

Contents

1	Introduction.....	1
	Kazunori Sango and Junji Yamauchi	
2	Recent Insights into Molecular Mechanisms That Control Growth Factor Receptor-Mediated Schwann Cell Morphological Changes During Development.....	5
	Yuki Miyamoto and Junji Yamauchi	
3	Membrane Skeleton in Schmidt–Lanterman Incisure in Schwann Cells of the Peripheral Nervous System	29
	Nobuo Terada, Yurika Saitoh, Nobuhiko Ohno, and Shinichi Ohno	
4	Schwann Cell–Axon Interactions: The Molecular and Metabolic Link Between Schwann Cells and Axons	47
	Nobuhiko Ohno, Takashi Sakoh, Yurika Saitoh, Nobuo Terada, and Shinichi Ohno	
5	Schwann Cell-Dependent Regulation of Peripheral Nerve Injury and Repair	69
	Keiichiro Susuki	
6	Charcot-Marie-Tooth Disease	81
	Toru Ogata	
7	Expression of the Transthyretin Gene in Schwann Cells and Familial Amyloidotic Polyneuropathy-Mediated Neurodegeneration.....	103
	Tatsufumi Murakami and Yoshihide Sunada	
8	Node of Ranvier Disruption: A Key Pathophysiology in Immune-Mediated Neuropathies	121
	Keiichiro Susuki	

9 Pathogenesis of Diabetic Neuropathy from the Point of View of Schwann Cell Abnormalities.....	135
Koichi Kato, Eva L. Feldman, and Jiro Nakamura	
10 Spontaneously Immortalized Adult Rodent Schwann Cells as Valuable Tools for the Study of Peripheral Nerve Degeneration and Regeneration	147
Kazunori Sango, Masami Tsukamoto, Kazunori Utsunomiya, and Kazuhiko Watabe	
Index.....	171

Schwann Cell Development and Pathology

Sango, K.; Yamauchi, J. (Eds.)

2014, X, 174 p. 39 illus., 22 illus. in color., Hardcover

ISBN: 978-4-431-54763-1
