

# Contents

<b>1</b>	<b>Gradual Concept of Truth</b>	<b>1</b>
1.1	Research Questions	2
1.2	Thesis Structure	3
<b>2</b>	<b>Fuzziness and Induction</b>	<b>7</b>
2.1	Deduction	7
2.1.1	Logic	8
2.1.2	Classification	10
2.2	Fuzziness	12
2.2.1	Fuzzy Logic	12
2.2.2	Fuzzy Classification	18
2.3	Induction	19
2.3.1	Inductive Logic	19
2.3.2	Inductive Classification	22
2.4	Inductive Fuzzy Classification	24
2.4.1	Univariate Membership Function Induction	25
2.4.2	Multivariate Membership Function Induction	31
<b>3</b>	<b>Analytics and Marketing</b>	<b>35</b>
3.1	Analytics	35
3.1.1	Selection	39
3.1.2	Visualization	40
3.1.3	Prediction	41
3.2	Marketing Analytics	43
3.2.1	Customer Analytics	45
3.2.2	Product Analytics	46
3.2.3	Fuzzy Target Groups	49
3.2.4	Integrated Analytics	50
3.2.5	Case Study: IFC in Online Marketing at PostFinance	52

<b>4 Prototyping and Evaluation</b> . . . . .	59
4.1 Software Prototypes . . . . .	59
4.1.1 IFCQL . . . . .	59
4.1.2 IFCL . . . . .	60
4.1.3 IFC-Filter for Weka . . . . .	65
4.2 Empirical Tests . . . . .	67
4.2.1 Experiment Design . . . . .	68
4.2.2 Results . . . . .	70
<b>5 Precisiating Fuzziness by Induction</b> . . . . .	77
5.1 Summary of Contribution . . . . .	77
5.2 Discussion of Results . . . . .	79
5.3 Outlook and Further Research . . . . .	81
<b>Appendix A</b> . . . . .	83
A.1. Datasets Used in the Experiments . . . . .	83
A.2. Database Queries . . . . .	89
A.3. Experimental Results Tables . . . . .	103
A.4. IFCL Syntax and Application . . . . .	108
A.5. Key Terms and Definitions . . . . .	121
<b>References</b> . . . . .	123

Inductive Fuzzy Classification in Marketing Analytics

Kaufmann, M.

2014, XX, 125 p. 35 illus., Hardcover

ISBN: 978-3-319-05860-3
