

Contents

1	Pavement Life Cycle Assessment	1
	Yue Huang and Tony Parry	
2	Application of LCA Results to Network-Level Highway Pavement Management	41
	John Harvey, Ting Wang and Jeremy Lea	
3	The Product Process Service Life Cycle Assessment Framework to Estimate GHG Emissions for Highways.	75
	Amlan Mukherjee and Darrell Cass	
4	Anticipating and Responding to Pavement Performance as Climate Changes	127
	Andrew Dawson	
5	Climate Change Scenarios and Their Potential Effects on Transportation Infrastructure Systems	159
	Wynand JvdM Steyn	
6	Effect of Pavement Surface Conditions on Sustainable Transport.	173
	Karim Chatti and Imen Zaabar	
7	Permeable Pavements and Storm Water Management	247
	Miklas Scholz	
8	Pervious Concrete.	261
	John T. Kevern	

9	Photocatalytic Pavements	275
	Joel K. Sikkema, James E. Alleman, Tom Cackler, Peter C. Taylor, Ben Bai, Say-Kee Ong and Kasthurirangan Gopalakrishnan	
10	Warm Mix Asphalt.	309
	Martins Zaumanis	
11	Sustainability Issues Surrounding Unpaved Roads	335
	Phil Paige-Green	
12	Sustainable Airport Pavements	353
	Dominique M. Pittenger	
13	Sustainable Pavement Management	373
	Gerardo Flintsch and James Bryce	
14	Sustainable Pavement Preservation and Maintenance Practices	393
	Douglas D. Gransberg, Susan L. Tighe, Dominique Pittenger and Maria Catalina Miller	
15	Reclaimed Waste Materials in Sustainable Pavement Construction.	419
	Animesh Das and Aravind Krishna Swamy	
16	Cool Pavements	439
	K. Wayne Lee and Steven Kohm	
17	Powering Traffic Intersections with Wind and Solar Energy	455
	Mo Zhao and Anuj Sharma	
18	Energy Harvesting from Pavements.	481
	Andrew Dawson, Rajib Mallick, Alvaro García Hernandez and Pejman Keikhaei Dehdezi	

Climate Change, Energy, Sustainability and Pavements
Gopalakrishnan, K.; Steyn, W.J.; Harvey, J. (Eds.)
2014, VIII, 517 p. 147 illus., 7 illus. in color., Hardcover
ISBN: 978-3-662-44718-5
