

Contents

1	The Modern Yoghurt: Introduction to Fermentative Processes	1
1.1	Fermented Milks: The Peculiarity of Yoghurts	2
1.2	Fermentation and Processes	3
1.2.1	Alcoholic Fermentation	4
1.2.2	Homolactic Fermentation	5
1.2.3	Heterolactic Fermentation	5
1.2.4	Propionic Fermentation	5
1.2.5	Butyric Fermentation	5
1.2.6	Oxidative Fermentation	6
1.2.7	Citric Fermentation	6
1.3	Fermented Milks and Yoghurts.	6
1.4	Features of Lactic Microflora in Yoghurts and Related Chemical Profiles	8
1.5	Industrial Yoghurts: Preparation of Milks	13
1.6	The Lactic Inoculum	18
1.7	Final Processes	19
	References	20
2	The Yoghurt: Chemical and Technological Profiles	25
2.1	The Yoghurt: Biochemical Variations	26
2.2	Compositional Features of Yoghurts	29
	References	31
3	The Industry of Yoghurt: Formulations and Food Additives	33
3.1	The Yoghurt in the Modern Industry: An Overview	34
3.2	The Yoghurt in the Modern Industry: A Food Classification	36
3.2.1	Drinking Yoghurts	37
3.2.2	Fermented (Plain) Yoghurts	37
3.2.3	Dairy-Based Desserts	38
3.2.4	Other Yoghurt-Related Products	38

- 3.3 Additives for Yoghurt and Yoghurt-Related Food Products 40
 - 3.3.1 Sweeteners 43
 - 3.3.2 Flavour Enhancers 45
 - 3.3.3 Food Colours 47
 - 3.3.4 Thickeners 50
- 3.4 The Influence of Food Additives on the Design of Yoghurt 52
- References 54

Chemistry and Technology of Yoghurt Fermentation

Baglio, E.

2014, VI, 57 p. 8 illus., 1 illus. in color., Softcover

ISBN: 978-3-319-07376-7
