

# Contents

|          |  |            |
|----------|--|------------|
| <b>1</b> | <b>Introduction to Molecular Similarity and Chemical Space .....</b>   | <b>1</b>   |
|          | Gerald M. Maggiora   |            |
| <b>2</b> | <b>The Chemical Space of Flavours .....</b>  | <b>83</b>  |
|          | Lars Ruddigkeit and Jean-Louis Reymond   |            |
| <b>3</b> | <b>Chemoinformatics Analysis and Structural Similarity<br/>Studies of Food-Related Databases .....</b>                             | <b>97</b>  |
|          | Karina Martinez-Mayorga, Terry L. Peppard,<br>Ariadna I. Ramírez-Hernández, Diana E. Terrazas-Álvarez and<br>José L. Medina-Franco |            |
| <b>4</b> | <b>Reverse Pharmacognosy: A Tool to Accelerate the Discovery<br/>of New Bioactive Food Ingredients.....</b>                        | <b>111</b> |
|          | Quoc Tuan Do, Maureen Driscoll, Angela Slitt, Navindra Seeram,<br>Terry L. Peppard and Philippe Bernard                            |            |
| <b>5</b> | <b>Molecular Approaches to Explore Natural and Food-<br/>Compound Modulators in Cancer Epigenetics and Metabolism .....</b>        | <b>131</b> |
|          | Alberto Del Rio and Fernando B. Da Costa   |            |
| <b>6</b> | <b>Discovery of Natural Products that Modulate the Activity of<br/>PPARgamma: A Source for New Antidiabetics .....</b>             | <b>151</b> |
|          | Santiago Garcia-Vallve, Laura Guasch and Miquel Mulero   |            |
| <b>7</b> | <b>DPP-IV, An Important Target for Antidiabetic Functional<br/>Food Design .....</b>   | <b>177</b> |
|          | María José Ojeda, Adrià Cereto-Massagué,<br>Cristina Valls and Gerard Pujadas  |            |

|   |            |
|---|------------|
| <b>8 Comparison of Different Data Analysis Tools to Study the Effect of Storage Conditions on Wine Sensory Attributes and Trace Metal Composition .....</b> | <b>213</b> |
| Helene Hopfer, Susan E. Ebeler and Hildegard Heymann  |            |
| <b>9 Software and Online Resources: Perspectives and Potential Applications .....</b>   | <b>233</b> |
| Karina Martinez-Mayorga, Terry L. Peppard<br>and José L. Medina-Franco  |            |
| <b>Index .....</b>  | <b>249</b> |

Foodinformatics

Applications of Chemical Information to Food Chemistry

Martinez-Mayorga, K.; Medina-Franco, J.L. (Eds.)

2014, XII, 251 p. 51 illus., 39 illus. in color., Hardcover

ISBN: 978-3-319-10225-2
