

Contents

1	Overview of Resorbable Biomaterials	1
1.1	Introduction	1
1.2	Requisites for Resorbable Biomaterials	2
1.2.1	Biocompatibility	3
1.2.2	Biofunctionality	3
	References	4
2	Degradation Process	7
2.1	Degradation Mechanism for Bioresorbable Polymers	7
2.2	Bulk Erosion Versus Surface Erosion	8
	References	10
3	Biotextiles: Fiber to Fabric for Medical Applications	11
3.1	Importance of Fiber-Forming Biopolymers	11
3.2	Requisites for Fiber-Forming Bioresorbable Polymers	12
3.3	Manufacturing Processes for Biotextiles	13
3.3.1	Fiber Extrusion Spinning	14
3.3.2	Fabrication of Textile Structures	19
3.3.3	Finishing	21
	References	22
4	Hydrolytically Sensitive Fiber-Forming Bioresorbable Polymers	23
4.1	Linear Aliphatic Polyesters	23
4.1.1	Poly(α -esters)	23
4.1.2	Poly(ω -hydroxy acids)	28
4.1.3	Poly(ester ethers)	31
4.1.4	Polycarbonates	33
4.2	Polyurethanes	33
4.3	Poly(ester amides)	34
4.4	Poly(ortho esters)	35
4.5	Polyanhydrides	35

4.6	Pseudo-poly(amino acids)	36
4.7	Polyphosphazenes	37
4.8	Polyphosphoesters	38
	References	38
5	Processing Parameters and the Rate of Resorption	43
5.1	Effect of Processing Conditions and Spinning Parameters	43
5.1.1	Effect of Moisture	44
5.1.2	Effect of Temperature	45
5.1.3	Process-Induced Monomers	45
5.1.4	Extrusion Rate	46
5.2	Effect of Sterilization Techniques, Packaging, and Storage Conditions	46
	References	48
6	Enzymatically Sensitive Fiber-Forming Bioresorbable Polymers	49
6.1	Requisites for Enzymatically Resorbable Polymers	50
6.2	Classification of Enzymatically Resorbable Biopolymers	51
6.2.1	Polypeptides	51
6.2.2	Polysaccharides	56
6.2.3	Bacterial Polyesters	59
6.3	Mechanism of Enzymatic Resorption	59
6.3.1	Biological Oxidation	60
6.4	Biological Hydrolysis	60
6.4.1	Factors Affecting Enzymatic Resorption	61
6.5	Enzymes for Synthetic Biopolymers	61
	References	62
7	Current Applications of Biotextiles and Future Trends	67
7.1	Biomedical Applications of Fiber-Forming Resorbable Polymers	67
7.2	Future Trends	72
	References	74
	Index	77

Resorbable Fiber-Forming Polymers for Biotextile
Applications

Gajjar, C.R.; King, M.W.

2014, VIII, 78 p. 20 illus., 5 illus. in color., Softcover

ISBN: 978-3-319-08304-9
