Contents

1 Literature Review and Methodology 1
1.1 Introduction 1
1.2 Literature Review 2
1.3 Divisia-Index-Based Methodology 4
1.3.1 Structural Decomposition Versus Index-Based Decomposition Techniques 4
1.3.2 Decomposition of the Change in an Indicator 4
1.3.3 Types of Decomposition. Additive and Multiplicative Models 5
1.3.4 Decomposition Techniques Based on Divisia Indices . . . 5
1.3.5 Parametric Divisia Methods: Some Classical Methods . . . 7
1.3.6 Nonparametric Divisia Method. The LMDI Approach . . . 10
1.3.7 Decomposition at Several Disaggregation Levels of Information 11
1.3.8 Time Series Decomposition 12
References 14

2 Mathematical and Statistical Properties of Decomposition Techniques. The Splines Method 17
2.1 Introduction 17
2.2 Path Reconstruction Through Interpolation. The Splines Method 18
2.3 Mathematical Properties. Convergence 20
2.3.1 Additive Decomposition 21
2.3.2 Multiplicative Decomposition 23
2.4 Stochastic Analysis 24
2.5 Concluding Remarks 26
Appendix I: Mathematical Proofs of Chapter 2 26
References 34

3 Multiplicative Decomposition of the Change in Aggregate Energy Intensity in the European Countries During the 1995–2010 Period 35
3.1 Introduction 35
3.2 Methodology 35
3.2.1 Energy Intensity Approach. The Multiplicative Case 35
3.2.2 Time Series Decomposition 38
3.3 Analysis of the Change in Aggregate Energy Intensity in the European Union 39
3.3.1 Graphical Analysis 39
3.3.2 Contributions of the Determinant Factors 40
3.4 Conclusions 51
References 51

4 Additive Decomposition of Changes in Greenhouse Gas Emissions in the European Union in the 1990s 53
4.1 Introduction 53
4.2 Methodology 54
4.2.1 Sun's Method 55
4.2.2 The Path-Based Method 56
4.2.3 The LMDI Method 60
4.2.4 The Splines Method 61
4.3 Analysis of Changes in Greenhouse Gas Emissions in the EU15 in the 1990s 61
4.3.1 Contributions of Changes in the Factors 62
4.3.2 Comparison with Annual Time Series Decomposition Results 64
4.3.3 A Cross-Country Analysis 69
4.4 Conclusions 70
References 72

Concluding Remarks 73

The Driving Forces of Change in Environmental Indicators

An Analysis Based on Divisia Index Decomposition Techniques

Fernández González, P.; Landajo, M.; Presno, M.J.

2014, XII, 80 p. 16 illus., 14 illus. in color., Hardcover
ISBN: 978-3-319-07505-1
