Remembrances and Silhouettes	1
Calixto P. Calderón	
The Calderón Brothers, a Happy Mathematical Relation	7
Alexandra Bellow	
Calixto Calderón As I Knew Him	13
Luis Caffarelli	
An Appraisal of Calixto Calderón’s Work in Mathematical Biology	15
Evans Afenya	
Remarks on Various Generalized Derivatives	25
J. Marshall Ash	
Some Non Standard Applications of the Laplace Method	41
Calixto P. Calderón and Wilfredo O. Urbina	
Fejér Polynomials and Chaos	49
Dmitriy Dmitrishin, Anna Khamitova, and Alexander M. Stokolos	
A Note on Widder’s Inequality	77
Constantine Georgakis	
Solyanik Estimates in Harmonic Analysis	87
Paul Hagelstein and Ioannis Parissis	
Some Open Problems Related to Generalized Fourier Series	105
Kazaros S. Kazarian	
Computational Analysis for a Mathematical Model of the Mechanics of Aneurysm Development and Rupture	115
Tor A. Kwembe	

Singular Integral Operators on C^1 Manifolds and C^1 Curvilinear Polygons	135
Jeff E. Lewis	
Towards a Unified Theory of Sobolev Inequalities	163
Joaquim Martín and Mario Milman	
Transference of Fractional Laplacian Regularity	203
Luz Roncal and Pablo Raúl Stinga	
Local Sharp Maximal Functions	213
Alberto Torchinsky	
Weighted Norm Estimates for Singular Integrals with $L \log L$ Kernels: Regularity of Weak Solutions of Some Degenerate Quasilinear Equations	233
Richard L. Wheeden	

Special Functions, Partial Differential Equations, and
Harmonic Analysis

In Honor of Calixto P. Calderón

Urbina, W.; Stokolos, A.M.; Urbina, W. (Eds.)

2014, X, 246 p. 35 illus., 23 illus. in color., Hardcover

ISBN: 978-3-319-10544-4
