

# Outline

<b>Preface</b>	<b>VII</b>
<b>Outline</b>	<b>IX</b>
<b>List of Figures</b>	<b>XII</b>
<b>List of Tables</b>	<b>XII</b>
<b>List of abbreviations</b>	<b>XIV</b>
<b>1 Introduction</b>	<b>1</b>
1.1 Motivation	1
1.2 Problem definition and research objectives	3
1.3 Methodological approach and structure of this thesis	5
<b>2 Theoretical background</b>	<b>8</b>
2.1 Theoretical framework: New Institutional Economics	8
2.2 Environments of institutional voids	10
2.2.1 Defining the central concepts of competitive advantage, transaction costs and the institutional environment	10
2.2.2 Defining institutional voids	15
2.2.3 Discussing potential institutional voids in transition economies	23
2.3 Bridging institutional voids - Review of research streams	32
2.3.1 Multinational enterprises in environments of institutional voids	32
2.3.2 Small and medium enterprises in environments of institutional voids	37
2.3.3 Business groups in environments of institutional voids	39
2.4 Bridging institutional voids - Clusters as instruments	42
2.4.1 The cluster concept	42
2.4.2 The potential of cluster services to bridge institutional voids	46
2.5 Summarizing the theoretical considerations into research questions	48
<b>3. A multi case study on clusters</b>	<b>51</b>
3.1 Introduction - A qualitative research design	51
3.1.1 Capturing qualitative research	51

3.1.2 The case study method	54
3.1.3 Methodology	61
3.1.4 A discussion on rigor criteria	68
3.1.5 Case study layout	71
3.2 Case studies on clusters in environments of institutional voids	75
3.2.1 Introduction to the case studies: Southeast Europe and its development	75
3.2.2 The Albanian ICT cluster	79
3.2.3 The Serbian ICT cluster	94
3.2.4 The Macedonian ICT cluster	108
3.2.5 The Croatian ICT cluster	121
3.2.6 The Bulgarian ICT cluster	134
3.2.7 Additional observations	146
<b>4. A comparative case study</b>	<b>151</b>
4.1 Introduction to the comparative case study method	151
4.2 Comparative analysis of institutional voids	153
4.2.1 The necessity to categorize the intensity of institutional voids	153
4.2.2 Intensity of institutional voids	155
4.2.3 Summarizing the intensity of institutional voids	171
4.3 Comparative analysis of cluster services	173
4.3.1 Overview of cluster services	173
4.3.2 Cluster services to bridge institutional voids	175
4.3.3 Proposed cluster services and their effectiveness to bridge institutional voids	188
<b>5. Contribution, implications and limitations</b>	<b>191</b>
5.1 Contributions to the development of a theory of institutional voids	191
5.1.1 A systematization of institutional voids and clusters as surrogate intermediaries	191
5.1.2 Summarizing an advanced systematization of institutional voids	202
5.2 Implications and limitations	203
5.2.1 Implications for further research	204

Outline	XI
5.2.2 Implications for practitioners	209
5.2.3 Limitations	211
5.3 Summary of the findings	213
5.3.1 Summary	213
5.3.2 Findings	214
<b>Appendix A: Additional tables and figures to the case studies</b>	<b>217</b>
Albanian ICT cluster	217
Serbian ICT cluster	219
Macedonian ICT cluster	221
Croatian ICT cluster	223
Bulgarian ICT cluster	225
<b>Appendix B: Interview guideline</b>	<b>227</b>
<b>List of References</b>	<b>231</b>

Clusters as an instrument to bridge institutional voids  
in transition economies

Lessons learned from Southeast Europe
