

Preface

A book such as this one could obviously not be put together without the help and cooperation of many people.

I am particularly indebted to the authors who graciously made their contributions available in a timely fashion.

I would like to thank Dr. Anselm Blocher for his excellent editorial assistance and the production of the final camera-ready copy. Special praise goes to Mona El Hadidy and Renato Orsini for their assistance in formatting and copy-editing the book. Special thanks go to Ronan Nugent from Springer for his continuous publishing support.

The THESEUS research program was made possible by funding from the German Federal Ministry for Economic Affairs and Energy (BMWi). I would like to thank Dr. Andreas Goerdeler, Deputy Director General Information Society, Media at BMWi, for his constant and tireless support of the THESEUS research program.
