

# Contents

<b>1</b>	<b>Evolution and Diversity of Visual Pigments in Connection with Their Functional Differences . . . . .</b>	<b>1</b>
	Keita Sato and Yoshinori Shichida	
<b>2</b>	<b>Phototransduction in Rods and Cones . . . . .</b>	<b>23</b>
	Satoru Kawamura and Shuji Tachibanaki	
<b>3</b>	<b>Regeneration of 11-<i>cis</i>-Retinal in Visual Systems with Monostable and Bistable Visual Pigments . . . . .</b>	<b>47</b>
	John C. Saari	
<b>4</b>	<b>Molecular Mechanism of Adaptation in Vertebrate Rods . . . . .</b>	<b>73</b>
	Ala Morshedean and Gordon L. Fain	
<b>5</b>	<b>Energy Metabolism in the Vertebrate Retina . . . . .</b>	<b>91</b>
	James B. Hurley, Andrei O. Chertov, Ken Lindsay, Michelle Giamarco, Whitney Cleghorn, Jianhai Du, and Susan Brockerhoff	
<b>6</b>	<b>Role and Mechanism of Ciliary Transport . . . . .</b>	<b>139</b>
	Dusanka Deretic	
<b>7</b>	<b>Molecular Mechanisms of Photoreceptor Synaptic Transmission . . . . .</b>	<b>167</b>
	Matthew J. Van Hook and Wallace B. Thoreson	
<b>8</b>	<b>Structure and Development of the Photoreceptor Ribbon Synapse . . . . .</b>	<b>199</b>
	Yoshihiro Omori and Takahisa Furukawa	
<b>9</b>	<b>Cell Fate Determination of Photoreceptor Cells . . . . .</b>	<b>217</b>
	Constance Cepko	

<b>10</b>	<b>Cell Polarity in Differentiation and Patterning of Photoreceptors . . . . .</b>	<b>245</b>
	Jarema J. Malicki	
<b>11</b>	<b>Photoreceptor Degeneration: Molecular Mechanisms of Photoreceptor Degeneration . . . . .</b>	<b>275</b>
	Jerome E. Roger and Anand Swaroop	
<b>12</b>	<b>Photoreceptor Transplantation and Regeneration . . . . .</b>	<b>309</b>
	Valeria Marigo and Simona Casarosa	
<b>13</b>	<b>Molecular Mechanisms of the Function of Pineal Organs . . . . .</b>	<b>327</b>
	Daisuke Kojima and Yoshitaka Fukada	
	<b>Index . . . . .</b>	<b>343</b>

Vertebrate Photoreceptors

Functional Molecular Bases

Furukawa, T.; Hurley, J.B.; Kawamura, S. (Eds.)

2014, VIII, 349 p. 66 illus., 47 illus. in color., Hardcover

ISBN: 978-4-431-54879-9
