
Contents

Part I Extracranial Veins

1	Ultrasound Machine: The Significance of Venous Preset . . .	3
2	Ultrasound Anatomy and How to do the Examination. . . .	9
2.1	Jugular Veins	9
2.2	Internal Jugular Vein Valves.	10
2.3	Size of the IJV and Cross-Sectional Area.	10
2.4	Branches of the IJV.	11
2.5	Superficial Veins of the Neck	12
2.6	Vertebral Veins	12
2.7	Doppler Waveform	13
	References	30
3	Postural Changes and Activation Tests	33
3.1	Postural Changes.	33
3.2	Activation Tests	34
	References	42
4	Main Pathological Pictures with Ultrasound	45
4.1	Internal Jugular Vein Valves and Incontinence	45
4.2	The Jugular Valve System and Valve Leaflets Malformations.	47
4.3	The Block of Blood Flow.	47
4.4	Internal Jugular Vein Branches	47
4.5	Jugular Vein Thrombosis	47
4.6	Vertebral Veins	48
	References	74

Part II Intracranial Veins

5	Ultrasound Machine: The Significance of Venous Preset . . .	79
	Reference	83

6	Ultrasound Anatomy and How to do the Examination	85
6.1	Anatomical Remarks	85
6.2	Ultrasound Examination	86
	References	96
7	Main Pathological Pictures with Ultrasound	99
7.1	Cerebral Vein Thrombosis	99
7.2	Traumatic Brain Injury and Intracranial Hypertension . .	100
7.3	Artero-Venous Malformations and Fistulas	100
	References	114
8	Global Hemodynamic Evaluation and Outflow Variability	115
	References	119
9	Imaging Fusion Technology for Evaluating Intracranial Veins	121
	References	139

Neurosonological Evaluation of Cerebral Venous
Outflow

An Ultrasound Atlas

Malferrari, G.; Zedde, M.; Prati, P.

2014, IX, 139 p. 162 illus., 156 illus. in color., Hardcover

ISBN: 978-88-470-5464-6
