

Contents

Part I Genetic and Genomic Systems

| | | |
|----------|--|------------|
| 1 | <i>Rhodococcus</i> Multiple-Enzyme and Parallel-Degradation System for Aromatic Compounds | 3 |
| | Masao Fukuda | |
| 2 | Appearance and Evolution of γ-Hexachlorocyclohexane-Degrading Bacteria | 19 |
| | Yuji Nagata, Michiro Tabata, Satoshi Ohhata, and Masataka Tsuda | |
| 3 | Diversity of 2,4-Dichlorophenoxyacetic Acid (2,4-D)-Degradative Genes and Degrading Bacteria | 43 |
| | Wataru Kitagawa and Yoichi Kamagata | |
| 4 | Genetic System of Organohalide-Respiring Bacteria | 59 |
| | Taiki Futagami, Masatoshi Goto, and Kensuke Furukawa | |
| 5 | Mobile Catabolic Genetic Elements in Pseudomonads | 83 |
| | Masataka Tsuda, Yoshiyuki Ohtsubo, and Hirokazu Yano | |
| 6 | Adaptation to Xenobiotics and Toxic Compounds by <i>Cupriavidus</i> and <i>Ralstonia</i> with Special Reference to <i>Cupriavidus metallidurans</i> CH34 and Mobile Genetic Elements..... | 105 |
| | Max Mergeay and Rob Van Houdt | |
| 7 | Conjugative Elements: Host Chromosome Function Modifiers..... | 129 |
| | Masaki Shintani, Yurika Takahashi, and Hideaki Nojiri | |

Part II Enzyme Systems

| | |
|---|------------|
| 8 Online Monitoring of Biodegradation Processes Using Enzymatic Biosensors | 155 |
| Sarka Bidmanova, Eva Hrdlickova, Tana Koudelakova, Jiri Damborsky, and Zbynek Prokop | |
| 9 Structure and Function of Aromatic-Ring Hydroxylating Dioxygenase System | 181 |
| Kengo Inoue and Hideaki Nojiri | |
| 10 The Protocatechuate 4,5-Cleavage Pathway: Overview and New Findings | 207 |
| Naofumi Kamimura and Eiji Masai | |
| 11 Toluene Tolerance Systems in <i>Pseudomonas</i> | 227 |
| Ana Segura and Juan Luis Ramos | |
| 12 Diversity and Evolution of Aromatic Degradation Pathway Enzymes in an Activated Sludge..... | 249 |
| Kentaro Miyazaki | |

Part III Bacterial Behavior in Natural Environmental Systems

| | |
|---|------------|
| 13 Syntrophic Interactions in Biodegradative Consortia | 267 |
| Kazuya Watanabe and Atsushi Kouzuma | |
| 14 Strategies to Reveal Genomic Function in Natural Soil Systems | 279 |
| Yoshiyuki Ohtsubo, Eri Nishiyama, Yoko Ishibashi, Yuji Nagata, and Masataka Tsuda | |
| 15 Monitoring Microbial Community Dynamics to Evaluate Bioremediation..... | 293 |
| Brett R. Baldwin, Dora Ogles, and Cindy H. Nakatsu | |
| 16 Selective Stimulation of Aromatic Compound Degradation by the Indigenous Marine Bacterium <i>Cycloclasticus</i> for Bioremediation of Oil Spills in the Marine Environment..... | 313 |
| Noriyuki Iwabuchi | |
| 17 Biofilm as a Multicellular Bacterial System | 335 |
| Masanori Toyofuku and Nobuhiko Nomura | |
| Index..... | 353 |

Biodegradative Bacteria

How Bacteria Degrade, Survive, Adapt, and Evolve

Nojiri, H.; Tsuda, M.; Fukuda, M.; Kamagata, Y. (Eds.)

2014, VIII, 358 p. 79 illus., 22 illus. in color., Hardcover

ISBN: 978-4-431-54519-4
