

Preface

This volume is the fifth so-called regular volume of the TLDKS journal. It contains, 4 fully revised selected regular papers from 12 submitted papers in response to the call for papers for this regular volume.

The content of this volume covers a wide range of different and hot topics in the field of data and knowledge management systems, mainly: data stream systems, top-k query processing, semantic web service (SWS) discovery, and XML functional dependencies.

We would like to express thanks to the editorial board for thoroughly refereeing the submitted papers and ensuring the high quality of this volume.

Special thanks go to Gabriela Wagner for her availability and her valuable work in the realization of this TLDKS volume.
