

Contents

Part I Behavioral Decision Theory and the Idea of It

- 1 Decision-Making Phenomenon and Behavioral Decision Theory 3
 - 1 What Is Decision-Making? 3
 - 2 Structure of Preference Relations and Decision-Making Problems 5
 - 3 Decision-Making and Uncertainty 6
 - 3.1 Decision-Making Under Certainty 7
 - 3.2 Decision-Making Under Risk 7
 - 3.3 Decision-Making Under Uncertainty 8
 - 4 Approaches to Decision-Making Research and Behavioral Decision Theory 10
 - References 12

Part II Preference Reversal Phenomenon and Description of the Phenomenon

- 2 Ordinal Utility and Preference Reversal Phenomenon 17
 - 1 What Is Utility? 17
 - 2 Does a Weak Order Empirically Hold? 19
 - 3 Preference Reversal Phenomenon 22
 - References 24
- 3 Causes of Preference Reversal Phenomenon 27
 - 1 Summary of the Preference Reversal Phenomenon 28
 - 2 Explanation Based on Regret Theory That Assumes Non-transitivity 29
 - 3 Explanation Based on a “Deviation from Procedural Invariance” That Does Not Assume Non-transitivity 32
 - References 34

4 Psychology of Preference Reversals and Prominence	
Hypothesis	37
1 Prominence Hypothesis and Preference Reversal Phenomenon	37
2 Contingent Weighting Model	39
3 Verification Experiments for Contingent Weighting Model	42
4 Interpretation of Interpret Procedural Invariance: The Scale Compatibility Principle	44
References	45

Part III Expected Utility Theory and Its Counterexamples

5 Expected Utility Theory and Psychology	49
1 The St. Petersburg Paradox and Expected Utility	49
1.1 St. Petersburg Paradox	50
1.2 Solution to the Paradox	50
2 Relevance Between Fechner's Psychophysics and Logarithmic Utility Function	52
3 Possible Psychophysical Laws and Utility Function	54
4 Study of the Measurement of Utility Based on the Expected Utility Theory	57
References	61
6 Axioms and Counterexamples Expected Utility Theory	63
1 Decision-Making Under Risk and Premises of Expected Utility Theory	63
1.1 Review of the Structure of Decision-Making Under Risk	63
1.2 Redefinition of Gambling	65
2 Axiomatic System of Expected Utility Theory	66
2.1 Linear Utility Model	67
2.2 Theorem of Expected Utility of von Neumann and Morgenstern	69
3 Counterexamples of Expected Utility Theory	69
3.1 The Allais Paradox	71
3.2 The Ellsberg Paradox	71
References	72

Part IV Decision Making and Prospect Theory

7 Preference Paradox and Nonlinear Expected Utility Theory	77
1 Relations Between Independence Axiom and Paradoxes	77
1.1 Independence Axiom Under Risk	78
1.2 Independence Axiom Under Uncertainty	80

2	Non-additive Probability and Nonlinear Utility Theory	81
3	Basic Assumptions of Prospect Theory	84
3.1	Editing Phase	84
3.2	Evaluation Phase	85
	References	87
8	Prospect Theory and Decision-Making Phenomena	89
1	Empirical Research on the Value Function and Reflection Effect	89
2	Empirical Research on the Value Function and Loss Aversion	91
3	Empirical Research on Probability Weighting Function	92
4	Cumulative Prospect Theory	94
5	Experiments on Cumulative Prospect Theory	99
	References	100

Part V The Framing Effect and Its Descriptions

9	The Framing Effect of Decision Making	103
1	What Type of Phenomenon Is the Framing Effect?	103
2	Why Can Utility Theory Not Explain the Framing Effect?	104
3	Framing in Social Life	106
4	Framing and Mental Accounting	107
4.1	Losing a Ticket and Mental Accounting	108
4.2	Purchasing a Calculator and Mental Accounting	108
4.3	Hedonic Framing	109
5	Robustness of the Framing Effect	110
	References	113
10	Theories Used to Explain the Framing Effect	115
1	Using Prospect Theory to Explain the Framing Effect	115
2	Problems of Prospect Theory	117
3	Basic Assumptions of the Contingent Focus Model as an Alternative Explanation	118
4	Mathematical Expressions of Contingent Focus Model	119
5	Verification Experiment of the Contingent Focus Model	121
	References	123

Part VI Decision-Making Process and Its Theory

11 Decision-Making Process	127
1 Multi-Attribute Decision-Making and Information Search	127
2 Various Decision Strategies	129
3 Categories of Decision Strategies	130
4 How to Identify Decision Strategies	131
5 Task Dependence of Decision Strategies	133
6 Emotions and Decision Strategies	135
7 Justification of Decisions and Process After Decision Making	137
References	139
12 Behavioral Decision Theories that Explain Decision-Making Processes	143
1 Dominance Structure Search Model	143
2 Adaptive Decision-Maker Model	146
3 Metacognitive Mechanism Model	151
4 Behavioral Decision Theory and Neuroeconomics	153
5 Future of Behavioral Decision Theory	158
6 Future Philosophical Issues Related to Behavioral Decision Theory	160
References	161

Part VII Behavioral Decision Theory and Good Decision Making

13 Behavioral Decision Theory and Good Decision Making	167
1 Multi-Attribute Decision Making and Best Decision	167
1.1 Best Decision	167
1.2 Multi-Attribute Decision-Making	168
1.3 Difficulty of Multi-Attribute Decision-Making and Its Psychological Cause	169
2 Weak Order in Multi-Attribute Decision-Making and Additive Conjoint Structure	171
2.1 Making the Best Decision with a Single Attribute	171
2.2 Multi-Attribute Decision-Making and Additive Conjoint Structure	172
3 Theoretical Examination When Multi-Attribute Decision-Making Does Not Dissatisfy a Weak Order	174
3.1 Preference Based on the Dominance Principle	175
3.2 Preference Based on the Principle of the Maximum Number of Dominant Attributes	175

4	Theorem of Impossibility of Multi-Attribute Decision-Making	176
4.1	Conclusion of General Possibility Theorem of Multi-Attribute Decision-Making	177
5	Descriptive Analysis of Multi-Attribute Decision-Making and the Psychology and Inclination for One Dimension in Decision-Making	178
5.1	Scale of Decision Strategy and Multi-Attribute Decision-Making	178
5.2	Mental Ruler Model in Multi-Attribute Decision Making	183
6	Focusing Attention on the Causes of One-Dimensional Decision-Making and “Good Decision-Making”	192
7	Towards Good Decision Making	197
	References	200
	Author Index	203
	Subject Index	205

Behavioral Decision Theory

Psychological and Mathematical Descriptions of Human
Choice Behavior

Takemura, K.

2014, XV, 207 p. 44 illus., 11 illus. in color., Hardcover

ISBN: 978-4-431-54579-8
