## Digital Forensics - Technical

Robust Copy-Move Forgery Detection Based on Dual-Transform . . . . .	3
<i>Munkhbaatar Doyoddorj and Kyung-Hyune Rhee</i>	
Forensic Decryption of FAT BitLocker Volumes . . . . .	17
<i>P. Shabana Subair, C. Balan, S. Dija, and K.L. Thomas</i>	
Forensic Artifacts of the flareGet Download Manager . . . . .	30
<i>Prachi Goel and Babu M. Mehtre</i>	
Amazon Kindle Fire HD Forensics . . . . .	39
<i>Asif Iqbal, Hanan Alobaidli, Andrew Marrington, and Ibrahim Baggili</i>	
Resurrection: A Carver for Fragmented Files . . . . .	51
<i>Martin Lambertz, Rafael Uetz, and Elmar Gerhards-Padilla</i>	
Taxonomy of Data Fragment Classification Techniques . . . . .	67
<i>Rainer Poisel, Marlies Rybnicek, and Simon Tjoa</i>	
Identifying Forensically Uninteresting Files Using a Large Corpus . . . . .	86
<i>Neil C. Rowe</i>	
FaceHash: Face Detection and Robust Hashing. . . . .	102
<i>Martin Steinebach, Huajian Liu, and York Yannikos</i>	

## Information Warfare, Cyber Terrorism, and Critical Infrastructure Protection

Regulating Social Network Services for Lawful Interception. . . . .	119
<i>Esti Peshin</i>	
Determining When Conduct in Cyberspace Constitutes Cyber Warfare in Terms of the International Law and <i>Tallinn Manual on the International Law Applicable to Cyber Warfare: A Synopsis</i> . . . . .	130
<i>Murdoch Watney</i>	

## Digital Forensics - Standards, Certification and Accreditation

Measuring Accuracy of Automated Parsing and Categorization Tools and Processes in Digital Investigations. . . . .	147
<i>Joshua I. James, Alejandra Lopez-Fernandez, and Pavel Gladyshev</i>	

Towards a Process Model for Hash Functions in Digital Forensics . . . . . 170  
*Frank Breitingner, Huajian Liu, Christian Winter, Harald Baier,  
Alexey Rybalchenko, and Martin Steinebach*

**Automation in Digital Forensics**

An Automated Link Analysis Solution Applied to Digital  
Forensic Investigations. . . . . 189  
*Fergal Brennan, Martins Udris, and Pavel Gladyshev*

Computer Profiling for Preliminary Forensic Examination . . . . . 207  
*Andrew Marrington, Farkhund Iqbal, and Ibrahim Baggili*

**Digital Forensics and the Cloud**

Determining Training Needs for Cloud Infrastructure Investigations  
Using I-STRIDE. . . . . 223  
*Joshua I. James, Ahmed F. Shosha, and Pavel Gladyshev*

Cloud Forensic Readiness: Foundations . . . . . 237  
*Lucia De Marco, M-Tahar Kechadi, and Filomena Ferrucci*

**Poster Presentation**

Mozilla Firefox Browsing Artifacts in 3 Different Anti-forensics Modes . . . . 247  
*Deepak Gupta and Babu M. Mehtre*

**Author Index** . . . . . 253

Digital Forensics and Cyber Crime

Fifth International Conference, ICDF2C 2013, Moscow,

Russia, September 26-27, 2013, Revised Selected

Papers

Gladyshev, P.; Marrington, A.; Baggili, I. (Eds.)

2014, XVI, 253 p. 68 illus., Softcover

ISBN: 978-3-319-14288-3
