
Contents

1	A Brief Introduction to Phytoplanktons	1
1.1	General	1
1.2	Historical Perspective	1
1.3	Algal Classification	2
1.3.1	Old Classical Taxonomy	3
1.3.2	Modern System of Algal Classification	8
1.4	Classification of Phytoplanktons.....	15
1.4.1	On the Basis of Size Variations.....	15
1.4.2	On the Basis of Habitat	16
1.5	Algal Pigments.....	18
1.6	Ecological Significance.....	23
1.6.1	Phytoplankton Bloom	23
1.6.2	Cyanobacterial Bloom	24
1.6.3	Dinoflagellate Bloom	25
1.6.4	Algal Toxins	27
1.7	Algae in Wetlands	28
1.7.1	Role of Phytoplanktons in Wetlands	29
1.7.2	Nutrient Status of Wetland Ecosystem.....	29
1.7.3	Types of Wetlands	30
1.8	Key to Identification of Common Phytoplankton Genera.....	30
1.8.1	Division: Cyanobacteria.....	30
1.8.2	Division: Chlorophyta.....	31
1.8.3	Order: Volvocales	32
1.8.4	Order: Chlorococcales	32
1.8.5	Division: Bacillariophyta (Diatoms).....	33
	References.....	39
2	Physicochemical Environment of Aquatic Ecosystem	43
2.1	Physical Factors	43
2.1.1	Light and Temperature	43
2.1.2	Turbulence.....	45
2.2	Major Nutrients.....	46
2.2.1	Redfield Ratio	47
2.2.2	Carbon.....	47
2.2.3	Nitrogen	49
2.2.4	Phosphorus.....	50

2.2.5	Silicon	51
2.2.6	Nutrient Uptake Model	52
	References.....	52
3	Phytoplanktons and Primary Productivity	55
	References.....	57
4	Community Pattern Analysis	59
4.1	Phytoplankton Sampling.....	59
4.1.1	Bottle Samplers.....	59
4.1.2	Plankton Pumps	60
4.1.3	Plankton Nets	61
4.2	Biomass Estimation	62
4.2.1	Cell Counts.....	63
4.2.2	Utermohl Sedimentation Method for Cell Counts.....	63
4.2.3	Biovolume	64
4.2.4	Chlorophyll and Photopigments	65
4.3	Species Diversity Index.....	68
4.3.1	Species Evenness	69
4.3.2	Species Richness.....	69
4.4	Multivariate Analysis	70
4.4.1	Preparation of Data Sets.....	70
4.4.2	Data Transformations.....	70
4.4.3	Exploratory Analysis.....	71
	References.....	73
5	Case Study	75
5.1	Studies from Eastern Mediterranean Region: A Review	75
5.2	Case Study I: Phytoplankton Diversity of East Calcutta Wetland: A Ramsar Site.....	78
5.2.1	Study Area.....	78
5.2.2	Results.....	79
5.3	Case Study II: Phytoplankton Diversity of Indian Sunderbans	88
5.3.1	List of Phytoplankton Genera Recorded from Sunderbans	89
5.3.2	Taxonomic Account of a Few Phytoplankton Taxa Recorded from Sunderbans (Rest Are in Case Studies I and III)	89
5.4	Case Study III: Phytoplankton Dynamics of Eastern Indian Coast.....	92
5.4.1	Study Area.....	92
5.4.2	Nutrient and Phytoplankton Dynamics of Coastal West Bengal	92
	References.....	158
	Glossary	163
	Bibliography	167
