

Contents

1	Purpose and Background of Study	1
1.1	Introduction	1
1.2	Shīrāzī and His Era	7
1.2.1	The Marāgha School	7
1.2.2	Shīrāzī: Preliminary Remarks	9
1.2.3	Status of Scholarship on Shīrāzī's Astronomy	10
1.2.4	Methodology and Approach	10
1.2.5	Outline	11
1.3	The Sources	12
1.3.1	Astronomical	12
1.3.2	Biographical	13
2	The Mongols in Iran	21
2.1	Introduction	22
2.2	The Mongols in Iran: Global and Local Perspectives	23
2.3	A Chronology of the Ilkhans	31
2.3.1	The Founding of a Dynasty: Hülegü (1256–1265 C.E.)	31
2.3.2	The Mamluk Challenge: Abaqa (1265–1282 C.E.)	37
2.3.3	An Adoption of Popular Customs: Tegüder Aḥmad (1282–1284 C.E.)	39
2.3.4	A Return to Mongol Traditions: Arghūn (1284–1291 C.E.)	42
2.3.5	Culminating Crisis: Gaykhātū (1291–1295 C.E.) and Bāydū (1295 C.E.)	45
2.3.6	Reformation and Recovery: Ghāzān (1295–1304 C.E.)	47
2.3.7	A Peaceful Interlude: Öljeitü (1304–1316 C.E.)	49
2.3.8	The Waning Years: Abū Saʿīd (1316–1335 C.E.)	50
2.4	The Mongols and the Patronage of the Sciences	51

3	Shīrāzī's Life	61
3.1	Introduction	61
3.2	Shīrāzī's Biographical Information in the <i>al-Tuḥfa al-Sa'dīya</i>	62
3.3	Biographical Information in <i>Majma' al-ādāb</i>	65
3.4	Biographical Information in <i>Tārīkh al-Islām</i>	67
3.5	Biographical Information in <i>Tārīkh 'ulamā' Baghdād</i>	70
3.6	Biographical Information in <i>al-Durar al-Kāmina</i>	76
3.7	Biographical Information from Shīrāzī's <i>Durra</i>	77
3.8	The Final Decades	78
3.9	The Patrons	79
3.10	Shīrāzī's Patrons: Concluding Remarks	83
4	The Principal Astronomical Sources	85
4.1	Chronological Considerations	85
4.2	The Exordia	87
4.3	The Structural Outline of the Works in Question	95
4.4	Chronology Revisited	97
4.5	The Hypotheses	98
4.6	On the Moon	101
4.7	On the Superior Planets	106
4.8	Discussion	120
5	Persian vs. Arabic: Language as Determinant of Content in Shīrāzī's Works on <i>Hay'a</i>	123
5.1	Introduction	123
5.2	Persian vs. Arabic in the Chapter on the Superior Planets	127
5.2.1	The Eccentricity of the Equant and of the Deferent	129
5.2.2	The Conjectural and Deductive Hypotheses	132
5.2.3	The Question of "Alignment"	134
5.3	Discussion	139
5.4	Conclusion	142
6	Concluding Remarks	145
6.1	The Interrelation of Shīrāzī's Works on <i>Hay'a</i>	145
6.2	Physical and Mathematical Principles in Shīrāzī's <i>hay'a</i>	146
6.3	Alchemy at Marāgha	150
6.4	Persian vs. Arabic in the Scientific Works of the Persianate World: Future Work	152
	Appendices	155
	Appendix A	155
	Appendix B: Chapter Outlines for the Chapter on the Superior Planets	161
	Appendix C: From the Chapter on the Superior Planets	163

Appendix D: The Hypotheses	173
Appendix E: A Comparison of the <i>Ikhṭiyārāt</i> and the <i>Nihāya</i> in Regard to the Inclination of the Orbs of the Encompasser, the Dirigent, and the Maintainer for the Superior Planets.....	174
Bibliography	177
Index	185

Qutb al-Dīn Shīrāzī and the Configuration of the
Heavens

A Comparison of Texts and Models

Niazi, K.

2014, XIII, 189 p. 30 illus.,
