<b>1</b>	<b>Introduction and Motivation</b>	<b>1</b>
	Rationale	1
	Motivation for Change	2
	What Modern Engineers Do.	2
	The Need for Reform of Engineering Education	2
	Overview of the CDIO Approach	7
	The Book	9
	References	9
<b>2</b>	<b>The CDIO Approach</b>	<b>11</b>
	Introduction	11
	Chapter Objectives	12
	The CDIO Approach	12
	The Underlying Need	12
	The Goals	13
	The Vision	15
	Curriculum Reform	20
	Pedagogical Foundation	23
	The Foundational Principle: CDIO as the Context	25
	The Context of Professional Engineering Practice	25
	The Context of Engineering Education	30
	Realizing the Vision	33
	The CDIO Syllabus	34
	The CDIO Standards	35
	Organizational and Cultural Change	37
	Enhancement of Faculty Competence	38
	Open-Source Ideas and Resources	38
	Value of Collaboration for Parallel Development	39
	Foundation on Educational Research and on Effective Practices	39
	Alignment with National Standards and Other Change Initiatives	40
	Strategies to Attract and Motivate Students	40
	Summary	43
	Discussion Questions	43
	References	44

<b>3 The CDIO Syllabus: Learning Outcomes for Engineering Education</b>	47
Introduction	47
Chapter Objectives	48
The Knowledge and Skills of Engineering	48
Required Engineering Knowledge and Skills	48
Importance of Rationale and Levels of Detail	50
The CDIO Syllabus	51
Development and Integration of the CDIO Syllabus	52
Content and Structure of the CDIO Syllabus	53
Validation of the CDIO Syllabus	60
Contemporary Themes in Engineering: Sustainability, Innovation, and Globalization	66
Contemporary Themes in Engineering: Leadership and Entrepreneurship	68
Learning Outcomes and Student Proficiency Levels	71
Customizing the Syllabus for a Specific Program	73
Identifying the Program Stakeholders	74
Engaging Stakeholders and Capturing Their Opinions	74
Interpreting Results and Arriving at Consensus	76
Translating Expected Levels of Proficiency into Learning Outcomes	79
Summary	81
Discussion Questions	82
References	82
<b>4 Integrated Curriculum Design</b>	85
Introduction	85
Chapter Objectives	87
The Rationale for an Integrated Curriculum	87
Practical Reasons	88
Pedagogical Reasons	88
Characteristics of an Integrated Curriculum	89
Faculty Perceptions of Professional Skills	90
Integrated Curriculum Design Process	91
The Curriculum Design Process Model	92
Curriculum Content and Learning Outcomes	93
Pre-existing Conditions	93
Benchmarking of the Existing Curriculum	96
Curriculum Structure	97
Organizing Principle	98
Master Plan	99
Block Course Structure	100

CDIO Curriculum Concept . . . . .	101
Sequence of Content and Learning Outcomes . . . . .	104
Mapping Learning Outcomes . . . . .	105
Introductory Engineering Course . . . . .	110
Summary . . . . .	114
Discussion Questions . . . . .	114
References . . . . .	114
<b>5 Design-Implement Experiences and Engineering Workspaces . . . . .</b>	<b>117</b>
Introduction . . . . .	117
Chapter Objectives . . . . .	118
Rationale for Design-Implement Experiences . . . . .	118
Characteristics of Design-Implement Experiences . . . . .	119
Distinguishing Design-Implement Exercises . . . . .	120
Role and Benefit of Design-Implement Experiences . . . . .	120
Early Design-Implement Experiences . . . . .	122
Advanced Design-Implement Experiences . . . . .	123
Development of Design-Implement Experiences . . . . .	123
Design-Implement Experiences Throughout the Curriculum . . . . .	124
First-Year Activities . . . . .	124
Second-Year Activities . . . . .	125
Third-Year and Fourth-Year Activities . . . . .	127
Challenges of Design-Implement Experiences . . . . .	129
Engineering Workspaces . . . . .	131
Role and Benefit of CDIO Workspaces . . . . .	131
Designing Engineering Workspaces . . . . .	132
Examples of CDIO Workspaces . . . . .	134
Teaching and Learning Modes in Engineering Workspaces . . . . .	136
Challenges of Engineering Workspaces . . . . .	139
Summary . . . . .	140
Discussion Questions . . . . .	141
References . . . . .	141
<b>6 Teaching and Learning . . . . .</b>	<b>143</b>
Introduction . . . . .	143
Chapter Objectives . . . . .	144
Student Perspectives and Motivation . . . . .	144
Student Perspectives on Teaching and Learning . . . . .	145
Student Motivation . . . . .	146
Integrated Learning . . . . .	147
Benefits of Integrated Learning . . . . .	148
Development of Skills . . . . .	148
Integrated Learning Across Multiple Experiences . . . . .	148
Course Design Aligned with a CDIO Approach . . . . .	150
Constructive Alignment: A Model for Course Design . . . . .	150

Specification of Intended Learning Outcomes . . . . .	151
Levels of Intended Learning Outcomes . . . . .	152
Examples of Intended Learning Outcomes . . . . .	152
Active and Experiential Learning Methods . . . . .	153
Active Learning Methods . . . . .	154
Experiential Learning Methods . . . . .	157
Benefits and Challenges . . . . .	161
Summary . . . . .	161
Discussion Questions . . . . .	162
References . . . . .	162
<b>7 Student Learning Assessment . . . . .</b>	<b>165</b>
Introduction . . . . .	165
Chapter Objectives . . . . .	166
The Learning Assessment Process . . . . .	167
Aligning Assessment Methods with Learning Outcomes . . . . .	169
Methods for Assessing Student Learning . . . . .	169
Written and Oral Questions . . . . .	170
Observations and Ratings of Student Performance . . . . .	171
Product, Process, and Project Reviews . . . . .	173
Journals and Portfolios . . . . .	174
Other Self-Report Measures . . . . .	174
Guide to Selecting Appropriate Assessment Methods . . . . .	175
Using Results to Improve Teaching and Learning . . . . .	177
Feedback to Students . . . . .	177
A Culture of Quality . . . . .	177
Key Benefits and Challenges . . . . .	178
Summary . . . . .	179
Discussion Questions . . . . .	179
References . . . . .	180
<b>8 Adapting and Implementing a CDIO Approach . . . . .</b>	<b>181</b>
Introduction . . . . .	181
Chapter Objectives . . . . .	182
Development of a CDIO Program as an Example of Organizational and Cultural Change . . . . .	182
Change at a University as an Instance of Organizational Change . . . . .	183
Key Success Factors that Promote Organizational and Cultural Change . . . . .	185
The First Phase of Change: Getting Off to the Right Start . . . . .	186
The Second Phase of Change: Building Momentum in the Core Activities of Change . . . . .	191
The Third Phase of Change: Institutionalizing Change . . . . .	193
Faculty Development and Support . . . . .	197
Enhancement of Faculty Competence in Skills . . . . .	197

Enhancement of Faculty Competence in Teaching and Assessment . . . . .	199
Resources to Support Program Change. . . . .	201
Engineering Design Paradigm for the Development of a CDIO Approach . . . . .	202
Open-Source Ideas and Resources . . . . .	203
Value of Collaboration for Parallel Development . . . . .	205
Summary . . . . .	206
Discussion Questions . . . . .	206
References . . . . .	207
<b>9 Program Evaluation. . . . .</b>	<b>209</b>
Introduction . . . . .	209
Chapter Objectives . . . . .	210
Standards-Based Program Evaluation. . . . .	211
The CDIO Standards and Associated Key Questions . . . . .	212
Rationale and Organization of the CDIO Standards . . . . .	213
Key Questions Aligned with the CDIO Standards . . . . .	214
Key Program Evaluation Questions for Comparative Purposes. . . . .	216
Methods to Evaluate Programs . . . . .	217
Document Reviews. . . . .	217
Personal and Focus-Group Interviews . . . . .	217
Written Questionnaires. . . . .	218
Instructor Reflections . . . . .	218
Program Reviews by External Experts. . . . .	218
Longitudinal Studies . . . . .	219
Evaluating A Program Against the CDIO Standards . . . . .	219
Continuous Program Improvement Process . . . . .	222
Overall Impact of CDIO Programs . . . . .	224
Preliminary Results of Inputs, Processes, and Short-term Outcomes . . . . .	224
Studies of Long-term Outcomes and Overall Impact . . . . .	227
Summary . . . . .	229
Discussion Questions . . . . .	230
