
Contents

Part I Molecular Mechanisms

1 Classification/Diagnosis of Brain Tumors Using Discriminant Function Analysis.....	3
Magdalena Szczerbowska-Boruchowska	
2 Neuronal Differentiation in the Adult Brain: CDK6 as the Molecular Regulator	19
Nicolas Caron, Emmanuelle C. Genin, Renaud Vandebosch, Pierre Beukelaers, Laurent Nguyen, and Brigitte Malgrange	
3 Prolactinomas: Role of VEGF, FGF-2 and CD31	33
Maria Ines, Perez Millán, Carolina Cristina, Silvia Inés Berner, and Damasía Becu-Villalobos	
4 Human Brain Tumor Growth: Role of Aquaporins.....	43
Beatrice Nico, Simona Ruggieri, and Domenico Ribatti	
5 Molecular and Functional Characterization of Human Adipocytes.....	51
Antonella Poloni and Giulia Maurizi	

Part II Children's Cancer

6 Inhibition of Neuroblastoma Progression by Targeting Lymphangiogenesis: Role of an Endogenous Soluble Splice-Variant of VEGFR-2.....	63
Jürgen Becker	
7 Hyperinsulinemia Tends to Induce Growth Without Growth Hormone in Children with Brain Tumors After Neurosurgery	73
Norishi Ueda and Hideyuki Iwayama	
8 Childhood Brain Tumours: Proton Beam Therapy	91
Yasmin Lassen-Ramshad, Jørgen B. Petersen, Akmal Safwat, Henrik Pagh Schultz, and Morten Høyer	
9 Pathogenesis of Medulloblastoma: Role of Molecular Genetic Alterations	107
Mustafa Nadi, Claudia Faria, and James T. Rutka	

10 Medulloblastomas: Survival Differences Between Children and Adults.....	121
Nicolas Smoll	
11 Survivors of Childhood Cancer: Risk of Glioma and Meningioma Following Radiotherapy	129
Lucie M. Turcotte and Joseph P. Neglia	
12 Survivors of Childhood Cancer: Risk of New Primary Neoplasms of the CNS	137
Lucie M. Turcotte and Joseph P. Neglia	

Part III Treatments

13 Brain Tumor Typing and Therapy Using Combined Ex Vivo Magnetic Resonance Spectroscopy and Molecular Genomics.....	149
Loukas G. Astrakas and A. Aria Tzika	
14 Atlas-Based Segmentation of Tumor-Bearing Brain Images.....	159
Stefan Bauer, Roland Wiest, Johannes Slotboom, and Mauricio Reyes	
15 Nonthermal Irreversible Electroporation as a Focal Ablation Treatment for Brain Cancer.....	171
Paulo A. Garcia, John H. Rossmeisl Jr., Thomas L. Ellis, and Rafael V. Davalos	
16 The Role of Whole Brain Radiation Therapy for Metastatic Brain Tumors.....	183
Melvin Omodon and Steven Kalkanis	
17 Craniotomy for Intracranial Tumors: Role of Postoperative Hematoma in Surgical Mortality.....	191
Torstein R. Meling, Benjamin Lassen, and Eirik Helseth	
18 Pituitary Adenomas: Treatment Using the Endonasal Approach	201
Leo F.S. Ditzel Filho, Nancy McLaughlin, Domenico Solari, Daniel M. Prevedello, Amin B. Kassam, Ricardo L. Carrau, and Daniel F. Kelly	
19 Intracranial Tumors: Treatment with Endoscopic Neurosurgery	213
Giuseppe Talamonti, Giuseppe D'Aliberti, and Alberto Debernardi	
20 Incidence of Recraniotomy for Postoperative Infections After Surgery for Intracranial Tumors.....	227
Torstein R. Meling, Benjamin Lassen, and Eirik Helseth	

21 Transsphenoidal Surgery for Non-Adenomatous Tumors: Effect on Pituitary Function	235
Garni Barkhoudarian, Aaron Cutler, and Daniel F. Kelly	
22 Treatment of Brain Tumors: Electrochemotherapy	247
Mette Linnert, Birgit Agerholm-Larsen, Faisal Mahmood, Helle K. Iversen, and Julie Gehl	
23 Comparison of Navigated Transcranial Magnetic Stimulation to Direct Electrical Stimulation for Mapping the Motor Cortex Prior to Brain Tumor Resection	261
Satoshi Takahashi and Thomas Picht	
24 The Role of Glutathione and the Glutathione-Linked Enzyme Systems in Brain Tumor Drug Resistance	277
Donald S. Backos, Robyn L. Poerschke, Christopher C. Franklin, and Philip Reigan	
25 Drugs for Primary Brain Tumors: An Update	291
Lauren Nye, Timothy Huyck, and Jeffrey Raizer	
26 Neurosurgical Treatment for Brain Metastases: Clinical Features, Operative Strategies, Recurrence and Survival	301
Andreas M. Stark	
 Part IV Radiosurgery	
27 Image-Guided Radiosurgery for Hypothalamic Hamartomas	315
Karen Huscher and Pantaleo Romanelli	
28 Image-Guided Stereotactic Radiosurgery for Spinal Pathology.....	321
Pantaleo Romanelli and Alfredo Conti	
29 Image-Guided Stereotactic Radiosurgery for Optic Nerve Sheath Meningiomas.....	335
Pantaleo Romanelli and Alfredo Conti	
30 Brain Metastases: The Application of Stereotactic Radiosurgery and Technological Advances	345
Siavash Jabbari, Lijun Ma, Paul Sanghera, Eric L. Chang, Sam T. Chao, Alex Karotki, Hany Soliman, Simon S. Lo, Daniel Letourneau, James Perry, David A. Larson, and Arjun Sahgal	
31 Treatment of Chordomas by Stereotactic Radiosurgery with a Linear Accelerator: Comparison with Other Modes	359
Fraser C. Henderson Sr., Kyle McCool, Juliet Seigle, and Gregory J. Gagnon	
Index.....	369

Tumors of the Central Nervous System, Volume 12
Molecular Mechanisms, Children's Cancer, Treatments,
and Radiosurgery

Hayat, M.A. (Ed.)

2014, XLVIII, 386 p. 64 illus., 55 illus. in color.,

ISBN: 978-94-007-7217-5
