

Contents

1	Introductory Remarks	1
	Friedemann Kiefer and Stefan Schulte-Merker	
2	Transcriptional Control of Lymphatic Endothelial Cell Type Specification	5
	Ying Yang and Guillermo Oliver	
3	Mechanosensing in Developing Lymphatic Vessels	23
	Lara Planas-Paz and Eckhard Lammert	
4	Plasticity of Airway Lymphatics in Development and Disease	41
	Li-Chin Yao and Donald M. McDonald	
5	Regulation of Lymphatic Vasculature by Extracellular Matrix . . .	55
	Sophie Lutter and Taija Makinen	
6	Interplay of Mechanotransduction, FOXC2, Connexins, and Calcineurin Signaling in Lymphatic Valve Formation	67
	Amélie Sabine and Tatiana V. Petrova	
7	Development of Secondary Lymphoid Organs in Relation to Lymphatic Vasculature	81
	Serge A. van de Pavert and Reina E. Mebius	
8	Platelets in Lymph Vessel Development and Integrity	93
	Steve P. Watson, Kate Lowe, and Brenda A. Finney	
9	Interactions of Immune Cells and Lymphatic Vessels	107
	Raghu P. Kataru, Yulia G. Lee, and Gou Young Koh	
10	Lymphatic Vessels in the Development of Tissue and Organ Rejection	119
	Deniz Hos and Claus Cursiefen	

11	The Role of Neuropilin-1/Semaphorin 3A Signaling in Lymphatic Vessel Development and Maturation	143
	Alexandra M. Ochsenbein, Sinem Karaman, Giorgia Jurisic, and Michael Detmar	
12	A Fisheye View on Lymphangiogenesis	153
	Andreas van Impel and Stefan Schulte-Merker	
13	Visualization of Lymphatic Vessel Development, Growth, and Function	167
	Cathrin Pollmann, René Hägerling, and Friedemann Kiefer	
14	Clinical Disorders of Primary Malfunctioning of the Lymphatic System	187
	Carlo Bellini and Raoul CM Hennekam	

Developmental Aspects of the Lymphatic Vascular
System

Kiefer, F.; Schulte-Merker, S. (Eds.)

2014, XII, 204 p. 27 illus. in color.,

ISBN: 978-3-7091-1646-3
