

Contents

1	Likelihood-Based Inference and Finite-Sample Corrections:	
	A Brief Overview	1
1.1	Introduction	1
1.2	Likelihood Inference	2
1.3	Some Properties of Maximum Likelihood Estimators	3
1.4	A Simple Example	4
1.5	Likelihood-Based Testing Inference	5
1.6	Some Remarks on Bartlett and Bartlett-Type Corrections	6
1.7	Some Remarks on Bias Corrections	8
1.8	Some Remarks on the Bootstrap	9
	References	10
2	Bartlett Corrections and Bootstrap Testing Inference	13
2.1	Introduction	13
2.2	Bartlett Identities	15
2.3	Lawley's Expansion	17
2.4	Bartlett-Corrected Likelihood Ratio Tests	20
2.5	Generalized Linear Models	24
	2.5.1 Bartlett Correction	25
	2.5.2 Special Models	27
	2.5.3 Computer Codes for Calculating Bartlett Corrections	29
2.6	Birnbaum–Saunders Non-linear Regression Models	32
2.7	Bootstrap-Based Hypothesis Testing	36
	References	42
3	Bartlett-Type Corrections	45
3.1	Introduction	45
3.2	Bartlett-Type Correction to the Score Statistic	46
3.3	An Extended Result	48
3.4	Bartlett-Type Correction to the Wald Statistic	51
3.5	One-Parameter Model	52
3.6	The p^* Approximation	56

3.7	Generalized Linear Models	58
3.8	Simulation Results	60
3.9	Heteroskedastic Regression	64
	References	66
4	Analytical and Bootstrap Bias Corrections	69
4.1	Introduction.	69
4.2	A General Formula	70
4.3	One-Parameter Distributions	72
4.4	Two-Parameter Distributions	74
4.5	Generalized Linear Models	76
4.6	The Birnbaum–Saunders Model	78
4.7	Special Models	82
4.8	Monte Carlo Simulation Evidence	83
4.9	An Application	85
4.10	Linear Heteroskedastic Regression	86
4.11	Beta Regressions	89
4.12	An Alternative Analytical Bias Correction	93
4.13	Bootstrap Bias Corrections	94
	References	98
	Appendix A: Supplementary Material	101
	Glossary	107

An Introduction to Bartlett Correction and Bias
Reduction

Cordeiro, G.M.; Cribari-Neto, F.

2014, XI, 107 p., Softcover

ISBN: 978-3-642-55254-0
