

# Contents

## Part I Measuring Product Demand and Peoples’ Capabilities

<b>An HCI Survey on Elderly Users in India . . . . .</b>	<b>3</b>
P. Biswas and P. M. Langdon	
<b>User Capabilities Versus Device Task Demands in a Tape Dispenser Product for Persons with Limited Dexterity . . . . .</b>	<b>13</b>
Y. M. Choi	

## Part II Designing Cognitive Interaction with Emerging Technologies

<b>Three Scanning Methods for Text Cursor Manipulation . . . . .</b>	<b>27</b>
A. J. Sporka, O. Polacek and J. Murin	
<b>A Combinatory Approach to Assessing User Performance of Digital Interfaces. . . . .</b>	<b>39</b>
P. K. A. Wollner, P. M. Langdon and P. J. Clarkson	
<b>How Interface Adaptation for Physical Impairment Can Help Able Bodied Users in Situational Impairment. . . . .</b>	<b>49</b>
P. Biswas, P. M. Langdon, J. Umadikar, S. Kittusami and S. Prashant	
<b>Gender Issues in ICT Adoption: A Literature Review . . . . .</b>	<b>59</b>
T. S. Goldhaber, P. M. Langdon and P. J. Clarkson	
<b>Blind and Deaf Consumer Preferences for Android and iOS Smartphones . . . . .</b>	<b>69</b>
J. Morris and J. Mueller	

### **Part III Reconciling Usability, Accessibility and Inclusive Design**

<b>Preliminary Results in the Understanding of Accessibility Challenges in Computer Gaming for the Visually Impaired . . . . .</b>	<b>83</b>
J. Chakraborty, J. Hritz and J. Dehlinger	

<b>Investigating Accessibility to Achieve Inclusive Environments: The Spatial Experience of Disability at a University Precinct in Lisbon . . . . .</b>	<b>93</b>
T. Heitor, V. Medeiros, R. Nascimento and A. Tomé	

<b>Accessibility in Practice: A Process-Driven Approach to Accessibility . . . . .</b>	<b>105</b>
S. Horton and D. Sloan	

### **Part IV Designing Inclusive Spaces**

<b>Improving Residents' Satisfaction in Care Homes: What to Prioritise? . . . . .</b>	<b>119</b>
S. A. Shamshirsaz and H. Dong	

<b>Being Transported into the Unknown: How Patients Experience the Route to the Operation Room . . . . .</b>	<b>131</b>
M. Annemans, C. H. Van Audenhove, H. Vermolen and A. Heylighen	

<b>Student Engagement in Assessment of Universal Access of University Buildings . . . . .</b>	<b>143</b>
Z. Ceresnova	

<b>Reported Design Processes for Accessibility in Rail Transport . . . . .</b>	<b>153</b>
R. Herriott and S. Cook	

<b>Inclusive Strategies for Universal Access in Educational Campus Environments . . . . .</b>	<b>165</b>
G. Raheja and S. Suryawanshi	

<b>How do People with Autism (Like to) Live? . . . . .</b>	<b>175</b>
M. Kinnaer, S. Baumers and A. Heylighen	

## **Part V Collaborative and Participatory Design**

<b>From Designing for the Patient to Designing for a Person . . . . .</b>	<b>189</b>
M. Annemans, E. Karanastasi and A. Heylighen	

<b>Accessible Participatory Design: Engaging and Including Visually Impaired Participants. . . . .</b>	<b>201</b>
C. Andrews	

<b>Embracing Resonance: A Case Study. . . . .</b>	<b>211</b>
C. Andrews	

<b>Can We Work Together? On the Inclusion of Blind People in UML Model-Based Tasks . . . . .</b>	<b>223</b>
L. Luque, E. S. Veriscimo, G. C. Pereira and L. V. L. Filgueiras	

<b>Co-design in China: Implications for Users, Designers and Researchers . . . . .</b>	<b>235</b>
S. Yuan and H. Dong	

<b>Together Through Play: Facilitating Inclusive Play Through Participatory Design . . . . .</b>	<b>245</b>
R. J. Holt, A.-M. Moore and A. E. Beckett	

## **Part VI Legislation, Standards and Policy**

<b>Inclusive Design of a Web-Based Resource to Assist Public Librarians with Providing Government Information to Library Patrons in the United States . . . . .</b>	<b>259</b>
B. Wentz and J. Lazar	

<b>Designing Accessible Workplaces for Visually Impaired People. . . . .</b>	<b>269</b>
J. L. Gomez, P. M. Langdon, J. A. Bichard and P. J. Clarkson	

<b>Author Index . . . . .</b>	<b>281</b>
