theory	183
12.2.4	Patterns	184
12.2.5	Relationships with CMMI	184
	Appendix A. GQM⁺Strategies Process Checklist	187
	Appendix B. GQM⁺Strategies Evaluation Questionnaire	189
	Appendix C. Authors	193
	Bibliography	197
	The Fraunhofer Institute for Experimental Software Engineering (IESE)	201
	Index	203

Aligning Organizations Through Measurement

The GQM+Strategies Approach

Basili, V.; Trendowicz, A.; Kowalczyk, M.; Heidrich, J.;

Seaman, C.; Münch, J.; Rombach, D.

2014, XXVI, 205 p. 61 illus. in color., Hardcover

ISBN: 978-3-319-05046-1
