Part I General Introductions

1	Introduction	3
1.1	The Goal	3
1.2	Challenges in MNT Product Engineering	5
1.2.1	Distributed Engineering and Prevalent Business Models	6
1.2.2	Contemporary Customer Involvement	8
1.2.3	Technical Collaboration Challenges	9
	References	11
2	Introduction to Product Engineering	13
2.1	What is Product Engineering?	13
2.2	Product Engineering Essentials	15
2.2.1	Drivers for Innovation	15
2.2.2	Success Factors for New Product Developments	15
2.2.3	Success Factors for a New Product Process	16
2.3	Methods and Tools	18
2.3.1	Baseline Product Development Methods	18
2.3.2	Baseline Project Management Methods	23
2.3.3	T ² M	29
2.3.4	Responsibility Assignment Matrix	36
	References	37
3	Micro- and Nano Systems: A World of Its Own	39
3.1	MEMS Products	39
3.2	MEMS Process Technology	41
3.2.1	Layer Deposition	42
3.2.2	Pattern Transfer/Lithography	44
3.2.3	Layer Modification	46
3.3	Business Models in the MEMS Industry	48
	References	50

Part II MEMS Product Engineering Aspects and Methods

4 MEMS Product Engineering	53
4.1 Getting Started	53
4.2 Device Design	54
4.2.1 Systems Design	58
4.2.2 Electronics Design	59
4.2.3 Sensor Design	61
4.3 Technology Design	64
4.3.1 Process Development Methodology	65
4.3.2 Technology Design Methods and Software Support	68
4.3.3 XperiDesk: A Process Development Execution System	71
4.4 Quality Considerations	74
4.4.1 Design for Six Sigma	75
4.5 Customer-Oriented Product Engineering	79
4.5.1 The Customer in the MEMS Industry	79
4.5.2 Customer Involvement	80
References	82
5 Methodology	85
5.1 Overview	85
5.2 Method Composition	89
5.3 Discovery Phase	91
5.3.1 Idea Capturing Stage	91
5.3.2 Idea Screen Gate	96
5.3.3 Preliminary Investigation Stage	97
5.3.4 Detailed Screen Gate	100
5.4 Startup Phase	102
5.4.1 Project Initialization Stage	103
5.4.2 Project Gate	105
5.4.3 Feasibility Study Stage	106
5.4.4 Prototype-Development Decision Gate	110
5.5 Development Phase	112
5.5.1 Prototype Development Stage	112
5.5.2 Development Decision Gate	115
5.5.3 Product Development Stage	117
5.5.4 Commercialization Decision Gate	121
5.6 Launch Phase	122
5.6.1 Pre-production / Field Trials Stage	123
5.6.2 Launch Decision Gate	124
5.6.3 Production / Ramp Up Stage	125
5.6.4 Post Launch Review Gate	127
References	128

6 MEMS PE Infrastructure Components	131
6.1 Required Infrastructure Features	132
6.2 Configuration Management.....	133
6.2.1 Definitions	133
6.2.2 Electronic Product Engineering Flow.....	134
6.2.3 Distributed Project Binder.....	135
6.3 Change Management.....	135
6.3.1 Features Provided/Addressed	135
6.3.2 Definitions	135
6.3.3 Components for Change Management.....	136
6.4 Requirements Engineering.....	137
6.4.1 Features Provided/Addressed	137
6.4.2 Definitions	137
6.5 Project & Product Management Templates	138
6.5.1 Project Mandate.....	138
6.5.2 End Stage Report	138
6.5.3 Requirement Specification	139
6.5.4 Product Brief.....	140
6.5.5 Product Definition	140
6.5.6 Change Request.....	141
References	142

Part III Practical Method Application

7 Application of the Methodology: A Sample Scenario	145
7.1 Discovery Phase.....	145
7.1.1 Idea Capturing Stage	146
7.1.2 Idea Screen Gate	147
7.1.3 Preliminary Investigation Stage	147
7.1.4 Detailed Screen Gate	148
7.2 Startup Phase	149
7.2.1 Project Initialization Stage	150
7.2.2 Project Gate	150
7.2.3 Feasibility Study Stage	150
7.2.4 Prototype-Development Decision Gate	152
7.3 Development Phase	152
7.3.1 Prototype Development and Product Development Stage	153
7.4 Launch Phase.....	170
References	170
8 Details for Managing a Project	173
8.1 The Management of the Project Preparations.....	173
8.1.1 Process Group Planning	174
8.2 The Management of the R&D Stages	176
8.2.1 Process Group Inside a R&D Stage Loop	177
8.2.2 Process Group Finalizing a Stage	183

8.2.3	Process Group Gate Assessment	183
8.2.4	Process Group Exception Treatment	183
8.3	Management of Finishing the Project	185
8.4	Project & Product Management Techniques	186
8.4.1	Planning	186
	References	188

Index		193

MEMS Product Engineering

Handling the Diversity of an Emerging Technology. Best
Practices for Cooperative Development

Ortloff, D.; Schmidt, T.; Hahn, K.; Bieniek, T.; Janczyk, G.;
Brück, R.

2014, XXVI, 195 p. 63 illus. in color., Hardcover

ISBN: 978-3-7091-0705-8
