1	Intuitionistic Fuzzy Set Theories	1
1.1	Introduction	1
1.2	Intuitionistic Fuzzy Sets and Operations	2
1.2.1	Concepts of Intuitionistic Fuzzy Sets and Notations.	2
1.2.2	Operations Over Intuitionistic Fuzzy Sets	9
1.2.3	Concepts of Cut Sets for Intuitionistic Fuzzy Sets and Properties	12
1.3	Distances and Similarity Degrees Between Intuitionistic Fuzzy Sets.	14
1.3.1	Definition of Similarity Degrees Between Intuitionistic Fuzzy Sets	14
1.3.2	Definition of Distances Between Intuitionistic Fuzzy Sets.	19
1.4	Representation Theorems of Intuitionistic Fuzzy Sets	24
1.5	Extension Principles of Intuitionistic Fuzzy Sets and Algebraic Operations	28
1.5.1	Extension Principles of Intuitionistic Fuzzy Sets	28
1.5.2	Algebraic Operations over Intuitionistic Fuzzy Sets.	31
1.6	Definitions of Intuitionistic Fuzzy Numbers and Algebraic Operations	35
1.6.1	Trapezoidal Intuitionistic Fuzzy Numbers and Algebraic Operations	36
1.6.2	Triangular Intuitionistic Fuzzy Numbers and Algebraic Operations	40
	References	45
2	Intuitionistic Fuzzy Aggregation Operators and Multiattribute Decision-Making Methods with Intuitionistic Fuzzy Sets	47
2.1	Introduction	47
2.2	Intuitionistic Fuzzy Aggregation Operators and Properties. . . .	48
2.2.1	The Intuitionistic Fuzzy Weighted Averaging Operator	48

2.2.2	The Intuitionistic Fuzzy Hybrid Weighted Averaging Operator	50
2.2.3	The Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Operator	56
2.3	The Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Method of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	62
2.3.1	Formal Representation of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	62
2.3.2	Process of the Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	63
	References	73
3	Multiattribute Decision-Making Methods with Intuitionistic Fuzzy Sets	75
3.1	Introduction	75
3.2	The Linear Weighted Averaging Method of Multiattribute Decision-Making with Weights and Ratings Expressed by Intuitionistic Fuzzy Sets	76
3.2.1	Linear Weighted Averaging Models of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	77
3.2.2	Sensitivity Analysis of the Linear Weighted Averaging Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	78
3.2.3	Process of the Linear Weighted Averaging Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	81
3.3	TOPSIS for Multiattribute Decision-Making with Intuitionistic Fuzzy Positive and Negative Ideal-Solutions and Weights Known	87
3.3.1	Principle and Process of TOPSIS	87
3.3.2	TOPSIS Principle of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	89
3.4	The Optimum Seeking Method of Multiattribute Decision-Making with Intuitionistic Fuzzy Positive and Negative Ideal-Solutions and Weights Known	93
3.4.1	Optimum Seeking Principle of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	93

3.4.2	Process of the Optimum Seeking Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	95
3.5	The Linear Programming Method of Multiattribute Decision-Making with Weights and Attribute Ratings Expressed by Intuitionistic Fuzzy Sets	97
3.5.1	Allocation Methods of Hesitancy Degrees	97
3.5.2	Linear Programming Models and Method for Computing Comprehensive Evaluations with Intuitionistic Fuzzy Sets	99
3.5.3	The Relative Closeness Degree Method of Comprehensive Evaluations with Intuitionistic Fuzzy Sets and Real Example Analysis.	104
3.6	LINMAP for Multiattribute Decision-Making with an Intuitionistic Fuzzy Positive Ideal-Solution and Weights Unknown	109
3.6.1	Determination Methods of Membership and Nonmembership Degrees of Intuitionistic Fuzzy Sets	110
3.6.2	Consistency and Inconsistency Measure Methods	112
3.6.3	LINMAP Models of Multiattribute Decision-Making with Intuitionistic Fuzzy Sets	115
3.6.4	Process of LINMAP for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis	117
3.7	The Fraction Mathematical Programming Method of Intuitionistic Fuzzy Multiattribute Decision-Making with Intuitionistic Fuzzy Weights Unknown.	123
3.7.1	Fraction Mathematical Programming Models for Computing Relative Closeness Degrees with Intuitionistic Fuzzy Sets	124
3.7.2	Inclusion Comparison Probabilities of Relative Closeness Degrees with Intuitionistic Fuzzy Sets and Properties	127
3.7.3	The Determination Method of Optimal Membership Degrees for Inclusion Comparison Probabilities of Relative Closeness Degrees with Intuitionistic Fuzzy Sets	135
3.7.4	Process of the Fraction Mathematical Programming Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	139

3.8	The Linear Programming Method of Intuitionistic Fuzzy Multiattribute Decision-Making with Intuitionistic Fuzzy Weights Unknown.	144
3.8.1	Linear Programming Models of Computing Relative Closeness Degrees with Intuitionistic Fuzzy Sets.	144
3.8.2	Process of the Linear Programming Method for Multiattribute Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis.	146
	References	150
4	Multiattribute Decision-Making Methods with Interval-Valued Intuitionistic Fuzzy Sets	153
4.1	Introduction	153
4.2	Interval-Valued Intuitionistic Fuzzy Sets and Operations.	154
4.3	The Interval-Valued Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Method of Multiattribute Decision-Making with Interval-Valued Intuitionistic Fuzzy Sets	164
4.3.1	The Interval-Valued Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Operator.	164
4.3.2	Process of the Interval-Valued Intuitionistic Fuzzy Generalized Hybrid Weighted Averaging Method for Multiattribute Decision-Making with Interval-Valued Intuitionistic Fuzzy Sets and Real Example Analysis.	178
4.4	The Interval-Valued Intuitionistic Fuzzy Continuous Hybrid Weighted Averaging Operator and Multiattribute Decision-Making Method with Interval-Valued Intuitionistic Fuzzy Sets.	189
4.4.1	The Continuous Ordered Weighted Averaging Operator	189
4.4.2	The Interval-Valued Intuitionistic Fuzzy Continuous Hybrid Weighted Averaging Operator.	192
4.4.3	Process of the Interval-Valued Intuitionistic Fuzzy Continuous Hybrid Weighted Averaging Method for Multiattribute Decision-Making with Interval-Valued Intuitionistic Fuzzy Sets and Real Example Analysis.	199
4.5	TOPSIS-Based Mathematical Programming Methods of Interval-Valued Intuitionistic Fuzzy Multiattribute Decision-Making with Weights Unknown	203
4.5.1	Nonlinear Programming Models for Computing Relative Closeness Degrees with Intuitionistic Fuzzy Sets.	204

4.5.2	Variations of Mathematical Programming Models for Computing Relative Closeness Degrees with Intuitionistic Fuzzy Sets	211
4.5.3	Process of TOPSIS-Based Mathematical Programming Methods for Multiattribute Decision-Making with Interval-Valued Intuitionistic Fuzzy Sets and Real Example Analysis	216
	References	224
5	Multiattribute Decision-Making Methods with Intuitionistic Fuzzy Numbers	227
5.1	Introduction	227
5.2	The Weighted Value and Ambiguity-Based Ranking Method of Intuitionistic Fuzzy Numbers	227
5.2.1	Concepts of Values and Ambiguities for Intuitionistic Fuzzy Numbers	227
5.2.2	Values and Ambiguities of Triangular Intuitionistic Fuzzy Numbers	231
5.2.3	Values and Ambiguities of Trapezoidal Intuitionistic Fuzzy Numbers	233
5.2.4	Weighted Values and Ambiguities and Ranking Method of Intuitionistic Fuzzy Numbers	236
5.2.5	Properties of the Weighted Value and Ambiguity-Based Ranking Method of Intuitionistic Fuzzy Numbers	241
5.3	The Weighted Value and Ambiguity-Based Multiattribute Decision-Making Method with Intuitionistic Fuzzy Numbers	245
5.3.1	Formal Representation of Multiattribute Decision-Making with Intuitionistic Fuzzy Numbers	245
5.3.2	Process of the Weighted Value and Ambiguity-Based Multiattribute Decision-Making Method with Intuitionistic Fuzzy Numbers and Real Example Analysis	246
	References	252
6	Multiattribute Group Decision-Making Methods with Intuitionistic Fuzzy Sets	253
6.1	Introduction	253
6.2	TOPSIS for Multiattribute Group Decision-Making with Intuitionistic Fuzzy Positive and Negative Ideal-Solutions and Weights Known	254

6.2.1	Formal Representation of Multiattribute Group Decision-Making with Attribute Ratings and Weights Expressed by Intuitionistic Fuzzy Sets	254
6.2.2	TOPSIS Principle of Multiattribute Group Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis	255
6.3	LINMAP for Multiattribute Group Decision-Making with an Intuitionistic Fuzzy Positive Ideal-Solution and Weights Unknown	263
6.3.1	Multiattribute Group Decision-Making Problems with Intuitionistic Fuzzy Sets	263
6.3.2	Group Consistency and Inconsistency Measure Indices	266
6.3.3	LINMAP Models of Multiattribute Group Decision-Making with Intuitionistic Fuzzy Sets	269
6.3.4	Process of LINMAP for Multiattribute Group Decision-Making with Intuitionistic Fuzzy Sets and Real Example Analysis	273
6.3.5	Variations of LINMAP Models for Multiattribute Group Decision-Making with Intuitionistic Fuzzy Sets	286
	References	289
7	Matrix Games with Payoffs of Intuitionistic Fuzzy Sets and Linear and Nonlinear Programming Methods	291
7.1	Introduction	291
7.2	Formal Representation of Matrix Games with Intuitionistic Fuzzy Sets and Solutions' Concepts	292
7.3	Existence of Solutions of Matrix Games with Payoffs of Intuitionistic Fuzzy Sets and Auxiliary Mathematical Programming Models	298
7.4	Linear and Nonlinear Programming Methods of Matrix Games with Payoffs of Intuitionistic Fuzzy Sets and Real Example Analysis	314
7.4.1	Nonlinear Programming Models of Matrix Games with Payoffs of Intuitionistic Fuzzy Sets	314
7.4.2	Process of Linear and Nonlinear Programming Methods for Matrix Games with Payoffs of Intuitionistic Fuzzy Sets	316
	References	320
8	Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Linear and Nonlinear Programming Methods . . .	321
8.1	Introduction	321

8.2	Formal Representation of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Solutions' Concepts	322
8.3	Multiobjective Programming Models of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Properties of Solutions	331
8.3.1	Concepts of Interval-Valued Objective Optimization and Transformation Forms	331
8.3.2	Multiobjective Programming Models of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Transformation Forms	332
8.3.3	Relations Between Solutions of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Noninferior Solutions of Corresponding Multiobjective Programming	344
8.4	Linear and Nonlinear Programming Methods of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets and Real Example Analysis	353
8.4.1	Nonlinear Programming Models of Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets	353
8.4.2	Process of Linear and Nonlinear Programming Methods for Matrix Games with Payoffs of Interval-Valued Intuitionistic Fuzzy Sets	355
	References	359
9	Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers and Solution Methods	361
9.1	Introduction	361
9.2	Formal Representation of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers and Solutions' Concepts	362
9.3	The Cut-Set-Based Method of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	364
9.3.1	Cut-Set-Based Mathematical Programming Models of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	365
9.3.2	Process of the Cut-Set-Based Method for Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers and Real Example Analysis	374
9.4	The Weighted Mean-Area-Based Method of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	378

9.4.1	Weighted Mean-Areas of Trapezoidal Intuitionistic Fuzzy Numbers with Respect to Membership and Nonmembership Functions.	378
9.4.2	Weighted Mean-Area-Based Mathematical Programming Models of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	384
9.4.3	Process of the Weighted Mean-Area-Based Method for Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers and Real Example Analysis.	388
9.5	The Weighted Value and Ambiguity-Based Lexicographic Method of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	390
9.5.1	Weighted Value and Ambiguity-Based Multiobjective Programming Models of Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers	390
9.5.2	Process of the Weighted Value and Ambiguity-Based Lexicographic Method for Matrix Games with Payoffs of Trapezoidal Intuitionistic Fuzzy Numbers and Real Example Analysis	394
