

Contents

1	Points and Vectors	1
1.1	Points	1
1.2	Vectors	6
1.2.1	Properties of Addition and Scalar Multiplication	11
1.3	Dot Product	14
1.4	\mathbb{R}^n	21
1.5	Vector-Valued Functions	26
2	Limits	33
2.1	Sequences and Limits	33
2.2	Limits and Continuity	40
2.3	Change	51
2.4	Derivatives of a Few Common Functions	59
2.5	Derivatives, Graphs, and Approximations	63
3	More on Limits	69
3.1	One-Sided Limits	69
3.2	Limits Involving Infinity	75
3.3	Limits and the Epsilon-Delta Definition	81
4	Finding Derivatives	87
4.1	Elementary Rules	87
4.2	The Quotient Rule	92
4.3	The Chain Rule	96
4.4	Implicit Differentiation	101
4.4.1	Derivatives of Inverse Functions	105
4.5	Inverse Trigonometric Functions	108
4.6	Higher Order Derivatives	114
4.7	Derivative Practice Problems	119
5	Applications	121
5.1	The Intermediate Value Theorem	121
5.2	Newton's Method	125
5.3	Related Rates	130
5.4	Extrema	137
5.5	The Mean Value Theorem	143

5.6	Concavity	149
5.7	Graphing	153
5.8	Optimization	158
6	Integration	169
6.1	Antiderivatives	169
6.2	Riemann Sums	174
6.3	The Definite Integral	182
6.4	The Fundamental Theorem of Calculus	189
6.5	Integration by Substitution	193
7	Cross Product	203
7.1	Cross Product	203
7.2	Volume	209
7.3	Planes	213
7.4	L'Hôpital's Rule	217
7.4.1	Slant Asymptotes	225
8	Integration Techniques	231
8.1	Substitution Review	231
8.1.1	Separable DE's	234
8.2	Parts	239
8.3	Partial Fractions	244
8.3.1	Logistic Equation	249
8.4	Trigonometric Integrals	254
8.5	Trigonometric Subs	259
8.6	Integral Tables	264
8.7	Improper Integrals	268
8.8	Practice for Integration	276
8.9	Numerical Integration	279
9	Applications of Integration	289
9.1	Work	289
9.2	Work 2	294
9.3	Volumes 1	298
9.3.1	Volumes: Cones	300
9.4	Volumes: Washers	303
9.5	Volumes: Shells	309
9.5.1	Moments	311
9.6	Arc Length and Areas of Revolution	314
9.7	Differential Equations	322
9.8	$\ln(x)$ and $\exp(x)$	330
10	Series	335
10.1	Review of Sequences	335
10.2	Definition of Series	338
10.3	Integral Test	344
10.4	Comparison Tests	351
10.5	Ratio Test	357
10.6	Alternating Series	362

10.7 Power Series	367
10.8 Taylor Series	375
10.8.1 Series and DE's	378
Appendix A Mathematical Preliminaries	381
A.1 Order of Operations	381
A.2 Algebra and Functions	382
A.2.1 Algebra with Functions	383
A.2.2 Quadratic Polynomials	384
A.2.3 Solving Equations and Eliminating Variables	386
A.3 Trigonometry	389
Appendix B Tables	395
B.1 Integral Table	395
B.2 Derivative Table	396
Index	397
