1	Introduction	1
1.1	Filtering	1
1.2	Robust Filtering	2
1.2.1	Uncertainty in Systems	2
1.2.2	Uncertainty in Signals	3
1.2.3	Quadratic Robust Filter Design	5
1.3	Parameter-Dependent Robust Filtering	7
1.3.1	Significance of Parameter Dependence	7
1.3.2	Parameter-Dependent Robust Filter Design	8
1.3.3	Motivation	10
1.4	Organization of the Book	11
1.5	Preliminaries	13
1.5.1	Schur Complement	13
1.5.2	Elimination Lemmas	13
1.5.3	GKYP Lemma	14
1.5.4	Jensen Inequality	15
	References	16

Part I Quadratic and Parameter-Dependent Filter Design

2	Quadratic Robust Filter Design	25
2.1	Quadratic Robust H_2 Filter Design	26
2.1.1	Problem Formulation	26
2.1.2	H_2 Filtering for Nominal Systems: Continuous-Time	28
2.1.3	Connection to the Kalman Filtering: Continuous-Time	35
2.1.4	H_2 Filtering for Nominal Systems: Discrete-Time	39
2.1.5	Connection to the Kalman Filtering: Discrete-Time	44
2.1.6	Quadratic Robust H_2 Filtering	47
2.2	Quadratic Robust H_∞ Filter Design	52
2.2.1	Problem Formulation	53
2.2.2	H_∞ Filtering for Nominal Systems	54
2.2.3	Quadratic Robust H_∞ Filtering	58

2.3	Quadratic Robust Energy-to-Peak Filter Design.	61
2.3.1	Problem Formulation.	62
2.3.2	Energy-to-Peak Filtering for Nominal Systems.	63
2.3.3	Quadratic Robust Energy-to-Peak Filtering.	64
2.4	Examples	68
2.5	Summary and Notes.	79
2.5.1	Summary	79
2.5.2	Notes.	79
	References	80
3	Parameter-Dependent Robust Filter Design	83
3.1	Slack Matrix.	84
3.1.1	H_2 Performance Criterion.	84
3.1.2	H_∞ Performance Criterion	87
3.2	Filter Realization.	90
3.2.1	H_2 Filter Realization	90
3.2.2	H_∞ Filter Realization	94
3.3	Linearly Parameter-Dependent Approaches.	96
3.3.1	H_2 Filter Design I.	96
3.3.2	H_∞ Filter Design I	98
3.4	Polynomially Parameter-Dependent Approaches	100
3.4.1	Homogeneous Polynomial	101
3.4.2	H_2 Filter Design II	103
3.4.3	H_∞ Filter Design II.	109
3.5	Illustrative Examples	111
3.6	Summary and Notes.	118
3.6.1	Summary	118
3.6.2	Notes.	119
	References	120

Part II Robust Filtering for Time-Delay Systems and 2-D Systems

4	Robust Filtering for Continuous Time-Delay Systems	125
4.1	Introduction	125
4.2	Problem Formulation	126
4.3	Filter Analysis and Design	127
4.3.1	Filter Analysis	127
4.3.2	Filter Realization	130
4.3.3	Polynomially Parameter-Dependent Approach to Filter Design.	134
4.4	Illustrative Examples	137

4.5	Summary and Notes.	139
4.5.1	Summary	139
4.5.2	Notes.	140
	References	140
5	Robust Filtering for Discrete Time-Delay Systems.	143
5.1	Problem Formulation	143
5.2	H_∞ Filtering Analysis	145
5.3	H_∞ Filtering Synthesis	149
5.3.1	Slack Matrices	149
5.3.2	Filter Realization	150
5.3.3	Polynomially Parameter-Dependent Approaches to Filter Design.	153
5.4	Illustrative Examples	158
5.5	Summary and Notes.	162
5.5.1	Summary	162
5.5.2	Notes.	162
	References	163
6	Robust Filtering for Uncertain 2-D Systems	165
6.1	Introduction	165
6.2	FM Model	166
6.2.1	Problem Formulation.	166
6.2.2	Filter Design	167
6.3	Roesser Model	174
6.3.1	Problem Formulation.	174
6.3.2	Filter Design	176
6.4	Illustrative Examples	180
6.5	Summary and Notes.	185
6.5.1	Summary	185
6.5.2	Notes.	186
	References	186

Part III New Problems in Robust Filtering

7	Robust Estimation with Limited Communication Capacity	189
7.1	Introduction	189
7.2	Problem Formulation	190
7.3	H_∞ Filtering	194
7.3.1	Filter Analysis	194
7.3.2	Filter Design	200

7.4	Robust H_∞ Filtering	204
7.4.1	Quadratic Approach	204
7.4.2	Parameter-Dependent Approach	205
7.5	Illustrative Examples	208
7.6	Summary and Notes.	216
7.6.1	Summary	216
7.6.2	Notes.	216
	References	217
8	Finite Frequency H_∞ Filtering for Time-Delay Systems.	219
8.1	Introduction	219
8.2	Problem Formulation	220
8.3	Filter Analysis.	222
8.3.1	Delay-Dependent FF BRL	222
8.3.2	The First Proof	223
8.3.3	The Second Proof	228
8.3.4	Delay-Independent FF BRL	230
8.4	Filter Design.	231
8.4.1	Delay-Dependent Approach	231
8.4.2	Delay-Independent Approach	233
8.5	Examples	234
8.6	Summary and Notes.	242
8.6.1	Summary	242
8.6.2	Notes.	242
	References	242
9	Conclusion.	245
9.1	Conclusion	245
9.2	Algorithms	250
	Index	251

Robust Filtering for Uncertain Systems

A Parameter-Dependent Approach

Gao, H.; Li, X.

2014, XVI, 253 p. 45 illus., 18 illus. in color., Hardcover

ISBN: 978-3-319-05902-0
