

# Contents

<b>Radiometric Studies and Base Line Calibrations for NORM and TENORM Studies.....</b>	<b>1</b>
Debashish Sengupta, Saurabh Mittal and Kajori Parial	
<b>Arsenic Fate and Transport in the Groundwater-Soil-Plant System: An Understanding of Suitable Rice Paddy Cultivation in Arsenic Enriched Areas.....</b>	<b>21</b>
P. K. Sahoo and A. Mukherjee	
<b>Geophysical Signatures for Detection of Fresh Water and Saline Water Zones.....</b>	<b>45</b>
Kalyan Kumar Roy	
<b>Prevention and Treatment of Acid Mine Drainage: An Overview .....</b>	<b>95</b>
D. P. Tripathy	
<b>Very Low-Frequency Electromagnetic Method: A Shallow Subsurface Investigation Technique for Geophysical Applications .....</b>	<b>119</b>
S. P. Sharma, Arkoprovo Biswas and V. C. Baranwal	
<b>Treatment of Industrial Wastewater .....</b>	<b>143</b>
A. K. Gupta and C. Sahoo	
<b>Environmental Effects of the Fukushima Daiichi Nuclear Power Plant Accident.....</b>	<b>167</b>
Katsumi Hirose	

<b>Applications of Remote Sensing, Geographic Information System and Geostatistics in the Study of Arsenic Contamination in Groundwater .....</b>	<b>197</b>
A. R. Ghosh and Kajori Parial	
<b>Modeling Radon Behavior for Characterizing and Forecasting Geophysical Variables at the Atmosphere–Soil Interface .....</b>	<b>213</b>
Antonello Pasini, Roberto Salzano and Alessandro Attanasio	
<b>Index .....</b>	<b>239</b>

Recent Trends in Modelling of Environmental  
Contaminants

Sengupta, D. (Ed.)

2014, XV, 243 p. 98 illus., Hardcover

ISBN: 978-81-322-1782-4
