## Part I History of Mercury Toxicology

<b>1</b>	<b>Occurrence and Properties .....</b>	<b>3</b>
	Mercury Element (The Liquid Metal).....	3
	Properties .....	3
	History.....	5
	Occurrence .....	5
	Releases in the Environment.....	6
	References.....	7
<b>2</b>	<b>Estimated Applications .....</b>	<b>9</b>
	Present Use.....	9
	Proposed Uses.....	13
	Historic Uses.....	13
	References.....	13
<b>3</b>	<b>Distribution, Metabolism, and Excretion .....</b>	<b>15</b>
	Biochemical Aspects.....	15
	Effect on Enzymes and Other Biochemical Parameters .....	18
	References.....	18
<b>4</b>	<b>Toxic Effects and Remedy .....</b>	<b>19</b>
	Toxicological Studies.....	19
	Adverse Effects on Cellular and Nutritional Alterations .....	19
	Toxicity to Other Organs and Systems in the Body.....	20
	How Does Mercury Affect the Nervous System? .....	20
	Tests for Mercury Exposure.....	24
	Safety .....	24
	References.....	25
<b>5</b>	<b>Antioxidant Drugs Mitigating Toxicity .....</b>	<b>29</b>
	Vitamin E (An Antioxidant Drug).....	29
	Acetyl-L-Carnitine.....	32
	References.....	33
<b>6</b>	<b>Mercury and Cognition .....</b>	<b>37</b>
	Methylmercury and Behavior Plasticity .....	37
	Conclusion .....	44
	References.....	44

## Part II Review of Literature

<b>7</b>	<b>Exposure, Sources, and Intoxication</b> .....	51
	Methylmercury Exposure.....	52
	Sources of Exposure .....	52
	Methylmercury in the Environment.....	53
	Methylmercury Toxicity.....	55
	References.....	60
<b>8</b>	<b>Methylmercury and Oxidative Stress</b> .....	65
	Inhibition of Protein Synthesis.....	65
	Concluding Remarks.....	67
	References.....	68

## Part III Toxicity Evaluation Methodology

<b>9</b>	<b>Materials and Analytical Procedures</b> .....	73
	Animals and Administration Procedure.....	73
	Analytical Procedures .....	74
	Dissection of Rats and Collection of Different Organs .....	74
	Collection of Blood for Plasma “Total Antioxidant Power” and “Xanthine Oxidase Activity”.....	74
	Collection of Bone Marrow for Cytogenetic Study.....	75
	References.....	75
<b>10</b>	<b>Biochemical Estimation Techniques</b> .....	77
	Biochemical Studies.....	77
	Estimation of Lipid Peroxide .....	77
	Estimation of Lipid Hydroperoxide.....	78
	Estimation of Total Sulfhydryl Group (TSH) .....	78
	Estimation of Free Sulfhydryl Group (GSH).....	79
	Estimation of Superoxide Dismutase (SOD) .....	79
	Estimation of Catalase ( $\text{H}_2\text{O}_2$ : $\text{H}_2\text{O}_2$ Oxidoreductase, EC 1.11.1.6).....	80
	Protein Estimation.....	80
	Measurement of FRAP of Plasma (Total Antioxidant Power).....	81
	Assay of Xanthine Oxidase Activity.....	82
	Glutathione Peroxidase (GSH-Px) Assay in Plasma.....	82
	Observation of Body Weight, Food Intake, Water Intake, and Tissue Weight.....	82
	References.....	83
<b>11</b>	<b>Neurobehavioral Assessment Models</b> .....	85
	Behavioral Experiments.....	85
	Despair Based .....	87
	Anxiety Based.....	90
	Statistical Evaluation.....	90
	References.....	90

**Part IV Free Radical Stress**

<b>12 Mercury as a Source of Reactive Oxygen Species</b> .....	95
Signaling and Damaging Effects.....	96
Oxidative Damage.....	97
Internal Production.....	97
References.....	98
<b>13 Promotion of Peroxidation and Hydroperoxidation of Lipids</b> .....	101
References.....	103
<b>14 Results and Conclusions</b> .....	105
Protocol.....	105
Results.....	105
Lipid Hydroperoxidation .....	107
Protein.....	108
Effect of Methylmercury, Vitamin E, and Acetyl-L-Carnitine on Tissue Weight of Rats.....	108
Discussion .....	110
Conclusion .....	112
References.....	112

**Part V Toxic Responses of Antioxidant  
Defense System**

<b>15 Endogenous Antioxidants</b> .....	117
References.....	120
<b>16 Deregulation of Antioxidant Activities</b> .....	121
Protocol.....	121
Results.....	122
Superoxide Dismutase (SOD).....	122
Catalase (CAT).....	123
Total Sulfhydryl (TSH).....	124
Free Sulfhydryl Group (GSH) .....	125
Discussion .....	125
Conclusion .....	126
References.....	127

**Part VI Systemic Toxicology**

<b>17 Toxic Responses of the Plasma Total Antioxidant Power (FRAP)</b> .....	131
Protocol.....	132
Results.....	132
Discussion .....	133
Conclusion .....	133
References.....	133

<b>18 Toxic Responses of the Plasma Xanthine Oxidase (XO).....</b>	<b>135</b>
Protocol.....	135
Results.....	136
Discussion.....	136
Conclusion.....	137
References.....	137

<b>19 Toxic Responses of the Plasma Glutathione Peroxidase (GSH-Px) .....</b>	<b>139</b>
Results.....	139
Discussion.....	139
Conclusion.....	142
References.....	142

## **Part VII Neurobehavioral Toxicology**

<b>20 Impairment of Emotional Behavior .....</b>	<b>147</b>
Open-Field Behavior (OFB) Apparatus.....	149
Protocol.....	149
OFB Procedure.....	149
Results.....	150
Discussion.....	152
Conclusion.....	153
References.....	154

<b>21 Connection to Anxiolytic Behavior and Reflex Movements .....</b>	<b>157</b>
Behavioral Testing Procedure.....	157
Results.....	158
Discussion.....	158
Conclusion.....	162
References.....	162

<b>22 Effects on Depression-Like Behavior .....</b>	<b>163</b>
Protocol.....	163
Results.....	164
Discussion.....	165
Conclusion.....	167
References.....	167

## **Part VIII Genetic Toxicology**

<b>23 Micronucleus Test (MNT) .....</b>	<b>171</b>
Protocol.....	172
Results.....	173
Discussion.....	174
Conclusion.....	175
References.....	175

<b>24 Chromosomal Aberrations .....</b>	<b>179</b>
Protocol.....	180
Results.....	180
Chromosomal Aberrations: Methylmercury Connection.....	180

Discussion .....	180
Conclusion .....	182
References.....	182

## **Part IX Methylmercury Toxicity and Linked Diseases**

<b>25 Methylmercury and Minamata Disease .....</b>	<b>187</b>
1908–1955.....	187
1956–1959.....	188
Finding the Cause .....	189
Identification of Mercury .....	189
1959 .....	190
Compensation of Fishermen and Patients, 1959.....	190
Wastewater Treatment.....	191
1959–1969.....	192
Continued Pollution .....	192
Congenital Minamata Disease .....	192
Outbreak of Niigata Minamata Disease.....	193
1969–1973.....	194
Struggle for a New Agreement.....	194
Uncertified Patients' Fight to Be Recognized.....	196
Victims .....	196
Democratizing Effects.....	197
Media .....	197
In Popular Culture.....	198
Minamata Disease Today .....	198
References.....	199
<b>26 Methylmercury and Alzheimer's Disease .....</b>	<b>201</b>
Experimental Mercury Effects and Alzheimer's Disease .....	203
References.....	207
<b>27 Methylmercury and Parkinson's Disease .....</b>	<b>211</b>
Huggins Total Dental Revision Protocol.....	216
Tests Suggested by Huggins/Levy (35) for Evaluation and Treatment of Mercury Toxicity .....	216
Test Results Indicating Mercury/Metals Toxicity .....	217
References.....	218
<b>28 Methylmercury and Thimerosal.....</b>	<b>219</b>
What Is Thimerosal? .....	219
Why Is Thimerosal Used as a Preservative in Vaccines?.....	219
How Does Thimerosal Work in the Body? .....	220
Is Thimerosal Safe?.....	220
What Are the Possible Side Effects of Thimerosal? .....	220
Does Thimerosal Cause Autism? .....	220
Do MMR Vaccines Contain Thimerosal? .....	220
Do All Flu Vaccines Contain Thimerosal?.....	220
Thimerosal in Vaccines .....	220
Preservatives in Vaccines .....	223
Thimerosal as a Preservative.....	224

Guidelines on Exposure to Organomercurials .....	224
Thimerosal Toxicity .....	227
Recent and Future FDA Action.....	228
The Safety Review of Thimerosal-Containing Vaccines and Neurodevelopmental Disorders Conducted by the Institute of Medicine .....	229
Establishment Safety Debate: Thimerosal in Vaccines Versus Admittedly Dangerous Methylmercury.....	230
References.....	232
<b>29 Thimerosal and Occurrence of Autism .....</b>	<b>233</b>
Banned Around the World, But Not in the United States .....	233
Links Between Autism and Thimerosal .....	234
Statistical Evidence Links Thimerosal with Nervous System Disorders.....	234
Merck Continues Selling Vaccines with Thimerosal .....	235
Grassroots Action Against Vaccine Manufacturers.....	235
The Thimerosal Debate Continues.....	236
The Experts Speak on Mercury, Vaccines, and Thimerosal.....	237
References.....	241
<b>30 Methylmercury and Lupus .....</b>	<b>243</b>
Systemic Lupus Erythematosus .....	243
The Incidence of Lupus .....	243
What Is Lupus? .....	244
Allopathic Medicine: The Diagnosis and Treatment of SLE.....	245
Natural Medicine: The Case for Metal Toxicity as a Cause of Lupus .....	245
The Causative Role of Mercury in Immune Dysfunction in Lupus.....	246
Mercury and the Neurological Symptoms of Lupus.....	246
Heredity and Lupus.....	246
The Symptoms of Mercury Poisoning and Lupus Are the Same .....	247
Lupus Symptoms Improve When Amalgam Fillings Are Removed .....	247
Mercury Impairs Detoxification.....	247
Epidemiological Evidence Supports Mercury Toxicity as a Cause of Lupus .....	248
The Natural Medicine View of SLE.....	248
A Quick Synopsis of Common Lupus Symptoms .....	249
<b>31 Methylmercury and Amyotrophic Lateral Sclerosis.....</b>	<b>251</b>
Documentation of High Common Exposures and Accumulation of Mercury in Motor Neurons.....	252
Effects of Exposure to Mercury and Toxic Metals .....	252
Prevention and Treatment of ALS.....	259
