Part I Targets of Regenerative Medicine for the Inner Ear

1	Anatomy of the Inner Ear	3
	Tatsunori Sakamoto and Harukazu Hiraumi	
2	Therapeutic Targets and Possible Strategies for Regenerative Medicine for the Inner Ear	15
	Takayuki Nakagawa	
3	Hair Cell	23
	Norio Yamamoto	
4	Stereocilia	31
	Tomoko Kita, Tatsuya Katsuno, and Shin-ichiro Kitajiri	
5	Cochlear Lateral Wall	39
	Takayuki Okano	
6	Spiral Ganglion Cell and Auditory Neuron	53
	Tetsuji Sekiya and Harukazu Hiraumi	
7	Synaptic Contacts Between Hair Cells and Primary Neurons	61
	Takayuki Nakagawa	
8	Otolith	67
	Yosuke Tona and Akiko Taura	
9	Tectorial Membrane	75
	Yosuke Tona and Tatsunori Sakamoto	

Part II Development of the Inner Ear

10 Development and Regeneration	83
Norio Yamamoto	
11 Otic Induction	91
Hiroe Ohnishi and Tatsunori Sakamoto	
12 Cochlear Development	101
Tomoko Tateya	
13 Vestibular Development	115
Hiroko Torii and Akiko Taura	

Part III Cochlear Implants

14 Cochlear Implant: Past, Present, and Future	129
Hiroshi Yamazaki	
15 Recent Progress in Cochlear Implant	139
Harukazu Hiraumi	
16 Regenerative Medicine in Cochlear Implantation	149
Norio Yamamoto	
17 Artificial Cochlear Epithelium	157
Takayuki Nakagawa and Satoyuki Kawano	
18 Auditory Brainstem Implant	165
Hiroshi Yamazaki	

Part IV Hair Cell Regeneration

19 Hair Cell Regeneration in the Avian	181
Tomoko Kita	
20 Self-Repair	189
Akiko Taura and Takayuki Nakagawa	
21 Transdifferentiation	199
Norio Yamamoto	
22 Dedifferentiation-Mediated Regeneration	209
Koji Nishimura and Takayuki Nakagawa	
23 Gene Therapy	215
Akiko Taura	
24 Cell Therapy	223
Takayuki Okano	

Part V Spiral Ganglion Neuron Regeneration

25 Clinical Background	237
Harukazu Hiraumi	
26 SGN Development	247
Koji Nishimura and Norio Yamamoto	
27 Gene Therapy for Regeneration and Preservation of Spiral Ganglion Neurons	255
Hiroshi Yamazaki and Takayuki Nakagawa	
28 Cell Therapy for Regeneration of Spinal Ganglion Neurons	265
Tetsuji Sekiya and Masaaki Ishikawa	
29 Afferent Dendrite and Axon	273
Takayuki Nakagawa	

Part VI Stem Cells

30 Inner Ear Stem Cells	281
Mirei Taniguchi and Norio Yamamoto	
31 Pluripotent Stem Cells	287
Tatsunori Sakamoto, Koji Nishimura, Hiroe Ohnishi, and Takehiro Iki	
32 Somatic Stem Cells	305
Takayuki Nakagawa	

Part VII Future Perspective

33 Regenerative Medicine for the Inner Ear: Summary	313
Juichi Ito	

Regenerative Medicine for the Inner Ear

Ito, J. (Ed.)

2014, XI, 321 p. 65 illus., 48 illus. in color., Hardcover

ISBN: 978-4-431-54861-4
