Part I Complication Management Using a Phacoemulsification Machine

1 Basics	3
1.1 Difficulty of Cataract Surgery in Relation to Density of Nucleus . .	4
1.2 Difficulty of Cataract Surgery in Relation to Other Factors	4
1.3 Anatomy of Different IOL Implantation Sites	4
1.4 Small-Gauge Vitrectomy	12
1.5 SICS: The Modified ECCE	16
2 Equipment	19
2.1 Devices	19
2.2 Standard Instruments for Anterior Segment Procedures	22
3 Planning for Surgical Complications	33
3.1 Different Cases for Surgical Planning	40
3.2 Correct IOL Choice	42
4 General Surgical Techniques for Anterior Segment Surgery	47
4.1 Anaesthesia	47
4.2 Standard Instruments for Phacoemulsification	48
4.3 Phacoemulsification of an Easy Cataract	54
4.4 Phacoemulsification of a Difficult Cataract	78
4.4.1 Small Pupil: Implantation of Iris Retractors and Malyugin Ring	78
4.4.2 Problems During Capsulorhexis	88
4.4.3 Problems During Hydrodissection	94
4.4.4 Complications During Phacoemulsification	98
4.4.5 Problems During I/A: Implantation of Capsular Tension Ring	100
4.4.6 Problems During IOL Implantation	104
4.4.7 Problems During Final Steps	108

4.5	Traumatic Cataract	110
4.6	SICS	116
4.6.1	Standard Instruments for SICS	118
4.6.2	SICS Surgery	120
4.7	Summary	128
5	Special IOL Fixation Techniques	131
5.1	Iris-Claw IOL Implantation	132
5.1.1	Standard Instruments for Iris-Claw IOL Implantation	132
5.1.2	Iris-Claw IOL Implantation Surgery	132
5.2	Intrascleral IOL Implantation (Scharioth Technique)	138
5.2.1	Standard Instruments for Intrascleral IOL Implantation	142
5.2.2	Intrascleral IOL Implantation Surgery	142
5.3	Scleral IOL Fixation	150
5.4	Summary	152
6	Possible Surgeries After Insertion of a Trocar at Pars Plana	155
6.1	Introduction	155
6.2	Anterior Vitrectomy from Pars Plana	156
6.2.1	Basics of Anterior Vitrectomy	156
6.2.2	Special Instruments and Material for Anterior Vitrectomy	158
6.2.3	Anterior Vitrectomy from the Limbus	166
6.2.4	Anterior Vitrectomy from Pars Plana	166
6.3	Recovery of a Subluxated Nucleus from Pars Plana	174
6.4	Recovery of a Subluxated IOL from Pars Plana	174
6.5	Removal of Posterior Capsular Opacification from Pars Plana	174
6.6	Summary	174
7	Complication Management for Anterior Segment Cases	185
7.1	Posterior Capsule Rupture	185
7.1.1	IOL Scaffolding for Residual Lens Pieces in Capsular Rupture (Agarwal Technique)	196
7.2	Zonular Lysis	198
7.2.1	Surgery I: Phaco and Capsular Tension Ring	202
7.2.2	Surgery I Continued: Lens Capsule Extraction and Implantation of Scleral- or Iris-Fixated IOL	204
7.2.3	Surgery II: ICCE and Implantation of an Iris-Claw IOL	208
7.3	Management of an Anteriorly Dislocated Intraocular Lens	216
7.3.1	Management of a Decentred Intraocular Lens	216

7.4	Management of an Anteriorly Dislocated Bag-IOL Complex.	232
7.4.1	Removal of Bag-IOL Complex and Secondary Iris-Claw IOL Implantation	232
7.4.2	Scleral Fixation of Dislocated Bag-IOL Complex (Hoffmann Technique).	240
7.5	Summary	246

Part II Complication Management Using a Vitrectomy Machine

8	General Surgical Techniques for Posterior Segment Surgery	249
8.1	Standard Instruments for Pars Plana Vitrectomy	250
8.2	Binocular Indirect Ophthalmic Microscope (BIOM).	260
8.3	Anaesthesia	260
8.4	Pars Plana Vitrectomy	264
9	Complication Management for Posterior Segment Cases	279
9.1	Management of a Posteriorly Dislocated Nucleus (Dropped Nucleus)	280
9.1.1	Extraction of a Posteriorly Dislocated Nucleus with Fragmatome	280
9.1.2	Extraction of a Posteriorly Dislocated Nucleus with PFCL	290
9.2	Management of a Posteriorly Dislocated Bag-IOL Complex	294
9.2.1	IOL Extraction and Implantation of an Iris-Fixated IOL	294
9.2.2	Scleral and Intrasceral Fixation of the Dislocated IOL	300
9.3	Summary	302
10	Surgical Pearls	305
10.1	Intraocular Lens Exchange	306
10.2	Extraction of an Acrylic IOL Through IOL Refolding.	312
10.3	Extraction of a Silicone IOL Through Bisecting of IOL	316
10.4	Iris Capture by the IOL Optic	322
10.5	Iridoplasty	326
10.6	Implantation of an Iris Prosthesis	328
10.6.1	Implantation of a Foldable Iris Prosthesis	330
10.6.2	In-the-Bag Implantation of an Iris and IOL Prosthesis	332
10.6.3	Scleral Fixation of an Iris and IOL Prosthesis	332
11	Materials and Companies	337
12	Compilation of All Pits and Pearls	343
	Index	345

Complications During and After Cataract Surgery

A Guide to Surgical Management

Spandau, U.; Scharioth, G.B.

2014, XI, 346 p. 519 illus., 467 illus. in color. With online files/update., Hardcover
