## Part I Ras Superfamily, General Topics

<b>1</b>	<b>Evolution of the Ras Superfamily of GTPases . . . . .</b>	<b>3</b>
	Ana M. Rojas and Alfonso Valencia	
<b>2</b>	<b>The Structure of the G Domain of the Ras Superfamily . . . . .</b>	<b>25</b>
	Ingrid R. Vetter	
<b>3</b>	<b>GEFs and GAPs: Mechanisms and Structures . . . . .</b>	<b>51</b>
	Jacqueline Cherfils	
<b>4</b>	<b>Bacterial Protein Toxins Acting on Small GTPases . . . . .</b>	<b>65</b>
	Klaus Aktories and Gudula Schmidt	
<b>5</b>	<b>Posttranslational Modifications of Small G Proteins . . . . .</b>	<b>99</b>
	Bingying Zhou and Adrienne D. Cox	

## Part II Ras Subfamily

<b>6</b>	<b>Targeting the Raf-MEK-ERK Mitogen-Activated Protein Kinase Cascade for the Treatment of RAS Mutant Cancers . . . . .</b>	<b>135</b>
	Tikvah K. Hayes and Channing J. Der	
<b>7</b>	<b>RAS Genes and Cancer . . . . .</b>	<b>157</b>
	Tikvah K. Hayes, Jeran K. Stratford, Andrea Wang-Gillam, and Channing J. Der	
<b>8</b>	<b>The Spatial Organization of Ras Signaling . . . . .</b>	<b>173</b>
	Björn Papke, Malte Schmick, Nachiket Vartak, and Philippe I.H. Bastiaens	
<b>9</b>	<b>Ras Nanoclusters . . . . .</b>	<b>189</b>
	Yong Zhou and John F. Hancock	

<b>10</b>	<b>Mouse Models of RAS-Induced Tumors and Developmental Disorders . . . . .</b>	<b>211</b>
	Carmen Guerra and Mariano Barbacid	
<b>11</b>	<b>Rap Signaling . . . . .</b>	<b>233</b>
	Willem-Jan Pannekoek and Johannes L. Bos	
<b>12</b>	<b>The Coordinated Biology and Signaling Partners of Ral G-Proteins . . . . .</b>	<b>257</b>
	Brian O. Bodemann and Michael A. White	
<b>13</b>	<b>Structure and Function of the mTOR Activator Rheb . . . . .</b>	<b>281</b>
	Christopher B. Marshall, Mohammad T. Mazhab-Jafari, Vuk Stambolic, and Mitsuhiro Ikura	
 <b>Part III Rho Subfamily</b>		
<b>14</b>	<b>Classical Rho Proteins: Biochemistry of Molecular Switch Function and Regulation . . . . .</b>	<b>327</b>
	Si-Cai Zhang, Kazem Nouri, Ehsan Amin, Mohamed S. Taha, Hossein Nakhaeizadeh, Saeideh Nakhaei-Rad, Radovan Dvorsky, and Mohammad Reza Ahmadian	
<b>15</b>	<b>Atypical Rho Family Members . . . . .</b>	<b>341</b>
	Barbara Borda-d'Agua, Elvira Infante, Philippe Riou, Virginia Tajadura, and Anne J. Ridley	
<b>16</b>	<b>Molecular Structures, Cellular Functions, and Physiological Roles of Rho Effectors . . . . .</b>	<b>363</b>
	Toshimasa Ishizaki and Shuh Narumiya	
<b>17</b>	<b>Principles Driving the Spatial Organization of Rho GTPase Signaling at Synapses . . . . .</b>	<b>395</b>
	Scott H. Soderling and Linda Van Aelst	
<b>18</b>	<b>Rho GTPases in Cancer . . . . .</b>	<b>421</b>
	Jon W. Erickson, Marc A. Antonyak, Reina Fuji, and Richard A. Cerione	
	<b>Index . . . . .</b>	<b>439</b>

**Ras Superfamily Small G Proteins: Biology and  
Mechanisms 1**

General Features, Signaling

Wittinghofer, A. (Ed.)

2014, XIV, 445 p. 85 illus., 83 illus. in color., Hardcover

ISBN: 978-3-7091-1805-4
