

Contents

1	Introduction	1
	Armen Parsyan	
Part I Translation Machinery in Cancer		
2	Mechanism of Translation in Eukaryotes	7
	Nancy Villa and Christopher S. Fraser	
3	Diverse Mechanisms of Translation Regulation and Their Role in Cancer	39
	Nancy Villa and Christopher S. Fraser	
4	eIF4E and Its Binding Proteins	73
	Nathaniel Robichaud and Nahum Sonenberg	
5	RNA Helicases and Their Cofactors	115
	David Shahbazian, Jerry Pelletier, Yuri Svitkin, John W. B. Hershey and Armen Parsyan	
6	PDCD4	135
	Hsin-Sheng Yang, Qing Wang, Magdalena M. Bajer and Tobias Schmid	
7	eIF4G	163
	Simon D. Wagner, Anne E. Willis and Daniel Beck	
8	eIF3	173
	John W. B. Hershey	
9	The eIF2 Complex and eIF2α	195
	Bertal H. Aktas and Ting Chen	
10	eIF5A	223
	Myung Hee Park, Swati Mandal, Ajeet Mandal and Edith C Wolff	

11 eIF6	233
Stefano Biffo, Daniela Brina and Stefania Oliveto	
12 Translation Elongation	241
Bruna Scaggiante, Barbara Dapas, Rossella Farra, Federica Tonon, Michela Abrami, Mario Grassi, Francesco Musiani, Fabrizio Zanconati, Gabriele Pozzato and Gabriele Grassi	
13 Ribosomes	267
Fabrizio Loreni and Sara Ricciardi	
14 Current and Emerging Therapies Targeting Translation	279
Gabriela Galicia-Vázquez and Jerry Pelletier	
Part II Regulation of Translation by Signaling Pathways in Cancer	
15 mTOR and Regulation of Translation	307
Yoshinori Tsukumo, Mathieu Laplante, Armen Parsyan, Davide Ruggero and Bruno Fonseca	
16 Ribosomal Protein S6 and S6 Kinases	345
Mario Pende and Caroline Treins	
17 eIF4E Phosphorylation Downstream of MAPK Pathway	363
Luc Furic, Emma Beardsley and Ivan Topisirovic	
Part III Cell Fate and Translation in Cancer	
18 Translational Control of Cell Proliferation and Viability in Normal and Neoplastic Cells	377
Svetlana Avdulov, José R. Gómez-García, Peter B. Bitterman and Vitaly A. Polunovsky	
19 Translation and Apoptosis in Cancer	395
Martin Holcik	
20 Translation in Cancer at Hypoxia	421
Tingfang Yi and Gerhard Wagner	
Part IV Translation and Its Regulation by Cancer Types	
21 Melanoma and Non-Melanoma Skin Cancers	435
Armen Parsyan, Ryan J. Sullivan, Ari-Nareg Meguerditchian and Sarkis Meterissian	

22 Sarcomas	453
Armen Parsyan, James L. Chen, Raphael Pollock and Sarkis Meterissian	
23 Hematological Malignancies and Premalignant Conditions	467
Markus Reschke, Nina Seitzer, John G. Clohessy and Pier Paolo Pandolfi	
24 Brain Tumors	487
Armen Parsyan, Justin G. Meyerowitz and William A. Weiss	
25 Head and Neck Cancers	499
Cherie-Ann O. Nathan, Oleksandr Ekshyyan and Arunkumar Anandharaj	
26 Breast Cancer	513
Armen Parsyan, Ana Maria Gonzalez-Angulo, Dimitrios Zardavas, Martine Piccart and Sarkis Meterissian	
27 Cancers of the Respiratory System	557
Armen Parsyan and Karen L. Reckamp	
28 Gastric and Esophageal Cancers	575
Armen Parsyan and Lorenzo Ferri	
29 Colorectal Cancers	593
Armen Parsyan, Nathaniel Robichaud and Sarkis Meterissian	
30 Hepatic, Pancreatic and Biliary Cancers	611
Jennifer A. Sanders and Philip A. Gruppuso	
31 Pancreatic Neuroendocrine Tumors	631
Mamatha Bhat, Peter Metrakos, Santiago Ramon y Cajal, Nahum Sonenberg and Tommy Alain	
32 Gynecologic Cancers	645
Armen Parsyan and Susana Banerjee	
33 Prostate Cancer	657
Nina Seitzer, Markus Reschke, John G. Clohessy and Pier Paolo Pandolfi	
34 Cancers of the Urinary System	673
Armen Parsyan, Emmanuel Seront and Jean-Pascal Machiels	
Index	681

Translation and Its Regulation in Cancer Biology and
Medicine

Parsyan, A. (Ed.)

2014, XXXIV, 697 p. 52 illus., 44 illus. in color.,

Hardcover

ISBN: 978-94-017-9077-2
