

Contents

1	Biographical Sketch of Lazare Carnot	1
2	The Science of Machines	15
2.1	Summary of <i>Essai sur les machines en général</i>	15
2.2	Geometric Motions	24
2.3	Moment-of-Momentum.....	30
2.4	Moment-of-Activity-the Concept of Work	36
2.5	Practical Conclusions	43
3	The Development of Carnot's Mechanics	47
3.1	Argument of the 1778 Memoir on the Theory of Machines	47
3.2	Argument of the 1780 Memoir	58
3.3	Argument of the <i>Principes fondamentaux de l'équilibre et du mouvement</i> (1803)	67
3.4	Comparing the Work of Sadi Carnot	77
4	The Carnot Approach and the Mechanics of Work and Power, 1803–1829	87
4.1	Early Engineering Mechanics	88
4.2	Applied Mechanics	92
4.3	The Concept of Work	100
5	An Engineering Justification of Algebra and the Calculus	107
5.1	Geometric Analysis and the Problem of Negative Quantity	109
5.2	The Compensation of Error in Infinitesimal Analysis.....	120
5.3	Analysis and Synthesis	130
6	History and Historiography of Sadi Carnot's Thermodynamics	133
6.1	A Historical <i>Excursus</i>	133
6.1.1	On the Science of Sadi Carnot's Time: The Mechanics .	133
6.1.2	On the Science of Sadi Carnot's Time: The Theory of Heat	138
6.1.3	Toward Physical Mathematical Theories.....	140

6.2	A Historiographical <i>Excursus</i>	142
6.2.1	On Sadi Carnot's Historiography	142
6.3	On the Methodology used to Investigate Sadi Carnot's Science .	148
6.3.1	On <i>Specificity</i> and <i>Scientificity</i> in Historical Discourse .	149
6.3.2	On <i>Interpretation</i> in Historical Discourse.....	153
6.3.3	On <i>Categories</i> in History of Science	154
6.4	Biographical Sketch of Sadi Carnot.....	158
6.4.1	<i>Notes on the Philological Aspects of</i> <i>Réflexions sur la puissance motrice du feu</i>	158
6.4.2	<i>On Sadi Carnot's Studies at École polytechnique</i>	171
6.5	An <i>Ad Hoc</i> Index of <i>Réflexions sur la puissance motrice du feu</i> .	183
7	On Principles in Sadi Carnot's Thermodynamics	191
7.1	An Outline of the Problem of History and Logic.....	191
7.1.1	On the Mathematics	192
7.1.2	On the Physics	193
7.1.3	On the Physics Mathematics	195
7.1.4	On the Logic and Structure	197
7.2	Sadi Carnot's Theory and its Logical Organization	199
7.2.1	On the DNSs and Logical Investigation.....	199
7.2.2	The Distribution of DNSs in Sadi Carnot's Book	203
7.2.3	The Possible Theoretical Roles Played by a DNS	205
7.2.4	Sadi Carnot's Arguments Through his DNSs.....	206
7.3	Reconstruction of Arguments and Some Cycles of Reasoning Expressed by DNSs	207
7.4	Sadi Carnot's Thermodynamics as PO Theory. Its Non-classical Logic and its Central Problem	211
7.5	On Sadi Carnot's Theory: a Case Study	213
7.6	Which and How Many Principles did Sadi Carnot Express in his <i>Réflexions sur la puissance motrice du feu</i> ?.....	218
7.7	DNSs and Mathematics in Sadi Carnot's Theory	222
7.8	Final Remarks	223
8	What are the Scientific Roots of Sadi Carnot's Cycle?	227
8.1	An Outline of the Problem	227
8.2	A Comparative Analysis: Volta's Battery and Sadi Carnot's Heat Machine	236
8.2.1	An Analogy Between Heat Fluid and Electric Fluid	236
8.2.2	An Analogy Between the Cycle of Electric Fluid and the Cycle on Heat States	239
8.2.3	An Analogy Between Heat Work and Electric Work	239
8.3	On the Analogy Between Thermodynamics and Electrostatics According to Mach's Investigations	241
8.4	Other Kinds of Analogies	247

8.4.1	On the Birth of Electricity and Thermodynamic Theories.....	247
8.4.2	On the Caloric and Entropy	251
8.5	Final Remarks	254
9	A Historical Epistemology of Thermodynamics.	
	The Mathematics in Sadi Carnot's Theory	257
9.1	An Outline of the Problem	258
9.2	A Book of Physics Without Mathematics?	259
9.3	The Calculations and Historical Interpretation of the Mathematical Footnote	261
9.4	The "Suppression" of Adiabatic Curves in Sadi Carnot's Cycle .	269
9.4.1	Why does Sadi Carnot "Supprime" the Adiabatic Curves?.....	269
9.4.2	<i>A Possible Solution. Lazare Carnot's Synthetic Method</i>	<i>272</i>
9.4.3	<i>The Synthetic Method in Réflexions sur la puissance motrice du feu.....</i>	<i>279</i>
9.5	The Mathematical Character of the Footnote	282
9.6	How did Sadi Carnot use his Adiabatic Equation? A Possible Calculation.....	286
9.7	A Reflection on the Modern Calculation of Efficiency	288
9.8	Final Remarks	290
10	Studies and Heritage of <i>Réflexions sur la puissance motrice du feu</i>	293
10.1	An Outline of the Problem	293
10.2	<i>La théorie analytique de la chaleur</i> . Reflections on Fourier and Lamé.....	294
10.2.1	<i>On Fourier's théorie analytique de la chaleur (1822)...</i>	294
10.2.2	<i>On Lamé's Leçons sur la théorie analytique de la chaleur (1861).....</i>	299
10.2.3	Final Remarks on Fourier and Lamé's Theories.....	302
10.3	Theoretical Advancements on Caloric Theory in Sadi Carnot's Work	304
10.3.1	On the Dynamical Effects of Heat by Ferdinand Reech (1853)	304
10.3.2	On Cycles and Equivalent Mechanic of Heat	314
10.4	On a Comparative Analysis Between Paul de Saint-Robert's <i>Principes de thermodynamique</i> (1865) and Sadi Carnot's <i>Réflexions sur la puissance motrice du feu</i> (1824)	319
10.4.1	On Paul de Saint-Robert.....	319
10.4.2	Historical Analysis of <i>Principes de thermodynamique</i> (1865)	324

11 Final Remarks on the Scientific Relationship Between	
<i>Père et Fils</i>	337
11.1 An Outline of the Problem	337
11.2 A Hypothesis on Structures of the Scientific Parentage.....	340
11.3 On the Lost Newtonian Paradigm	352
11.4 On the Constraints and Production of Work	359
11.5 On the <i>machine en général</i> and its Working Substance	363
11.6 On the Analogy between Hydraulic and Heat Machines.....	365
11.7 On the Efficiency of a Machine	369
11.8 On the Impossibility of Perpetual Motion	370
11.9 On the Synthetic Method	374
11.10 On the Principle of Virtual Work	375
11.11 On the Principle of Virtual Work and the Interactions	383
11.12 On the Principle of Virtual Work and State Equations	385
11.13 Scholars, Formulas, Experiments and Sources cited by Sadi Carnot in his <i>Works</i>	393
11.14 On the Equivalence of Work–Heat	399
11.15 On the Cycle and Reversibility of a Machine	404
11.16 Final Remarks <i>a mò</i> of Conclusion	407
 Appendix to Chapter 7: DNSs Listed in <i>Réflexions sur la</i>	
<i>puissance motrice du feu</i>	413
 Notes on Manuscripts and Documents.....	421
 Special Images of Carnot’s Family	425
 References.....	441
 Analytical Index: Names and Subjects	469

Lazare and Sadi Carnot

A Scientific and Filial Relationship

Gillispie, C.C.; Pisano, P.D.R.

2014, XVI, 490 p. 111 illus., 34 illus. in color., Hardcover

ISBN: 978-94-017-8010-0
